Neumann Homes to present plan revisions

Proposal asks for 82 fewer homes

By JULIE MURPHY
Staff Reporter

Neumann Homes will present revised plans for the property commonly known as the Anest property and the former Homer White farm, located between Miller Rd and Rte. 173 to the combined plan commission and zoning board on July 27 at 7:30 p.m. for the purpose of public comment.

According to the legal notice submitted for publication, the developer will seek a specific planned unit development (P.U.D.) within the existing R-1 (one family zoning

district). Additionally, the petitioner will be seeking a special use permit for P.U.D., subdivision code and zoning ordinance variations, alternative park land dedication and alternative park land and open space dedication.

The new proposal will call for 1,308 detached, single-family homes. The previous proposal called for 1,390 homes.

The variations include changes to the table of minimum standards for street design with regard to the radii of horizontal curves and

Statistics show decrease in crime in Antioch

By JULIE MURPHY
Staff Reporter

Information compiled by the Illinois State Police under the Illinois Uniform Crime Reporting Program (I-UCR) indicates that crime decreased in Antioch from 1998 to 1999.

Reported index crimes (R-index)

come under eight categories, and when taken together, they provide some indication of how much serious crime has occurred in the jurisdiction, region, or state. Four of these crimes are violent crimes—murder, criminal assault, robbery and aggravated assault, and four of

Kenosha casino bad gamble for Lake County?

Entertainment operators, politicians worried about \$400 million project

By SANDY HARTOGH
Staff Reporter

A slot machine war between the Potawatomi and Menominee Indian tribes of Wisconsin may have a Lake County faction to contend with in the near future.

The Tavern Owner's Association of Lake County is beginning to fear the potential impact that a proposed \$400 million casino in Kenosha may have on county businesses—particularly taverns and restaurants close to the Illinois-Wisconsin border.

The Menominee tribe is seeking to convert Kenosha's Dairyland Greyhound Park into a mega-casino with over 3,600 slot machines as well

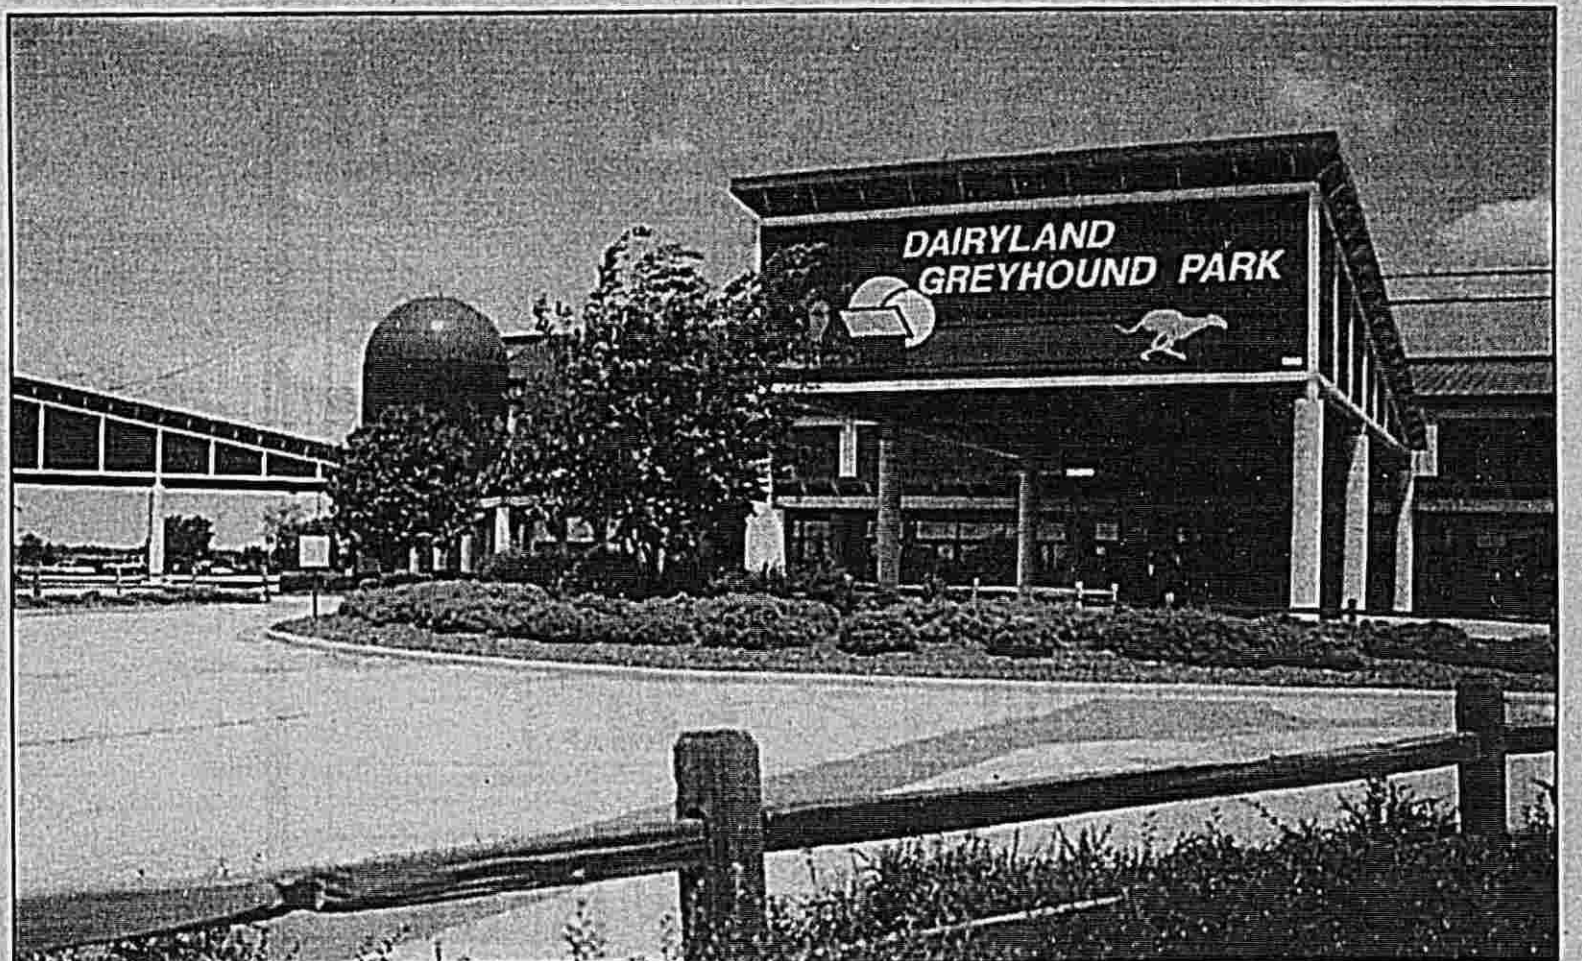

as 120 blackjack tables. The Potawatomi tribe, which has its own casino in Milwaukee, has not taken kindly to the proposal. The Potawatomi Bingo Casino

says it stands to lose almost \$57 million annually if the Menominee's Paradise Key Casino becomes a high roller as one of the Midwest's largest gambling facilities.

According to Steve Riedl, executive director of the Illinois Licensed Beverage Association (ILBA), Lake County will be dealt a loser's hand with a projected annual loss of \$61 million in disposable income.

A report obtained by the ILBA

Shell offers summer travel safety tips for drivers

As millions of Americans take to the roads this summer the Shell Oil Co. has some advice for drivers looking for freedom from highway accidents.

By properly getting ready for a road trip and knowing what to do if a problem occurs, motorists can go a long way toward minimizing the kinds of mishaps that are all too common on crowded thoroughfares. That's why Shell has put together a top 10 list of safety tips, based on information from Shell's driving safety booklets.

1. Before you leave home, make sure your vehicle is up for the task. Check tires for proper inflation. Make sure the windshield, headlights and tail-lights are clean. Check all fluid levels, belts, hoses and clamps and refill or replace as necessary.

2. Make sure your trunk is properly stocked with items that come in handy in the event of an accident. These include a fire extinguisher that's unexpired and securely stored; flares or reflective devices; jack and lug wrench; properly inflated spare tire; flashlight with extra batteries; jumper cables; empty, approved gasoline container; blankets and umbrella, poncho or raincoats.

3. If your battery goes dead, know how to jump-start it safely:

- Position vehicles so jumper cables can reach, but vehicles aren't touching.
- Connect one end of the red cable to the positive terminal of the dead battery, and the other to the positive terminal of the good battery.

• Connect one end of the black cable to the negative terminal of the good battery and the other to an engine bolt head or other piece of non-moving metal.

• Make sure the jumper cables are away from moving engine parts.

• Start the engine with the good battery and run it at a moderate speed.

• Start the engine of the vehicle with the dead battery according to your owner's manual. Once it starts, reduce the engine speed to idle.

• Remove the jumper cables in reverse order, starting with the black cable from the engine bolt or metal connection on the car with the dead battery.

• The engine needs to run for 20 minutes—which can include driving time—to start recharging the battery.

4. Get out of a skid by taking your foot off the gas, and then turning the steering wheel in the direction you want the front of the car to go. This not only helps straighten the car out, but also can help regain traction.

5. In case of a blow-out, know what to expect. If the front tire blows, the vehicle will pull hard to the side of the blow-out. Don't hit the brakes. Hang on to the wheel tightly with your hands in the 9 o'clock and 3 o'clock position, take your foot off the gas and concentrate on staying in your lane. Then slow down and pull off the road to a safe location. If the back tire blows, the rear of the car will weave back and forth. But you should handle it the same way.

6. If you see an accident and want to stop to help, pass well beyond the wreck before signaling and pulling off the road. This keeps you from blocking the view of emergency vehicles and gives emergency crews room to work. Also, turn on your emergency flashers and raise your hood to call attention to yourself.

7. When traveling with children, keep in mind that the safest place for them is the back seat. This keeps them far from the impact in a head-on collision and away from the passenger-side air bag. And always use seatbelts.

8. Remember the 8-80 rule for kids: Children are usually big enough for seat belts when they are 8 years old and weigh 80 pounds. Otherwise, use child-safety seats.

9. Trucks need room to maneuver, so give them some space. Stay 100 or 250 behind the trailer. Don't pass on the right or cut in front of trucks, and stay out of their blind spots. If you can't see the truck driver's face in the side mirrors, the truck driver can't see you.

10. If you are changing lanes, don't rely solely on your rear-and side-view mirrors. There are probably blind spots in your own car, so it's a good idea to quickly turn and visually check for other vehicles next to you before pulling over.

The Count On Shell series of safety booklets address six specific driving issues: hazards on the road; driving with children; how to handle an accident; keeping safe while driving alone; keeping safe during roadside emergencies and how to safely share the road with trucks, trains and motorcycles. The booklets are available at more than 9,000 Shell stations in 39 states, or can be obtained by calling 1 (800) 376-0200 or by visiting Shell's website: www.countonshell.com.

Department of Labor offers amusement ride guidelines

Illinois' amusement parks and carnivals are popular places for children and their families to visit. In fact, more than 23 million people enjoyed amusement rides in Illinois last year.

"Illinois is home to a wide variety of amusement parks and traveling carnivals," said Director Robert M. Healey. "We are proud of what we have to offer in our state, and we thank Illinois families and visitors for the safety record we have achieved throughout the years."

The Illinois Department of Labor enforces amusement ride safety throughout the state and inspects all rides at stationary parks and rides at traveling carnivals or fairs at least once a year. A ride cannot be operated without a permit from the Illinois Department of Labor.

If you do not see the permit issued by the Illinois Department of Labor, ask.

The Department offers the following safety guidelines:

• Look for the current permit sticker issued by the Illinois Department of Labor

- Walk, don't run
- Hold on to handles provided
- Remain seated at all times
- Keep hands and feet inside
- Use safety devices provided
- Follow all instructions given
- Always supervise young children
- Remain behind protective fencing
- Secure loose articles before riding
- Never force your child or friend to ride
- Always seat small people, kids, etc. to the inside

• Riding while under the influence of a controlled substance is extremely hazardous

• Wear proper clothing (no open shoes, etc.)

The Department annually inspects about 1,800 rides operated at 128 permanent sites and 141 carnivals. Approximately 4,800 individual inspections are conducted annually.

Individuals sought for AmeriCorps

Do you need money for school? do you want to make a difference in your community? The American Red Cross has the solution for you—AmeriCorps.

The opportunity to make a lasting impact as an AmeriCorps member through the Red Cross is now available to Illinois residents, age 17 and older, with a strong desire to serve the community. The Red Cross AmeriCorps program is designed to bring vital Red Cross safety and health programs including CPR, first aid, disaster preparedness lessons and HIV/AIDS education to underserved schools and communities throughout Illinois. Through AmeriCorps members, the Red Cross aims to assist Chicago area schools and community organizations in becoming more effective in fighting two major killers of young people today; accidents and AIDS.

AmeriCorps members serve for one year

and receive a modest living stipend. Upon completion of the year of service, members receive an additional award to be used for future education or to repay student loans. Benefits also include provisions for health care and childcare. For further information, contact Susan Allen at the American Red Cross of Greater Chicago by phone at 949-1000 or by e-mail at AllenSu@usa.redcross.org.

The American Red Cross operates around the clock, every day of the year providing community disaster preparedness and relief, safety and health education, international services and assistance to military personnel and their families. The American Red Cross is not a government agency, but is funded through the United Way and individual, corporate and foundation donations. For more information call (312) 729-6100 or visit www.chicagoredcross.org.

Zoning text changes proposed, continued

By JULIE MURPHY
Staff Reporter

The combined planning and zoning board began looking at proposed text changes to the regulations governing annexation and annexation agreements. The impetus for this proposal is the public comment that came from the annexation hearings for the Archdiocese and Pedersen's properties.

Due to the late hour when this second agenda item came up, a continuation date was set for July 13 at the village hall. The subject of fees was completely left for that meeting.

Bob Silhan, director of the planning, zoning and building department, drafted the proposed amendments to clarify the regulations and reduce the potential for conflict.

Silhan said, "The Village of Antioch shall be the sole determiner of whether or not an annexation agreement is required."

He went on to outline the specifics stating that annexation agreements must have an effective time frame and that the village board of directors may impose a lesser time frame than that allowed by state statute (65 ILCS 5/11-15.1-1) at its discretion.

Silhan clarified that the village is under no obligation to annex any parcel. He said, "This may include parcel specifically designated as recommended for annexation by the comprehensive plan based upon a specific proposed plan, time frame, growth control or other issues."

Additionally, the village will not consider annexation requests for property which is not contiguous to its corporate limits. "We do encourage interested parties to come in as part of a joint petition so that there is contiguity. This is the way it should be done."

With regard to the east sub-area, which includes some of the most environmentally sensitive land in north-central Lake County, all an-

nexation agreements for this area will include a requirement that specifies the same density or intensity of development as indicated in the comprehensive plan in existence at the time of the petition to annex, and as approved by ordinance and recorded with Lake County.

Under the E-1 special uses clause, the proposed change stipulates that annexation would be subject to the limitation that there be no net density transfer or variation in the minimum lot area.

Under the E-1 lot size clause, greater than minimum lot sizes will be imposed in areas where the comprehensive plan calls for larger lot sizes.

Reading from the proposal, Silhan said, "For the agriculture/estate land use category there shall be minimum lot sizes of 5 acres, and a lot width at the building line of not less than 300 feet. For the country estate category there shall be a minimum lot size of 3 acres, and a lot width at the building line of not less than 150 feet."

These lot sizes are to be part of the annexation agreement. Additionally, when property is to be residentially developed, the proposal is to be presented as a P.U.D. (planned unit development).

During public comment, resident Marv Raymond thanked Silhan for his work addressing the issue and said, "We (Raymond and his wife Linda) don't want to see the area divided up into small parcels."

Susan Peterson added, "We want to keep the areas with the proper flavor."

Elmer Van Haecke Jr. asked to what extent the village plans annex property and expand. Village attorney Ken Clark answered, "Property owners come to us looking for annexation. It's not the other way."

Resident Marianne Guy expressed mixed gratitude and remorse. "I wish this proposal had been in effect with the Homer White property," she said.

ing parcel and will be the majority of the entrance way into the center," said Mayor Marilyn Shineflug.

The mayor added, "The property will mostly be used as an entrance to the Memorial, but will add 10 additional public parking spaces."

Individual meetings can be scheduled for residents dealing with sewer back-ups

By JULIE MURPHY
Staff Reporter

Residents met with village officials to discuss ways of preventing future sewer back-ups.

Mayor Marilyn Shineflug said, "About 50 people showed up for the meeting. Ken Clark (village attorney) explained that the meeting was to be very specific in nature, and only deal

with the sewer issue."

Shineflug indicated that the meeting was very productive. She said an investigation of illegal sump pumps will begin within the next 30 days. Citations will be given to property owners who have an illegal connection to sanitary sewers.

Additionally, she said, "I will make the village's two plumbing inspectors available to any property

owner who would like to discuss the options John Boldt (consulting engineer for the village) went over in his presentation."

The mayor added, "They will be available to meet during the day or evening, and Saturday to discuss the options individually."

Interested residents need to contact the mayor at village hall at 395-1000 to make further arrangements.

SEDOL is big winner at Fourth festivities

By JULIE MURPHY
Staff Reporter

The Special Education District of Lake County SEDOL came out the big winner during Antioch's Fourth of July many competitions.

Marketing officer for the State Bank of the Lakes, sponsor of the Run for Freedom benefitting SEDOL said, "We raised a lot of money—about \$10,000 for the SEDOL foundation. We had 897 people compete the race, but many other people registered and then didn't actually run,

or just donated money to the cause."

The overall female winner was Laura Dunn, 18, of McHenry with a time of 19 minutes 33 seconds. Overall male winner was Ryan Hauser, 18, of Lake Villa with a time of 15 minutes 53 seconds.

The Beautification Committee won the first annual float competition.

First place winners for the apple pie contest sponsored by the mayor and board of trustee members went to Mary Cunningham for her traditional pie and Kelly Clark for her

Dutch apple pie.

The First National Bank-Employee Owned's (FNBE) Firecracker Sports Tournament was a booming success. Winners for the three point shoot-out were Onya Hadad, Carrie Bellinder, Ryan Church, Paul Arnold, Adam Ring, Steve Bies, Joe Cermak and John Logan.

The Snafu team won the softball tournament.

Children winners for the park department parade contest were Rachel Wolf, Jennifer Brown and Jamie Tindall.

Have a galloping good time raising funds

President of First National Bank-Employee Owned (FNBE) Ted Axton is helping to raise money for John Harms, a locally-based horse trainer who is battling non-Hodgkin's Lymphoma, in a couple of ways.

First, FNBE is making Harms the beneficiary of its "Casual Because We Care" program for the month. The designated day is July 7.

"Banks traditionally have a very professional dress code," explained Karen Kubin, marketing officer of FNBE. "Our employees can pay \$2 for the privilege of wearing jeans, and the money will go to a good cause."

Harms is a Parelli Natural Horse-Man-Ship instructor who does much of his training out of Miller Farm in Salem, Wis. where Axton boards his horses. The Parelli method is more considerate to the emotional needs of the horse.

An account has been set up at FNBE and additional donations from community members are being accepted.

Axton has also arranged a fund-raiser at Miller Farm on July 8 beginning at 10 a.m. with registration. The cost is \$30 per person and the

Julie Murphy

proceeds will go to the John Harms Cancer Fund.

The day's events will include trail riders, obstacle courses, lessons, barbecue and a twilight trail ride.

For more information about the fund-raiser, call Miller Farm at 262-537-2827. Donations made payable to the "John Harms Cancer Fund" can be mailed to the Miller Farm, 2903 264th Ave., Salem, WI 53168.

Bob Robinson, owner of Off the Wall Interiors in Antioch, has a new system for cleaning curtains that can be done right in the home without taking the curtains down.

Robinson reports that the process is quick—taking less time to complete the entire process than the hours in a business day.

All types of curtains can be cleaned including valances, balloon shades, swags and jabots. In addition, the system can clean pool tables and mattresses.

St. Benedict's Abbey is hosting its sixth annual arts and craft fair in Benet Lake, Wis. on July 8 beginning at 10 a.m.

Artists and fine crafters have been selected by jury. They will be exhibiting their work on the wooded grounds of the Abbey.

St. Benedict Abbey is less than 2 miles north and east of the intersection of Rte. 173 and Rte. 83.

Also, the Antioch Rotary Club still has raffle tickets available for a brand new Harley-Davidson 1200 Sportster custom.

Tickets are available at the State Bank of the Lakes and from rotarians.

If you have interesting information or anecdotes to submit for "Our Town" call staff reporter Julie Murphy at 223-8161, ext. 131 or e-mail, jmurphy@lakelandmedia.com

Shell offers summer travel safety tips for drivers

As millions of Americans take to the roads this summer the Shell Oil Co. has some advice for drivers looking for freedom from highway accidents.

By properly getting ready for a road trip and knowing what to do if a problem occurs, motorists can go a long way toward minimizing the kinds of mishaps that are all too common on crowded thoroughfares. That's why Shell has put together a top 10 list of safety tips, based on information from Shell's driving safety booklets.

1. Before you leave home, make sure your vehicle is up for the task. Check tires for proper inflation. Make sure the windshield, headlights and tail-lights are clean. Check all fluid levels, belts, hoses and clamps and refill or replace as necessary.

2. Make sure your trunk is properly stocked with items that come in handy in the event of an accident. These include a fire extinguisher that's unexpired and securely stored; flares or reflective devices; jack and lug wrench; properly inflated spare tire; flashlight with extra batteries; jumper cables; empty, approved gasoline container; blankets and umbrella, poncho or raincoats.

3. If your battery goes dead, know how to jump-start it safely:

- Position vehicles so jumper cables can reach, but vehicles aren't touching.

- Connect one end of the red cable to the positive terminal of the dead battery, and the other to the positive terminal of the good battery.

- Connect one end of the black cable to the negative terminal of the good battery and the other to an engine bolt head or other piece of non-moving metal.

- Make sure the jumper cables are away from moving engine parts.

- Start the engine with the good battery and run it at a moderate speed.

- Start the engine of the vehicle with the dead battery according to your owner's manual. Once it starts, reduce the engine speed to idle.

- Remove the jumper cables in reverse order, starting with the black cable from the engine bolt or metal connection on the car with the dead battery.

- The engine needs to run for 20 minutes—which can include driving time—to start recharging the battery.

4. Get out of a skid by taking your foot off the gas, and then turning the steering wheel in the direction you want the front of the car to go. This not only helps straighten the car out, but also can help regain traction.

5. In case of a blow-out, know what to expect. If the front tire blows, the vehicle will pull hard to the side of the blow-out. Don't hit the brakes. Hang on to the wheel tightly with your hands in the 9 o'clock and 3 o'clock position, take your foot off the gas and concentrate on staying in your lane. Then slow down and pull off the road to a safe location. If the back tire blows, the rear of the car will weave back and forth. But you should handle it the same way.

6. If you see an accident and want to stop to help, pass well beyond the wreck before signaling and pulling off the road. This keeps you from blocking the view of emergency vehicles and gives emergency crews room to work. Also, turn on your emergency flashers and raise your hood to call attention to yourself.

7. When traveling with children, keep in mind that the safest place for them is the back seat. This keeps them far from the impact in a head-on collision and away from the passenger-side air bag. And always use seatbelts.

8. Remember the 8-80 rule for kids: Children are usually big enough for seat belts when they are 8 years old and weigh 80 pounds. Otherwise, use child-safety seats.

9. Trucks need room to maneuver, so give them some space. Stay 100 or 250 behind the trailer. Don't pass on the right or cut in front of trucks, and stay out of their blind spots. If you can't see the truck driver's face in the side mirrors, the truck driver can't see you.

10. If you are changing lanes, don't rely solely on your rear-and side-view mirrors. There are probably blind spots in your own car, so it's a good idea to quickly turn and visually check for other vehicles next to you before pulling over.

The Count On Shell series of safety booklets address six specific driving issues: hazards on the road; driving with children; how to handle an accident; keeping safe while driving alone; keeping safe during roadside emergencies and how to safely share the road with trucks, trains and motorcycles. Zoning text changes proposed, continued

By JULIE MURPHY
Staff Reporter

The combined planning and zoning board began looking at proposed text changes to the regulations governing annexation and annexation agreements. The impetus for this proposal is the public comment that came from the annexation hearings for the Archdiocese and Pedersens' properties.

Due to the late hour when this second agenda item came up, a continuation date was set for July 13 at the village hall. The subject of fees was completely left for that meeting.

Bob Silhan, director of the planning, zoning and building department, drafted the proposed amendments to clarify the regulations and reduce the potential for conflict.

Silhan said, "The Village of Antioch shall be the sole determiner of whether or not an annexation agreement is required."

He went on to outline the specifics stating that annexation agreements must have an effective time frame and that the village board of directors may impose a lesser time frame than that allowed by state statute (65 ILCS 5/11-15.1-1) at its discretion.

Silhan clarified that the village is under no obligation to annex any parcel. He said, "This may include parcel specifically designated as recommended for annexation by the comprehensive plan based upon a specific proposed plan, time frame, growth control or other issues."

Additionally, the village will not consider annexation requests for property which is not contiguous to its corporate limits. "We do encourage interested parties to come in as part of a joint petition so that there is contiguity. This is the way it should be done."

With regard to the east sub-area, which includes some of the most environmentally sensitive land in north-central Lake County, all an-

nexation agreements for this area will include a requirement that specifies the same density or intensity of development as indicated in the comprehensive plan in existence at the time of the petition to annex, and as approved by ordinance and recorded with Lake County.

Under the E-1 special uses clause, the proposed change stipulates that annexation would be subject to the limitation that there be no net density transfer or variation in the minimum lot area.

Under the E-1 lot size clause, greater than minimum lot sizes will be imposed in areas where the comprehensive plan calls for larger lot sizes.

Reading from the proposal, Silhan said, "For the agriculture/estate land use category there shall be minimum lot sizes of 5 acres, and a lot width at the building line of not less than 300 feet. For the country estate category there shall be a minimum lot size of 3 acres, and a lot width at the building line of not less than 150 feet."

These lot sizes are to be part of the annexation agreement. Additionally, when property is to be residentially developed, the proposal is to be presented as a P.U.D. (planned unit development).

During public comment, resident Marv Raymond thanked Silhan for his work addressing the issue and said, "We (Raymond and his wife Linda) don't want to see the area divided up into small parcels."

Susan Peterson added, "We want to keep the areas with the proper flavor."

Elmer Van Haecke Jr. asked to what extent the village plans annex property and expand. Village attorney Ken Clark answered, "Property owners come to us looking for annexation. It's not the other way."

Resident Marianne Guy expressed mixed gratitude and remorse. "I wish this proposal had been in effect with the Homer White property," she said.

ing parcel and will be the majority of the entrance way into the center," said Mayor Marilyn Shineflug.

The mayor added, "The property will mostly be used as an entrance to the Memorial, but will add 10 additional public parking spaces."

Individual meetings can be scheduled for residents dealing with sewer back-ups

By JULIE MURPHY
Staff Reporter

Residents met with village officials to discuss ways of preventing future sewer back-ups.

Mayor Marilyn Shineflug said, "About 50 people showed up for the meeting. Ken Clark (village attorney) explained that the meeting was to be very specific in nature, and only deal

with the sewer issue."

Shineflug indicated that the meeting was very productive. She said an investigation of illegal sump pumps will begin within the next 30 days. Citations will be given to property owners who have an illegal connection to sanitary sewers.

Additionally, she said, "I will make the village's two plumbing inspectors available to any property

owner who would like to discuss the options John Boldt (consulting engineer for the village) went over in his presentation."

The mayor added, "They will be available to meet during the day or evening, and Saturday to discuss the options individually."

Interested residents need to contact the mayor at village hall at 395-1000 to make further arrangements.

SEDOL is big winner at Fourth festivities

By JULIE MURPHY
Staff Reporter

The Special Education District of Lake County SEDOL came out the big winner during Antioch's Fourth of July many competitions.

Marketing officer for the State Bank of the Lakes, sponsor of the Run for Freedom benefitting SEDOL said, "We raised a lot of money—about \$10,000 for the SEDOL foundation. We had 897 people compete the race, but many other people registered and then didn't actually run,

or just donated money to the cause."

The overall female winner was Laura Dunn, 18, of McHenry with a time of 19 minutes 33 seconds. Overall male winner was Ryan Hauser, 18, of Lake Villa with a time of 15 minutes 53 seconds.

The Beautification Committee won the first annual float competition.

First place winners for the apple pie contest sponsored by the mayor and board of trustee members went to Mary Cunningham for her traditional pie and Kelly Clark for her

Dutch apple pie.

The First National Bank-Employee Owned's (FNBO) Firecracker Sports Tournament was a booming success. Winners for the three point shoot-out were Onya Hadad, Carrie Bellinder, Ryan Church, Paul Arnold, Adam Ring, Steve Bies, Joe Cermak and John Logan.

The Snafu team won the softball tournament.

Children winners for the park department parade contest were Rachel Wolf, Jennifer Brown and Jamie Tindall.

Have a galloping good time raising funds

President of First National Bank-Employee Owned (FNBO) Ted Axton is helping to raise money for John Harms, a locally-based horse trainer who is battling non-Hodgkin's Lymphoma, in a couple of ways.

First, FNBO is making Harms the beneficiary of its "Casual Because We Care" program for the month. The designated day is July 7.

"Banks traditionally have a very professional dress code," explained Karen Kubin, marketing officer of FNBO. "Our employees can pay \$2 for the privilege of wearing jeans, and the money will go to a good cause."

Harms is a Parelli Natural Horse-Man-Ship instructor who does much of his training out of Miller Farm in Salem, Wis. where Axton boards his horses. The Parelli method is more considerate to the emotional needs of the horse.

An account has been set up at FNBO and additional donations from community members are being accepted.

Axton has also arranged a fundraiser at Miller Farm on July 8 beginning at 10 a.m. with registration. The cost is \$30 per person and the

OUR TOWN

Julie Murphy

proceeds will go to the John Harms Cancer Fund.

The day's events will include trail riders, obstacle courses, lessons, barbecue and a twilight trail ride.

For more information about the fund-raiser, call Miller Farm at 262-537-2827. Donations made payable to the "John Harms Cancer Fund" can be mailed to the Miller Farm, 2903 264th Ave., Salem, WI 53168.

Bob Robinson, owner of Off the Wall Interiors in Antioch, has a new system for cleaning curtains that can be done right in the home without taking the curtains down.

Robinson reports that the process is quick—taking less time to complete the entire process than the hours in a business day.

All types of curtains can be cleaned including valances, balloon shades, swags and jabots. In addition, the system can clean pool tables and mattresses.

St. Benedict's Abbey is hosting its sixth annual arts and craft fair in Benet Lake, Wis. on July 8 beginning at 10 a.m.

Artists and fine crafters have been selected by jury. They will be exhibiting their work on the wooded grounds of the Abbey.

St. Benedict Abbey is less than 2 miles north and east of the intersection of Rte. 173 and Rte. 83.

Also, the Antioch Rotary Club still has raffle tickets available for a brand new Harley-Davidson 1200 Sportster custom.

Tickets are available at the State Bank of the Lakes and from rotarians.

If you have interesting information or anecdotes to submit for "Our Town" call staff reporter Julie Murphy at 223-8161, ext. 131 or e-mail, jmurphy@lakelandmedia.com

FROM PAGE A1

REVISIONS

changes to the length seven dead-end streets, or cul-de-sacs.

Other information provided states that the average lot size is to be 8,200 square feet with the petitioner's smallest lot being 6,069 square feet.

The proposal allows for more usable open space than the 10 percent required by ordinance. A total of 160.06 acres, 25 percent of the property in question (634 acres) will be usable open space.

Of that, 62.44 acres are shown as being

buffers with walking paths. Homer White Lake accounts for 47.67 acres. Public park dedication property is slated as 39 acres and another 10.95 acres will go toward private recreational areas, such as a community center, club center and tot lots.

It is noted that the amended petition is a revision of the original petition which was withdrawn from the board of directors for the village of Antioch's consideration. The notice continues that the zoning ordinance in effect on Jan. 28 is still applicable to this amended petition.

FROM PAGE A1

CRIME

these crimes are property crimes— burglary, larceny/theft, motor vehicle theft and arson.

The R-index decreased by 4.5 percent from 263 crimes in 1998 to 251 crimes in 1999. All four violent crimes stayed the same or went down.

Antioch Police Chief Charles Watkins said, "We've been very aggressive in filing and maintaining grants. We've received \$250,000 in federal grants, including money for community policing, which has allowed us to hire more officers both for patrols and for use in other specific areas. We reduced crime in Antioch about 32 percent in the last three years."

There were no murders in either 1998 or 1999. Rape went down from one to zero, as did robbery. Assault decreased by 60 percent with numbers going down from five to two.

With the exception of arson, all property crimes decreased. Burglary dropped 26.5 percent from 15 to 11. Larceny decreased 1.1 percent from 233 to 230, and auto theft went down

from eight to three or 62.5 percent.

Arson, the only R-index crime to increase in Antioch, went from zero in 1998 to three in 1999.

The I-UCR program was implemented in 1972. The Illinois State Police was given the responsibility to act as the central repository for collecting crime statistics.

Under the current reporting program, participating agencies submit a monthly total of crime index offenses. When more than one offense occurs during a single incident, only the most serious offense is reported under current practices.

The program is exploring methods to facilitate a reporting structure that would permit the collection of more detailed information on multiple crimes which occur during a single incident.

The Illinois State Police caution against direct agency-to-agency comparisons as the results could be misleading unless demographic differences are taken into account.

CASINO

claims that 25 percent of the gamblers traipsing to Kenosha would be from Illinois. Developers of the proposed casino estimate 17,000 people per weekday and 26,000 per weekend will visit the facility.

The report cited by Riedl was conducted by Dr. Ron Pavolko, who is involved with the Center for Family Studies at the University of Wisconsin-Parkside in Kenosha County.

"The proposed casino is going to draw more people with spendable money," stated Riedl. "If Lake County residents start shifting their spending money to Kenosha, both the county and the state will suffer from the impact."

"The hospitality industry in Lake County would be dramatically affected, particularly small businesses," he stressed, pointing out that Illinois communities with riverboat casinos have already realized a decrease in disposable income.

Don Tiffany, president of the Tavern Owner's Assoc., agreed. He mentioned that tavern and restaurant owners in the Chain O' Lakes area would suffer the effects even more because they only have the summer months to "make it."

With an entertainment complex that is expected to be three times larger than anything like it in Illinois, Lake County business owners have cause to be wary. Along with the casino, the plan calls for 123 surrounding acres to be developed with a water park, golf course, health spa, conference center and three hotels.

Another fear expressed by Tiffany was the inherent migration of local employees who would most likely find bigger bucks working at the casino complex.

"A casino can afford to pay higher salaries because of the revenue it draws," said Riedl. "In an unprecedented time of low unemployment, the casino will woo Illinois residents, further deteriorating small businesses in Lake County."

Not to mention the fact that taxes on the casino wages would fall into Wisconsin coffers—not Illinois. The same is true of the ever-dependable local sales tax that the county and its municipalities rely on.

A rather disturbing projection from the report received by the ILBA indicated that the proposed casino would create 5,600 new compulsive gamblers in Lake County alone.

Along with this "disease" comes the side effects of increased suicide, alcoholism, drunk driving, family violence and other crimes, said Riedl.

"Wisconsin will be throwing back a lot of responsibility to Lake County to take care of these social problems," he said.

The Kenosha News reported a Wisconsin study that showed casinos responsible for almost \$51 million in annual societal costs due to "crime generated because of their existence."

The Lake County Chamber of Commerce

did not appear to be rattled by the impending possibilities. A spokesperson for the Chamber said that the issue has not been addressed by its board of directors "as of yet."

Several members of the Lake County Board were contacted, however none have responded to Lakeland Newspaper's inquiries at this time.

According to Tiffany, U.S. Congressmen Philip Crane (R-Palatine) and John Porter (R-Waukegan) have indicated their opposition to the casino proposal that is currently in committee in the Bureau of Indian Affairs.

Crane's press secretary, Bryce Dustman has confirmed the congressman's opposition. He said that Crane has already been contacted by numerous local, county and state representatives as well as several religious organizations that are against the Kenosha casino.

Dustman noted that Crane intends to draft a letter to the U.S. Dept. of the Interior to express his position concerning the casino. The Dept. of the Interior oversees the Bureau of Indian Affairs. The casino will need the approval of both the bureau and Wisconsin Gov. Tommy Thompson to become a done deal and critics are already speculating that Thompson will give it his blessing.

Tiffany and Riedl are urging county business owners to contact the congressmen with their concerns.

"If Gov. Thompson is so interested in this casino for his state, I highly recommend he move away from the border and quit having a negative impact on Illinois residents for the benefit of Wisconsin!" Riedl said.

LOCAL DIGEST

CPR

The Antioch Rescue Squad and Fire Department will be offering CPR classes to the public on the second and fourth Wednesdays of each month at 6 p.m. Classes will be held at the Fire Department located at 835 Holbek Dr. There is a \$5/\$15 fee per person, depending on the class needed. POLICE BEAT

Persons charged with a crime are innocent until proven guilty in a court of law.

ANTIOCH

Warrant arrest

Timothy B. Johnson, 17, of 339 Ida in Antioch, was arrested on a warrant from the Lake County Sheriff's Department for theft over \$300 on June 30 at 4:54 a.m. at 632 Anita in Antioch.

Antioch Police received notice on June 29 from the Lake County States Attorney Office requesting Johnson be taken into custody on a listed warrant.

Two officers went to the last known address of Johnson and were informed by the current resident that Johnson was staying at 632 Anita.

The officers went to 632 Anita where they were met by Johnson. Police confirmed Johnson's identity and placed him under arrest without incident.

Johnson was transported to the Antioch Police Department for booking. He was unable to post the necessary bond which had been set at \$30,000 with 10 percent necessary to post.

He was then transported to the Lake County Jail.

Possession of alcohol by a minor

Jeffrey J. Cobb, 20, of 428 Donin Dr. in Antioch, was arrested on June 29 at 6:19 p.m. for possession of alcohol by a minor. Police saw a white Pontiac traveling northbound on Main St. at a high rate of speed. His speed was locked at 33 mph in a posted 20 mph zone.

Police pulled Cobb over and advised him of the reason for the stop. Cobb was able to produce a valid driver's license and proof of insurance. The arresting officer reported that Cobb appeared nervous and repeatedly looked over his shoulder into the back seat of the vehicle. Police asked Cobb if there was a reason why he would appear nervous and requested he exit the vehicle at which point he was patted down for officer safety.

Police asked Cobb if he could search the vehicle with Cobb agreeing and signing a consent to search form.

Cobb's identifiers were run through LEADS/NCIC/SOS with him coming back with a clear and valid driver's license. The search was conducted with police finding an open 18 pack of Miller Genuine Draft that contained 16 bottles of beer. Cobb was advised of his rights per miranda.

The officer asked Cobb where he obtained the beer. Reportedly, Cobb first said it belonged to his older brother, but then admitted the beer was for his own personal consumption. He said the beer was taken from his parents house without their consent. Cobb refused to make a written statement.

He was placed under arrest and transported to the Antioch Police Department for booking procedures. He was issued citations for unlawful possession of alcohol by a minor, speeding and illegal transportation of alcohol.

Cobb was released on a personal recognizance bond pending a July 26 court date at 9 a.m. in Grayslake.

Revoked driver's license

James E. Terpstra, 25, of 910 76th St. in Kenosha, Wis., was arrested on June 28 at 11:55 p.m. on westbound North Ave. at Hawthorn Ln. for driving on a revoked driver's license.

Police observed a silver Dodge traveling at a high rate of speed. The vehicle was locked traveling 52 mph in a posted 40 mph zone. The officer stopped Terpstra and advised him of the reason for the stop. Police requested his driver's license and he related that he did not have his license and gave police a Wisconsin identification card.

Terpstra's vehicle registration came back as suspended. Police ran his identifiers through LEADS/NCIC with his driver's license coming back as revoked. He was placed under arrest and transported to Antioch Police Department for booking procedures.

He received citations for speeding, driving on a revoked license and operation of a vehicle when registration is suspended. Terpstra was released on personal recognizance pending an Aug. 9 court date in Grayslake.

No valid driver's license

Jesus Guzman, 26, of 1646 N. Keystone in Chicago, was arrested for driving without a valid driver's license and no insurance on June 28 at 11:51 a.m. heading southbound on McMillen Rd. at Ram Rd.

Police saw a red Oldsmobile traveling at a high rate of speed and locked it at 35 mph in a 25 mph zone.

The officer approached Guzman and advised him of the reason for the stop. Guzman said he did not have a driver's license or proof of insurance. Police ran his identifiers through LEADS/NCIC/SOS via dispatch who confirmed Guzman did not have a driver's license on file.

He was placed under arrest and transported to Antioch Police Department where he was brought through booking procedures. Guzman received citations for speeding, no valid driver's license and the operation of an uninsured vehicle.

He was released on a personal recognizance bond pending his July 26 court date in Grayslake.

LAKE VILLA

Driving without a valid license

Guillermo A. Ordonez, 33, of 817 Grand Ave. in Waukegan, was stopped by Lake Villa Police on June 26 at 12:08 a.m. on Grand Ave. and Cedar Lake Rd. when he was observed traveling 46 mph in a 30 mph zone. He was known to the police officer, who knew that Ordonez had no license. Ordonez was cited for speeding, driving without a license, driving an uninsured vehicle and having a defective windshield. The car was towed, and Ordonez was issued a roadside Notice to Appear at Branch III in Grayslake on August 9 at 3 p.m.

Armando Hernandez, 22, of 1303 Barberry in Lindenhurst, was arrested by Lake Villa Police following an accident on Rte. 132 and Cedar Lake Rd. on June 27 at 3:58 p.m. When police arrived at the scene of a rear-end collision, they attempted to speak with Hernandez, driver of the allegedly responsible vehicle. Discovering that Hernandez spoke only Spanish, police had a limited conversation with him. The Secretary of State showed no record of Hernandez. His vehicle was towed and his passenger taken to St. Therese's hospital to treat injuries resulting from impact with the windshield. Hernandez was charged

with driving without insurance, driving without a valid license and failure to reduce speed to avoid an accident. He was released on \$200 cash bond pending his court date of July 12 at 1:30 p.m. at Grayslake Branch III.

LINDENHURST

DUI

John J. Allard, 22, of 38979 N. Cedar Valley Dr. in Lake Villa, was arrested by Lindenhurst Police after they received a call on June 30 at 1:14 a.m. that there had been a hit-and-run accident at Nuttie's Bar. Police were told a white Ford Explorer was hit by a blue Cadillac, headed eastbound on Grand. Police located a car fitting that description, and stopped it at Grand and Hawthorne. Police noticed damage to the car's rear quarter panel, with white paint transferred to the vehicle. The driver denied being in an accident.

Police detected an alcoholic beverage odor. Allard failed field sobriety tests. He also failed a PBT administered at the stop. Inventory of the automobile turned up a brass pipe containing a green leafy substance, two half-filled bottles of beer, an empty bottle of beer and a half-filled bottle of Boone's Farm. Allard refused a breathalyzer test. The substance collected field-tested positive for cannabis. He was charged with DUI, unlawful transportation of alcohol, driving an uninsured vehicle, unlawful possession of cannabis and unlawful possession of drug paraphernalia. He was released on an I-bond pending court appearance on July 18 at 9 a.m. in Waukegan courtroom C-402.

Wayne L. Fox, 46, of 5919 Merrimac in Chicago, was stopped by Lindenhurst Police on July 2 at 2:39 a.m. when he was observed weaving across the center line on Grand Ave near Grand Circle. He had alcohol on his breath, his eyes were bloodshot and his speech slurred, according to police reports. He produced an insurance card that expired in May 2000. When asked if he had another, he produced one for another car, also expired in May. He stated that he'd had two beers. Field sobriety tests showed impairment. A PBT showed a .121 BAC, and a subsequent breathalyzer test showed a BAC of .136. Fox was charged with improper lane usage, driving an uninsured vehicle, not wearing a seatbelt, DUI alcohol and DUI over .08. He was released on \$100 cash bond pending appearance in Waukegan courtroom C-402 on July 18 at 9 a.m.

Michael A. Bell, 22, of 4413 Annette in Crystal Lake, was stopped by Lindenhurst Police on July 1 at 4:13 a.m. when he was observed driving with only one red taillight. Police observed him turn right on Rte. 132 without signaling and weaving as he drove. Police said he entered the Amoco station on Deep Lake Rd. and Rte. 132, without signaling, and he hit a center island. The officer reported the odor of alcoholic beverage could be detected from 4 feet away. Bell claimed to have had "only two beers." He failed field sobriety tests. He refused a PBT or breathalyzer test and refused to answer any questions after hearing his Miranda rights. He was charged with improper lighting, improper lane usage and DUI alcohol. He posted \$100 cash bond pending his appearance in Waukegan courtroom C-402.

Retail theft

Jose A. Terrazas, 43, was charged with

theft on June 29 at 6:30 p.m. after an employee of the Mobil Gas station at 220 E. Grand Ave. complained to Lindenhurst Police that Terrazas had stolen a bottle of "Skin Bracer" aftershave from the convenience store. Terrazas and a companion were found outside the store with backpacks containing several small, new articles without sales receipts. He was transported to Lake County Jail.

Transporting alcohol

Ronald P. Lambert, 66, of 40427 Lambert Dr. in Antioch, was charged with illegal transport of alcohol on June 30 at 6:04 p.m. after Lindenhurst Police stopped him at Grand Ave. and Granada. A complainant called police to report a suspected DUI. Police followed the vehicle. Lambert at first denied there was any alcohol in the vehicle, then admitted to an open beer can on the floor of the car. A PBT showed a .03 BAC. Lambert was released, pending appearance in Grayslake Branch III on August 2 at 1:30 p.m.

Annual Percentage Rate (APR) in effect 6/16/00 is 7.50%, based on Prime of 9.5%. Five year loan term. Loan to value is 80%. Annual fee of \$25 is waived the first year. Minimum line is \$5,000. Proof of insurance is required. After 12/31/00 the APR will change as follows based on the outstanding credit balance. For loan balances of \$100,000, or over. Prime minus 1/4%. \$25,000 to \$99,999.99. Prime and for loan balances \$5,000 to \$24,999.01, prime plus 1/2%. Prime rate as published in the Wall Street Journal.

Catholic Charities 'Tag Days for Seniors' needs volunteers

Catholic Charities of the Archdiocese of Chicago is looking for 2,000 volunteer "taggers" to pitch in to help seniors throughout Cook and Lake counties during its "Tag Days 2000" on Sept. 8 and 9.

The thirteenth annual Tag Days for Seniors invited adults of all ages and teens to don festive red and white aprons and Catholic Charities donation cans and station themselves at intersections, storefronts and train stations on behalf of the 41,000 seniors whom Catholic Charities serves annually in Cook and Lake Counties.

Volunteers can choose their own hours and locations. Funds collected during the appeal will be used to support senior social services and programs operated by Catholic Charities for seniors of all religions, races, nationalities, ethnic origins, and social and economic backgrounds.

To volunteer for Catholic Charities Tag Days for Seniors in Cook County, call (312) 655-7908. To volunteer in Lake County, call (847) 740-6701.

Each weekday, more than 1,300 home-bound seniors receive home-delivered meals through Catholic Charities. Each month, Catholic Charities provides homemaker and

transportation services for nearly 1,000 seniors. Each week, over 4,000 seniors enjoy group activities and meals at community centers. Catholic Charities also provides in-home counseling and planning for 35,000 seniors and their families annually, adult day care programs, elder abuse protection and investigations, job placement for low-income seniors and safe, affordable senior housing at residences throughout Cook and Lake Counties.

"Tag Days are a wonderful opportunity to get involved and to help Catholic Charities help seniors," said Father Michael M. Boland, administrator of Catholic Charities of the Archdiocese of Chicago. "Our goal is to assist seniors to remain independent, so that they can live their lives as they deserve in a productive and peaceful way."

"Seniors have laid the groundwork for the peace and freedom we enjoy in our country, and the foundation of our thriving economy. The least we can do is reach out and assist our elders as they face loneliness, crisis, or financial or health problems. Because, as our motto says: 'This should be the time of their lives.'"

"We invite everyone to help Catholic Charities help seniors."

Children's choir to hold auditions

The Red Rose Children's Choir of Lake County is holding auditions for the 2000-2001 season. Children entering second grade through high school may audition. Interested singers may call 548-8432 to have a new singer packet sent to them and to schedule an audition.

The choir was founded in 1997 by directors Sharon Augsburg and Jacquelyn Negus. For the 2000-2001 season the choir will be comprised of four levels of choirs. Prelude Choir is a training choir for singers in second and third grades. Concert Choir is for students in fourth grade and higher and Master Singers and Chamber Choir is for sixth grade singers and

older who have had choir experience.

The Red Rose Children's Choir has performed for many local charities in the past three years including: Central Baptist Children's Home Music on the Lakefront Concert; a benefit for Arden Shore; The Festival of Trees for Victory Hospital and for St. Jude's children's Hospital National Convention. Members of the choir have also traveled to the Souixland Youth Chorus Festival in Iowa, to the American Choral Directors Association Midwest Conference and to England for an International Children's Choral Festival.

For more information contact: Amy Younts at 548-8432.

Student travels to nation's capital

Jensen experiences government first-hand

By BECKY DUBA
Staff Reporter

Antioch Community High School student Kristen Jensen traveled to Washington, D.C. for a week to participate in the Presidential Classroom Scholars Program.

Jensen, along with 300 other high school juniors and seniors, spent time meeting with government leaders and learning about the democratic process first-hand.

The students participated in seminars led by U.S. Rep. Matthew Martinez (D, CA-31), U.S. Sen. Fred Thompson (R-TN), and Frank Atwater, president of the National Association of Retired Federal Employees.

"There were a lot of things to learn," Jensen said. "One of the things was that I learned about different people's views from other areas of the country."

Jensen explained that a typical day would begin at 6 a.m. and by 7:30 they were usually on their way and wouldn't return to the Georgetown Conference Center after 10 that night.

"We would go to the Federal Buildings and see the Department of Agriculture," she said. "Or we would go to Capitol Hill and see the House of Representatives or the Senate debate."

She said there were also one-hour seminars in which members of the CIA or a senate would discuss a topic.

"At the end of each session, there was

about 45 minutes we could use to ask questions," she said. "One of the main things they talked about was the gas price issue." Another topic which often came up, Jensen said, was trade relations with Cuba and China.

"We also would break off into groups of 40 then further into groups of 20 and debate an issue," Jensen added. "This was always interesting and sometimes the debates became a little heated."

Jensen said the best part of the trip was getting to meet people from different parts of the country and learning about their different views.

Students from southern California and Florida had a lot of differing views on immigration than the people from Wyoming," Jensen said about one difference she discovered.

To be selected for the trip, Jensen had to write an essay and then be interviewed by the two organizations sponsoring the trip, the Antioch Rotary and the Antioch High School's Sequoia Pride.

"The Rotary Club must really be thanked because I think they donated close to \$900 for the trip," she said. "I was very lucky because a lot of the people there had to pay for the entire trip."

Jensen said she wanted to go on the trip because she is interested in the law profession. She will be a senior in the fall and is considering attending Bradley University in Peoria after graduation.

New principal to lead Lower Grade in fall

By BECKY DUBA
Staff Reporter

The Antioch Lower Grade School has a new principal starting this fall.

Mary Grom brings to Antioch close to 10 years of teaching experience with a heavy emphasis on reading.

"She is a former teacher from Glencoe and served as the assistant principal at BJ Hooper in Lake Villa," interim-superintendent Dr. Dar-

rell Dick said.

This is Grom's first principal position but Dick is confident in the board's decision.

"She came with many good letters of recommendation," he added.

In the final applicant screening, the board scheduled four interviews.

"It was not a hard decision to make," Dick said. "She did very well and we're happy to have her."

ENGAGEMENT

Shaughnessy/Sheehan

Mr. and Mrs. Thomas Shaughnessy of Antioch announce the engagement of their daughter, Kelly Shaughnessy of Antioch to Jason Sheehan of Antioch, son of Mr. and Mrs. Dennis Sheehan, Antioch.

The ceremony will be performed by Father Lawrence Hanley of St. Peter's Church in Antioch on Aug. 5.

The bride-to-be is a 1992 graduate of Antioch High School and a 1996 graduate of University of Iowa and has a BA degree. She is employed as a project development manager for America's Doctor in Gurnee.

The groom-to-be is a 1993 graduate of Antioch Community High School. He is employed as an electrician for Local 150.

The couple plans to settle in Kenosha, Wis.

Bank, friends to raise funds for John Harms

BY BECKY DUBA
Staff Reporter

The First National Bank-Employee Owned (FNBE) regularly holds a "Casual Because We Care" program where employees donate \$2 for a designated fund or charity to dress down for the work day. The bank has implemented this program since 1995.

This month, bank president Ted Axton is donating the money to the John Harms Cancer Fund. Besides this, the bank also sponsored an all day event—"Do it Naturally For John," at The Miller Horse Farm in Salem, Wis. where Harms has worked since 1995.

The Axton family boards five horses at the Miller Farm and became aware of Harms' battle with non-Hodgkin's lymphoma in April.

"Because John doesn't work for a big company he doesn't have great insurance so we wanted to do something for him," Vicki Axton said. "His insurance will cover the chemo but not the pills, which are very expensive."

The Axtons explained that because Harms has helped so many people, they wanted to do something to help him. Also, because Harms works with horses, they wanted to involve horses in some way.

Harms is a Parelli Natural horsemanship instructor at The Miller Horse Farm. The program he uses is different from others in that it is more a training that "asks and not tells" the horse what to do.

"So many people are getting into horses now and a lot of them don't have clue what or what not to ask out of their horse," Vicki Axton said. "The point of this program is getting a better relationship with the horse."

"There will also be an animal communicator there," Vicki Axton said. "Her rates are \$1 a minute and she'll be donating all of it to the fund."

According to the American Cancer Society, non-Hodgkin's lymphoma is a cancer that starts in lymphatic tissue. The lymphatic system is important for filtering germs and cancer cells as well as fluid from the extremities and internal organs. Many cancers originate in other organs and spread into the lymph nodes, but this is not lymphoma. Lymphomas start in the lymphoid tissue and can spread to other organs.

More than 54,900 Americans are expected to be diagnosed with non-Hodgkin's lymphoma in 2000, according to numbers from the American Cancer Society. And, it is the fifth most common cancer in the country. The average age at diagnosis is in the early 40s. Harms is 51.

To send, please make it payable to the "John Harms Cancer Fund" and send it to The Miller Horse Farm, 2903 264th Ave., Salem, WI 53168.

A family night on the town

Although the girls and I have been to numerous live theater presentations over the years, their father always had convenient prior commitments rendering him unable to attend. He has been to every sporting event known to man, in every sporting venue created by man, but he hasn't been to a live production since way before children ever came into our picture, and then I had to bribe him with a big juicy steak dinner at one of Chicago's finest steak houses.

He regularly attended the old Chicago stadium, when the rafters would rock during the national anthem, yet during "Phantom of the Opera," he kept bellowing, "Isn't it kind of loud?" And during the play's pyrotech display, he chortled, "Do you smell hair burning? I think that fire signed my hair. Yep, that is definitely hair I small burning."

I was sure we would be barred from returning to the theater after intermission. It had to rank right up there with having root canal surgery without anesthetic. So recently when our eldest daughter asked her dad to take us down to see "Joseph and the Amazing Technicolor Dream Coat" at the Shakespeare Theater at Navy Pier, he thought she meant just drop us off, pick us up when it was over, and then head off to one of those Chicago fine steak houses.

His offspring had different plans. So after a few sullen looks and several guilt-ridden comments directed directly towards their father, the man had no choice but to give in to his offspring, and join us for the evening. Trouble began as soon as we walked through the glass doors into the lobby of the theater that night, Hubby was disappointed there was no hip-busting turnstiles to thwack us as we entered. "Hey, they have carpeting on these floors," was his first observation, but he felt more at home with the push down style chairs that resembled those in a sports stadium even though his feet didn't stick to the floors.

As we settled in our seats perusing the

JINGLE FROM PRINGLE

Lynn Pringle

stage bill, he was looking for the game stats and was bored with the "I want to thank all my friends and family, and I wish to dedicate this performance to my Aunt Yula Mae in Topeka," under each character's biography. "I want to know the batting averages of these guys, not the name of their aunt in Kansas."

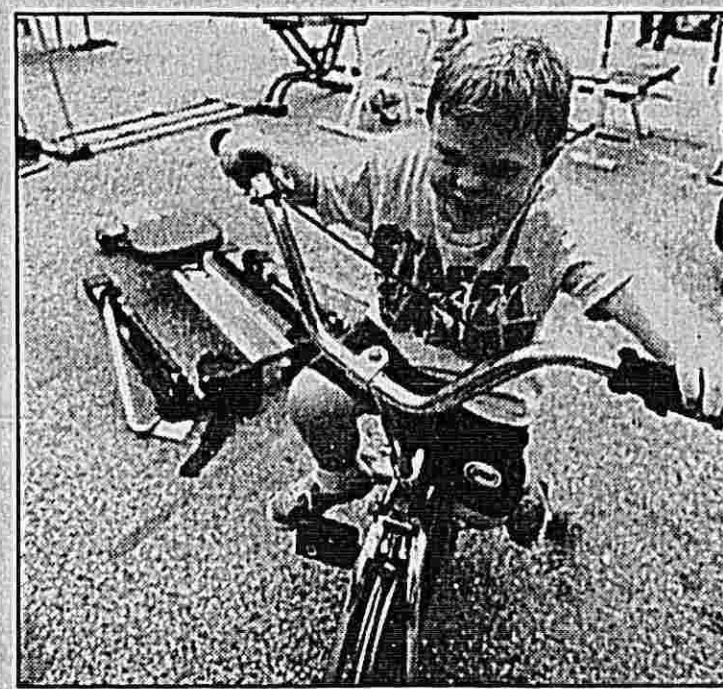

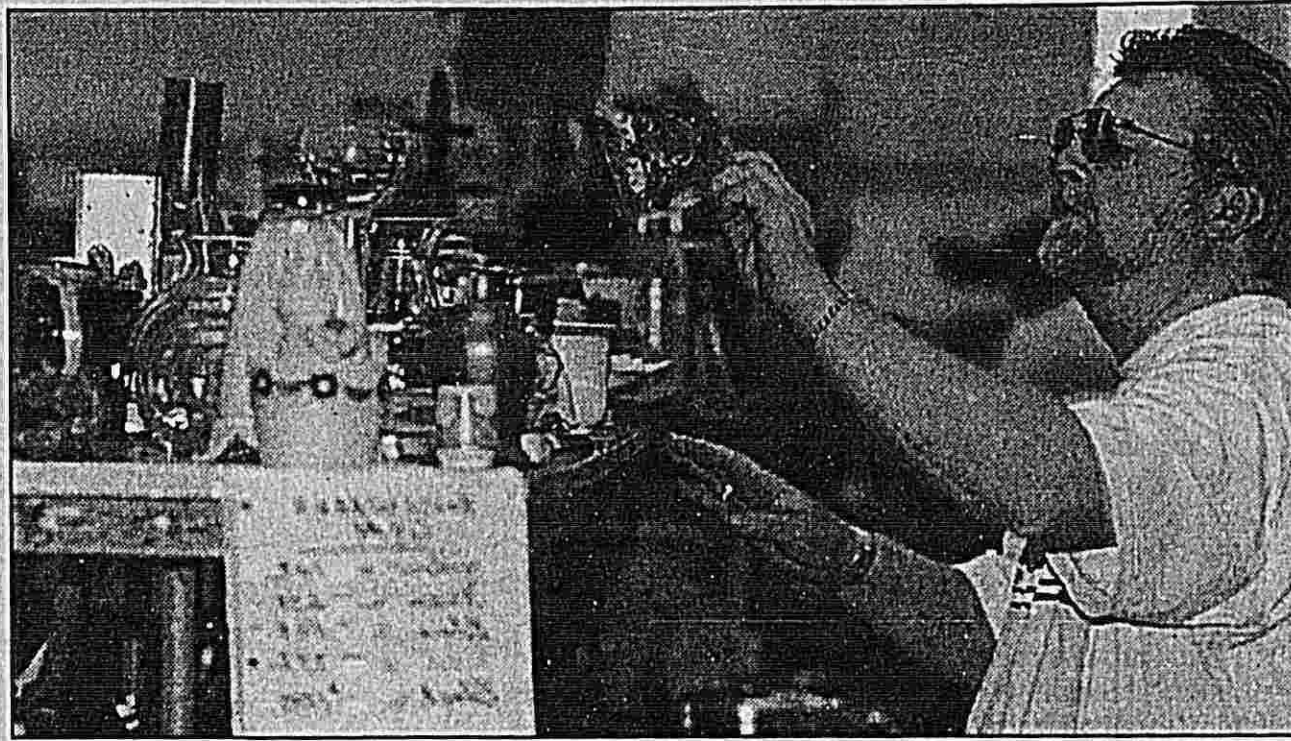

When the announcement came that all cell phones, pagers and electronic equipment must be shut off, the man sitting in Row B, Seat 103 couldn't help but wonder, out loud, "How am I suppose to listen to the ball game if they won't let me turn on my Walkman?" The girls just rolled their eyes. After several minutes of rustling in his seat he asked, "Can't we get some cotton candy, or a hot dog. Excuse me, but where is that beer guy?"

Well, we are happy to report that dad made it through the whole production without a single light-up sword or spinning flashlight, and he even managed to laugh a few times.

Leaving the theater that night the girls and I chattered wildly about this scene or that. We laughed at certain recollections and we sang the all too familiar songs. Hubby, on the other hand, didn't join in our playful banter, he was much too pre-occupied with his own thoughts. He had other pressing matters on his mind, he wanted to make darn sure the cabbie got the right address to the nearest steak joint.

And so goes another "Jingle from Pringle."

Readers with information for "Jingle from Pringle" should call Lynn Pringle at 395-6364.

Home sweet home

Allow me to quote an old adage: "The prodigal son returns." This is true of Libertyville High School graduate and renowned sports writer Don Weiskopf, who will appear at the Libertyville Civic Center on July 15 from 10:30 a.m.-noon for a signing session of his new book "Baseball Play America."

Weiskopf was born in Libertyville in 1928. He graduated from Rockland Elementary and was a member of the graduating class of 1946 at Libertyville High School.

Weiskopf then left Libertyville for Champaign-Urbana as he graduated with a bachelor's degree in physical education and his master's degree in recreation and park administration from the University of Illinois.

Throughout all of this, Weiskopf was a pretty good southpaw pitcher. He had a promising career before a severe shoulder injury with Oklahoma City of the Texas League cut it short in the early 1950s.

Weiskopf moved to El Dorado Hills, California, a suburb of Sacramento, with his wife Annegrete in 1963, where they still reside. He then became a coordinator and instructor of recreation and studies at American River College for 27 years before his retirement in 1993.

Weiskopf has authored 15 books on sports and recreation, two of which were co-authored with former Brooklyn and Los Angeles Dodgers manager Walter Alston.

His most recent work, "Baseball Play America" is the culmination of a five-year study involving seven national surveys, including input from over 2000 coaches, administrators and members of the news media.

The 456-page book outlines Weiskopf's plan for improving the level of organized baseball, from professional leagues on down.

"I've received some positive responses from various baseball personnel like [MLBPA President] Donald Fehr and [MLB Executive Vice President] Sandy Alderson," said Weiskopf. "Of course, there are some issues that they are not going to listen to, other than their desire to make more money, attract larger crowds and increase TV ratings."

The book tackles problems and provides solutions for various issues such as the failure of baseball to make fans part of the economic equation, saving minor league baseball in small towns, the need for a stronger player development system in the United States, why collegiate baseball is at a crossroads and why cold-weather teams need a major change, just to name a few.

In addition to the book signing, Weiskopf is also anticipating a reunion with former area teammates including Lakeland owner/publisher William Schroeder who played with Weiskopf on the Libertyville Mudhens, a traveling sandlot team, in the early 1940s.

Several autographed pictures of former major league players including the likes of Phil Cavarretta, Andy Pafko, Don Kessinger, Bob Speake, Milt Pappas, Moose Skowron, Tony Kubek, Jim Piersall, Jim Brosnan, Herb Adams, Robin Roberts and John Sain will be on hand at the book signing.

Rob Backus can be reached at (847) 223-1611, ext. 135; fax (847) 223-8810; or e-mail at edit@lnd.com.

Rebound Sports Presents...

Basketball

Rebound Sports presents its nationally recognized basketball training program. Over the last year, Rebound Sports of Chicago has trained over 3000 area boys and girls. Mundelein's former varsity boys basketball coach Dennis Kessel tops the list of instructors on hand. Rebound will again be offering camps this summer at various locations, including Chicago, Grayslake, Highwood, Highland Park, Homewood-Flossmoor, Lake Forest, Mundelein, Barrington, Naperville, Libertyville and Rockford.

For further information, contact Rebound Sports at (312) 258-8400 or toll free at (877) REBND83. Interested parties can also check out the website at reboundsports.com.

Trio of Lancers named All-American in baseball

By ROB BACKUS
Staff Reporter

Despite an early exit in the regional playoffs, it was a season to remember for CLC as three players were named to the All-American team, a school record.

The three players were: CF Justin Keegan, 2B Mike Kaywood and LHP Jake Hanson.

Keegan hit .449 with 19 doubles, four triples and four home runs. Keegan also scored 90 runs, had 52 RBI and stole 50 bases.

Kaywood, a Carmel graduate, hit .399 with 20 doubles, three triples and three home runs. He also knocked in a team-high 72 runs, scored 57 runs and stole ten bases.

Hanson, a Warren graduate, went 9-1 with a 2.76 ERA, seven complete games and 64 strikeouts in 65 innings.

"It was quite an honor and a pleasant surprise," said Head coach Gene Hanson. "It's a rarity to get two All-Americans and we got three."

Keegan set eight CLC record this year including: walks (47), runs scored (90), times on base (140), consecutive games with a hit (25), career runs (162), career stolen bases (101), ca-

reer times on base (260) and career walks (83).

Kaywood set two good record and two dubious records. He tied for the team record in doubles with 20 and in career doubles with 32. He also set team record of career errors with 52 and tied his own record of most errors in a season with 26.

Keegan was also named the Illinois JUCO Player of the Year, the Skyway Conference Player of the Year, First Team All-State, First Team All-Conference and was named to the Northern Illinois JUCO All-Star team.

Kaywood and Hanson were also named First team All-State, First team All-Conference and to the Northern Illinois JUCO All-Star team.

Jeff LaBelle hit .414 with nine doubles, six home runs, two stolen bases, 41 runs scored and 63 RBI. He also set the team record by being hit by 11 pitches. He also amassed a 5-2 record on the mound with a 4.30 ERA, five complete games and 34 strike outs in 46 innings. In doing so, he was also named First team All-State, First team All-Conference and to the Northern Illinois JUCO All-Star team.

Brad Brunty hit .398 with seven doubles, eight home runs, 47 runs scored and 39 RBI and was named First team All-State, Second team

All-Conference and to the Northern Illinois JUCO All-Star team.

Brett McCollum, an Antioch graduate, hit .363 with 11 doubles, six triples, seven home runs, 18 stolen bases, 40 runs scored and 49 RBI in his first season with CLC. McCollum was also named First team All-Conference.

Barth Morreale, a Libertyville graduate, was named Second team All-Conference as he amassed a 6-3 record on the mound with a 4.35 ERA, four complete games and 37 strike outs in 60 innings.

Adam Miller was also named Second team All-Conference. Miller amassed a 6-2 record with a 4.05 ERA, six complete games and 33 strike outs in 51 innings.

Finally, Scott Fuller was named second team All-Conference. Fuller hit .333 with 12 doubles, two triples, one home run, 19 stolen bases, 43 runs scored and 29 RBI.

Also, by adding 38 more wins to his total Gene Hanson became the 12th winningest coach in NJCAA history with an 849-338 record.

"I've done my job and [the players] have done theirs," said Hanson. "I've been blessed with some good players over the years."

Chicago White Sox training centers offers chance to polish skills

The Chicago White Sox Training Centers, week-long summer baseball camps traveling to more than 160 Illinois, northwest Indiana and Iowa locations this summer, offer top-notch youth baseball and softball instruction to kids ages 7-14.

Top collegiate coaches, full-time private instructors, former major leaguers, current professional coaches and scouts and hand-picked collegiate players instruct camp participants during an intensive week of fine-tuning fundamentals, learning and improving skills and gaining insight into the game from those who know it best.

Current White Sox staff and players make special guest appearances at various Training Centers throughout the summer. Last year, Manager Jerry Manuel, first base Coach Bryan Little and players James Baldwin, Scott Eyre, Keith Foulke, Mark Johnson, Paul Kon-

erko, Jeff Liefer, Greg Norton, Jim Parque, Bill Simas, Chris Singleton and Mike Sirotko stopped by to offer their own tips and to speak to the kids about their playing experience.

Each training center costs \$159 and runs Monday through Friday for 3 1/2 hours daily. Training Centers cover hitting, bunting, pitching and catching, infield and outfield training, baserunning, position play, throwing mechanics, stance, glove work and ball transfer. Physical and mental preparation, and specific game situations and strategies also are taught. In addition to providing individual instruction, the Training Centers also stress the importance of teamwork.

Every student who completes the program receives a Sox Training Center T-shirt, cap, bat bag and hitting book in addition to member-

ship in the Silver and Black Pack, which includes six game tickets and a pre-game parade on the field at Comiskey Park.

At every White Sox home game, all children can compete in the skills competition by visiting the popular FUNDamentals area at Comiskey Park. This area opens 1 1/2 hours prior to each home game and remains open for 1 1/2 hours after the game starts. The FUNDamentals area is staffed by the professional staff of the White Sox Training Centers and features batting cages, pitching cages, a simulated basepath for running and a hitting training area.

Training Centers will be coming to several area locations. For more information about the Training Centers or the Baseball Skills competition, call or e-mail the White Sox Training Centers at: White Sox Training Center Headquarters, call (630) PLAY BALL or e-mail: stc@chisox.com

CLC names All-Academic team

The College of Lake County has announced that the following student athletes have been chosen to the Skyway Conference All-Academic Team for the 1999-2000 season. Only sophomores with at least 45 semester hours and a GPA of 3.00 or higher are named to the team. They include:

Cross country
Kate Aldridge (3.43)
Susan Barnhouse (3.01)
Megan Mitchell (3.03)

Women's tennis
Heather Lawrence (3.08)

Women's soccer
Sandi Coutts (3.66)
Susan Woodruff (3.32)
Stacie Marx (3.00)

Women's basketball
Kristina Schulze (3.18)

Baseball
Brad Brunty (3.01)
Mike Kaywood (3.35)
Reggie Hughes (3.11)
Ryan Liebgott (3.40)

Men's tennis
Brian Carter (3.15)
David Leckman (3.37)

Women's basketball/softball
Alyceson Kudla (3.05)

Youth is served

The Lake Villa Travelers 11-year-old baseball team has been taking numbers this season. The Travelers pose with their first-place hardware earned in the Elk Grove Memorial Day Tournament. The Travelers consist of, kneeling, left to right, Billy Battistone, Danny Sheridan, Jake Cobb, Matt Limbert, Steve Klein and Ross Morway. Middle row, from left, is Josh Manninen, Sean Hertz, Carl Stream, Zach Amrein and Brian Schmidt. Back row, from left, are coaches Jon Hertz, Bill Morway, Ted Cobb and Joe Amrein. Winker connection takes center stage at Wilmot

Pleasant Prairie's Kurt Winker scored an impressive warm-up victory in the 25-lap Star Trac 410 Outlaw Winged Sprint feature on Body Craft of Antioch, Ill. Night at Premier Racing Productions Wilmot Speedway on Saturday, July 1. Casey Schram of Sterling, Ill. made his nearly three-hour one-way tow worthwhile, scoring an impressive victory in the 20-lap IMCA modified feature coming from 11th starting spot. Tony Schlei of Zion, Ill. made hit three-for-three this season at Wilmot in the hotly contested Herbs IMCA Hobby Stock 8-lap main.

"I figured we'd come and test the car a little," said Winker, wearing his father Allen Winkers patriotic Stars & Stripes drivers suit. "This is the track I cut my teeth on, and to win here, this is great. I have to thank my crew. They're the best."

LET'S GO RACING

Michael H. Babicz

Winker will return to Wilmot's one-third mile clay oval on Saturday, July 8, for the rescheduled 'Jamin' in July' Interstates Racing Association Outlaw Sprint Series program. A field of well over 60 sprinters are expected to compete on the program, which is sponsored by Ray & Raymond Chevrolet-Oldsmobile of Antioch and Fox Lake.

In the sprint main, Lisa Heywood-Winker, Kurt's wife, took the early lead from the pole starting spot. Lisa is a former Anti-

och resident and graduate of Antioch Community High School.

Rick Ferkel, Gurnout World of Outlaws Director of Operations and one of the original World of Outlaw drivers, confirmed to his knowledge that, in the long history of sprint car racing, there has never been a husband-wife sprint car driving team competing and winning on the same night at the same race-track.

Meanwhile, Tony Engels edged Heywood in turn two on the second lap to take the point. Suddenly, as Engels came down the front straightaway completing lap three, the car lost power, creating a mad scramble behind him. In the scramble, Joe Kristan and point leader Dave Moulis came together, with Moulis breaking a steering arm and coasting into the infield.

With a first in the history of sprint car racing, a husband and wife both winning a heat race on the same night, the newlyweds (married in March) battled wing to wing for the feature lead. Kurt Winker shot to the outside on lap six to take the point with Kristan following in second. The first caution flew on lap 12 when Todd Lehr and B main winner Donald Dodd came together in turn two, resulting in both cars being out for the night.

Two laps later, Jim Moulis, who had won the C main from the fourth row after being involved in a heat race crash, finished third in the 18-car B main coming from the last row as he sliced through the field in his usual 'King of the Cushion' style. After working into 10th spot, Moulis was battling Jim Walkanoff Jr. wing to wing down the back straightaway. The two touched wheels with Moulis flipping end over end high into the air, coming to rest on all four wheels in turn three. Moulis was able to walk away from the car and into the track ambulance for a mandatory checkup, receiving a loud applause from crew members in the pits and fans alike. Walkanoff also retired from the race at that point with rear end damage.

Kurt Winker was able to keep Kristan behind him as the final 11 laps went green. Chip Bell had a season-best third place finish while Kurt's wife Lisa wound up fourth. Dennis Spitz, who started 14th in the 20-car field, came on to finish fifth.

Don't forget Scoop The Loop this weekend downtown Waukegan. Wilmot Speedway will be participating with Frank Moser of Antioch planning to have his sprint car on hand and possibly other cars will be there as well. That's Friday, July 7 from 6-9 p.m. and Saturday, July 8 with Kidsfest 10 a.m.-4 p.m. followed by scooping until 9 p.m. and dancing afterwards.

Jay LeBrun from Gurnee finished first in the 'B' Class at the Fairtime 250 Midwest Enduro Stock Car Series event July 4 at Grundy County Speedway in Morris, IL. Mario Stella from Cortland, IL was the 'A' Class and overall winner for the second time this season in the series. Despite starting the event in a heavy downpour, the rain ceased about midway through the first segment.

In the 'C' Class, Chris Hughes of Lindenhurst placed seventh. There were 79 total cars on hand. The next Enduro event will be Friday, July 21, at LaSalle Speedway.

It was great to see Al Schill Sr. From Franklin pick up an extremely popular checkered flag in the Al Schill Jr. Memorial

150 at Lake Geneva Raceway on July 1 for the NASCAR/REMAX Challenge Series late models. The race was named after his son who passed away in March, 1999.

This weekend, July 7-8-9, will feature the return of the Road America 500 endurance race at Elkhart Lake's Road America. The Mid-America Cars and Supertrucks are also scheduled to compete in a joint event. For more information phone 1-800-365-RACE.

Congratulations to a pair of winners from the pole at The Milwaukee Mile. Rookie driver Kurt Busch of Las Vegas scored an impressive victory in the NASCAR Craftsman Truck Series 200 mile event July 1. On July 2, it was Jeff Green of Kentucky scored a dominating win in the Busch Grand National Series. Both drivers earned pole starting berths in qualifying.

IMCA Modified results 20-lap feature

Casey Schram, Sterling, Ill.; Elmer Everman, Kenosha; Rob Olson, Lake Villa; Mike Simons II, Genoa City, Wis.; Dan Hopkins, Beach Park; Tim Morton, Burlington; John Dost, Antioch; Ty Webster, Burlington; Jason Hyerdall, Wildwood, Ill.; Robb Shales, Bristol; Dean Sadowski, Kansasville, Wis.; Jimmy Joe Urbanik, Salem, Wis.; Nick Simons, Genoa City; Scott Shultis, Waukegan; Lee Tibbitts, Hebron, Ill.; Ed Devall, Waukegan; Carl Geier, Ingleside, Ill.; Chuck Ostergaard, Wildwood.

2000 LAKELAND MEDIA ANNUAL GOLF DIRECTORY

(Part 3 of 4)

Rob Backus and John Phelps contributed to this report.

MIDLANE RESORT

Address: 4555 Yorkhouse Rd., Wadsworth
Phone: (847) 623-4653
Par: 108 (36 for each nine-hole course)
Holes: 27 (three separate nine-hole courses)
Yardage: Holes 1-9 (3,416), 10-18 (3,305), 19-27 (3,254)
Head P.G.A. pro: Bill Eldridge
Difficulty: Moderate-Difficult
Easy holes: #13 (par, 339)
Difficult holes: #6 (par 5, 529), #12 (par 3, 184), #21 (par 4, 436). Note: hole #21 is squeezed off by big oaks and requires two long accurate shots.

Signature hole: #6 (par 5, 529). With a good drive, longer players can possibly reach the green in two on this dogleg right. Trouble awaits any errant shots, as the hole is lined with water from tee to green to an undulating green surrounded by two bunkers.

Clubhouse amenities: Full-service bar and grille, with lunch served Mon.-Fri. and dinner served in the loft restaurant Mon.-Sat. An 80-room hotel also accommodates this great facility. Breakfast is served in the hotel, where guests can also enjoy a health club, indoor pool. Banquet facilities are also available, which host from 20-500 people. Tennis courts, a lighted driving range and golf lessons are also available. For the night life inclined, guests can also enjoy Confetti's nightclub, open Friday and Saturday evenings.

Price: \$39 (Mon.-Thurs. before 10 a.m.); \$51 (wkdays after 10 a.m.); Wknds-\$65; twilight (after 3:30 p.m.)-\$37 Mon.-Thurs.; \$41 Fri.-Sun. (All rates include electric cart).

Comment: "Midlane is a premium golf experience at an excellent price. We're dubbed the 'outing specialists.' Midlane is a 27-hole, championship-caliber facility and is as finely manicured as they come." - *Bill Eldridge*
Lakeland's rating: 5 out of 5 tees.

BRAE LOCH G.C.

Address: 33600 Route 45, Grayslake
Phone: (847) 223-5542

Par: 70
Holes: 18
Yardage: 5,876
Head P.G.A. Pro/manager: Peggy Hoyer (Manager)
Difficulty: Easy-Moderate
Easy holes: #3 (par 3, 121), #6 (par 3, 185), #12 (par 4, 298), #17 (par 4, 291).
Difficult holes: #4 (par 5, 486), #15 (par 5, 559), #16 (par 5, 512).
Signature hole: #16 (par 5, 512). A beautiful slight dogleg right par-5 that is forgiving off the tee. Players will probably layup for their second shot because the approach is to a green surrounded by a pond.

Clubhouse amenities: Brae Loch offers a snack shop with full-service bar. Putting surface for practice is available. Banquets and luncheons for weddings and golf outings also available.

Price: Value package for residents during the week is \$42 for two people on a cart. For non-residents it is \$52. This package is also available after 3 p.m. on the weekends. The weekend regular rates for residents is \$21, \$28 for non-residents. The twilight rate is \$17 dollars for residents and \$24 for non-residents.

Pro/Manager's comments: "The course is fairly easy because it is flat and easy to walk. But almost every hole is lined with trees and there are plenty of sand bunkers. A good challenge for all skill levels." - *Peggy Hoyer*
Lakeland's rating: 3 out of 5 tees

THUNDERHAWK G.C.

Address: 39700 N. Lewis Ave., Beach Park
Phone: (847) 872-HAWK

Par: 72
Holes: 18
Yardage: 6,631 (regular tees)
Head P.G.A. pro: Bill Pantle
Difficulty: Moderate-Difficult
Easy holes: #1 (par 4, 394), #7 (par 5, 527), #10 (par 4, 364)
Difficult holes: #9 (par 4, 452), #16 (par 5,

568), #18 (par 5, 559)

Signature hole: #18 (par 5, 559). A terrific par-5 with a generous fairway but tree-lined on both sides. Most likely a three-shot hole with the approach shot heading straight at the clubhouse to an uphill green, which is fronted by a rock incline to a smaller green. Length definitely adds to the test, where if played from the tips, measures 600 yards.

Clubhouse amenities: Thunderhawk offers a full-service pro shop, restaurant, bar, locker rooms and showers available. Banquet facilities that seat up to 250 people also available. Enjoy a sandwich in the Tall Tails Grille on the back patio, which overlooks the majestic finishing hole. Thunderhawk also offers putting greens, grass and matted driving range, a chipping area, and practice bunker available to players/guests. Lessons also available.

Price: Non-residents, weekdays, \$89 (includes cart and bucket of range balls). Weekends (non-residents)-\$94 (includes cart). Note: These rates are a one-price fee, whether walking or riding.

Lake County residents enjoy a \$20 discount on all rates. Reservations accepted up to two weeks in advance.

Comment: "Another Robert Trent Jones, Jr. gem. Thunderhawk is a championship-designed course built over a 243-acre forest preserve. The course mixes mature oaks, pristine wetlands and native prairie grasses. Fairways generous and wide but accuracy very crucial on many shots. Challenging to all skill levels, with five sets of tees. We are nominated for best new public course by 'Golf Digest' and were named one of the best new public courses by 'Golf Magazine.'" - *Bill Pantle*
Lakeland's rating: 5 out of 5 tees.

CHAPEL HILL

Address: 2500 Chapel Hill Rd., McHenry
Phone: (815) 385-3337

Par: 70
Holes: 18
Yardage: 6,021
Head P.G.A. pro: Roy Dombeck
Difficulty: Moderate
Easy holes: #5 (par 4, 302), #15 (par 4, 280)
Difficult holes: #3 (par 4, 435), #17 (par 5, 605)
Signature hole: #17- Hit a good drive down the left side of the fairway. Avoid the pit on the right side. Use a 3-wood for the second shot, again on the left side of the fairway, then use a short iron for the approach and go right for the green.

Clubhouse amenities: Chapel Hill features a full-service pro shop, a driving range and putting greens. The 19th Hole lounge features a full-service restaurant and bar. Lessons and outings are also available. Banquet facilities can accommodate up to 250 people.

Price: \$39 weekend rates include the mandatory cart. The weekdays rates are \$22 for 18 holes and \$14 for nine holes. Cart rental prices are \$12 for 18 holes and \$9 for nine holes. Twilight rates (after 4 p.m.) are \$14 weekdays and \$17 weekends plus the cart rental fee.

Comment: "Chapel Hill is a scenic and well-manicured course with the best greens in McHenry county." - *Roy Dombeck*
Lakeland's rating: 4 out of 5 tees

The 19th Hole

The 5th Annual Sequoit Pride Golf Outing will be held Wednesday, July 12 at Antioch Golf Club, located at 40150 North Route 59 in Antioch. The event will be a scramble format with a 1 p.m. shotgun start. Players should plan on arriving no later than noon.

The cost is \$75 per person, which includes golf, electric cart, lunch, dinner and prizes. Hospitality and dinner, a family-style feast, will commence at 6 p.m. will awards to follow.

Sequoit Pride is a parent group that provides additional funding for student enrichment programs at Antioch Community High School.

The Great Lakes Adaptive Sports Association (GLASA) in cooperation with the Lake County forest Preserves will offer adaptive

golf lessons on the Wednesdays of July 12-Aug. 23 from 6:30-7:30 p.m. The first four weeks of instruction will be provided at the Countryside Driving Range in Mundelein, with the last two weeks of the program finishing up at the Steeple Chase Golf Course in Mundelein.

GLASA provides recreational and competitive sports opportunities for youth and adults who have primary physical or visual impairments such as spinal cord injuries, multiple sclerosis, stroke amputee, etc. For further information call the GLASA office at 249-8685.

Stonewall Orchard's devilish 13th hole, a beautiful 150-yard par-3, offers a shot over wetlands to a green surrounded by pine trees. If a player ventures too far off line, you may be required to chip out of pine needles but a large extended collar makes the run-up an easy one for a one-putt. Proper club selection and wind direction are key.—

NEWSPAPERS

July 7-13, 2000

By BRENDA BEITSCHER
Staff Reporter

How far do you have to go to "get away from it all?" The solitude of a quiet day in the country, a cozy evening by the fire, and a cheerful breakfast served by caring hands may be no farther away than the distance normally driven to get to a noisy, crowded shopping mall. Let's visit some area bed and breakfast inns.

A mere "stone's throw" from the wild excitement of Great America amusement park and the frantic scurrying of Gurnee Mills outlet mall there is a secret garden of respite from the hustle and hassle of everyday life.

**Local bed and
breakfasts provide
an escape from
the bustle of
everyday life**

On a winding gravel road, away from the roaring traffic at 15937 W. Washington Street in Gurnee, there is Sweet Basil Hill Farm. The simple white clapboard house, nestled among 7 1/2 acres of trees and fields, is set so far back from the road that guests feel as if transported to a home in rural New England.

The name is not one of those fictions developers create, such as "Oak Ridge Harbor" where there is neither oak, nor ridge, nor harbor. Every part of the name of this quiet inn is meaningful.

"Ten years ago, when we were naming the inn, we were in our kitchen, with some sweet basil," recalled innkeeper Bob Jones. "It is a sensuous herb, and it represents good fellowship." The house, built in the 1950s by Jesse Hyatt, a former mayor of Libertyville, sits atop a hill. The hill kept the house safe during the recent flooding rains.

As for the "farm," the population of the homestead includes 28 sheep, two llamas, a "fainting goat," a pot-bellied pig named Priscilla and Sniffles the cat.

"We had a ram, which caused our flock to once reach a high of 52 sheep," Jones said.

If animals don't charm you, the peaceful warmth of the inn will. Bob and Teri Jones have created a sanctuary comprised of three suites and a guest-house. All have private baths. Two are two-bedroom suites, with one bedroom having a queen-sized bed and the other containing two twin beds. This

Top; Laura Loffredo relaxes on the front porch swing of the Bed and Breakfast she runs, the Round Robin Inn in Mundelein. At left; the Round Robin Inn located at 231 E. Maple Ave. in Mundelein. At right, Bob and Teri Jones sit on the stoop outside Sweet Basil Hill Farm, the Bed and Breakfast they own in Gurnee.—Photos by Sandy

SECRET

One of three suites available at the Sweet Basil Hill Farms Bed and Breakfast located at 15937 W. Washington Street in Gurnee.—Photos by Sandy Bressner

is an ideal set-up for families or groups of adults traveling together.

The third suite is a single queen bedroom, with a spacious bathroom and a small writing desk in an alcove in between. The separate guest house has a full kitchen, as well as two bedrooms, a living-room and a bath. All the rooms have phones, TVs and VCRs. A fax machine is available. Rates range from \$95-150, double occupancy, although Teri Jones pointed out that there is a mid-winter mid-week discount available.

The common room boasts a wood-burning fireplace, books, a video library and games. Hot coffee is always available, as well as hot tea, chocolate and cider in the winter, and cold lemonade in the summer. A plate of cookies and a bowl of popcorn sit on the sideboard at all times.

Breakfast is served at each guest's convenience. It is varied, including such delights as Swedish potato sausage, apple-cinnamon French toast, and oatmeal, as well as fresh fruit, bread, coffee cakes and juice.

"Not everyone likes something sweet for breakfast," noted Teri Jones. "We like our guests to have a choice."

To the south, at 231 E. Maple Ave. (Rte. 176) in the village of Mundelein, Laura Loffredo, aunt of Lake Villa's mayor Frank Loffredo, offers her guests at Round-Robin Guest House a trip back in time to the Victorian-influenced ambiance of a century-old home.

"It is actually a mixture of Victorian and

country," Laura Loffredo said. Finding true Victorian furniture too formal and "stuffy," the innkeeper mixed a variety of pieces with an old-fashioned flavor in a street-side home fronted by an expansive porch.

The 13-year-old inn's six rooms, all named for songs, range in price from \$50 for the twin-bedded "Moonlight Sonata" to \$140 for the romantic "Stardust" bridal suite in the attic, which has its own claw-footed tub and fireplace.

"A family of six once stayed here," said Loffredo. More typically, her home hosts couples and individuals traveling on business. Again, all rooms have phones and TVs, and a fax is available. The inn offers AAA, AARP and corporate rates.

While most of the rooms share baths, there are two that have private baths. One has a private screened porch as well.

Breakfast, which may include quiche, French toast, baked goods and fresh fruit, is served daily at 8:30 a.m. in the communal breakfast room, although "coffee is brewing for early risers," Loffredo noted. Sometimes, the former music teacher plays the parlor piano during breakfast.

Guests are free to use the library, drawing room and porch at their leisure.

For those who would like a taste of the gracious atmosphere, high tea is served, by appointment, to guests and non-guests alike. Tea, which includes scones, Devonshire cream, finger sandwiches, pastries and teas, costs \$15 for adults and \$10 for children 10

years old and under.

Returning north, at 21560 W. Grass Lake Rd. in Antioch, Mary Zupan breaks the mold with her contemporary bed and breakfast, which she calls "Simple Pleasures." True to its name, the unassuming modern house has the feel of a family home. It is a place to sprawl on the couch, watching videos or playing cards in the family room, or curl up with a book beside the fireplace in the spacious living room.

Three bedrooms are available. One, furnished with a four-poster queen bed, is \$60 a night. There is a spacious modern room with a king-sized bed and a table and chairs. The rate for that room is \$75, as is a room with two queen-sized beds in it. Each of the \$75 rooms has a phone and TV. Fax is available. Baths are shared.

"I adopt every guest," Zupan said. She treats her visitors as family, giving each a key code so they can enter and leave the house at will, without waiting for their hostess to open

the door for them.

"I want people to feel as if they are in their own home, not a hotel," she said.

Similarly, a continental breakfast is served at guests' convenience in the solarium.

None of the three inns allow pets ("people might be allergic"), and allow smoking outdoors only.

Quaint as they might be, all the inns avail themselves of the modern technology of the Internet.

Reservations can be made at Sweet Basil Hill Farm by phoning 244-3333. The web site is sweetbasill.com, with e-mail accepted at basill@aol.com.

Round-Robin Guest House can be called at 566-7664. The inn's web site is roundrobininn.com, and the e-mail address is rndrobin@aol.com.

Simple Pleasures Bed & Breakfast can be called at 838-2567. The web site is located at simplepleasures.com, and e-mail is received at simple@owc.net.

The Stardust bridal suite at the Round Robin Inn Bed and Breakfast in Mundelein.

Heritage Fair hosted by historical society

The McHenry County Historical Society is planning a fair. The Heritage Fair will be held July 9 at the museum at 6422 Main St. in Union from 10 a.m.-4 p.m. People of all ages will enjoy the day's offerings of games, food and entertainment.

Children will love the old-fashioned games of clothespin drop, juggling, basketball played with bushel baskets, bowling, watermelon-seed spitting and walking on stilts. Delicious cakes will be the prizes in the cake walk contest. A magician will dazzle and amaze everyone with his special tricks.

A silent auction and a regular auction will feature the antiques and collectibles donated by county residents and the certificates provided by area businesses. The proceeds from these auctions make the operating budget each year for the society. Participants are urged to bid and buy.

The Illinois Funeral Director's association will also be at the Fair with a traveling forty-foot trailer exhibit which will include a replica of Abraham Lincoln's casket.

Bakers from Border to Border of

McHenry County will proudly present their best baked pies to be judged in their pie contest. Apple and cherry have been the traditional favorites; a new category has been added this year: fruit. All pies must be two-crust, registered with the \$1 entry per pie between 10-11 a.m., and be ready for judging by local officials from around the county by 11:30 a.m.

A food booth from Wayne's Market, an ice cream booth and pie slices should keep everyone well-fed and happy. The museum will be open, with free admission, to view our recent exhibits: "Make the Connection," "RFD McHenry County," "Across the Prairies: A Tale of Two Chests," "Spanning the Centuries," and "Marching Off-Left Behind: A Look at the Vietnam Era." Throughout the day, enjoy the musical talents of Frances Mai-Ling Louie, a pianist from Spring Grove, who features several styles including ragtime, show tunes and standards.

More information is available by calling (815) 923-2267 or visiting the society's web page at www.crystallakenet.org/mchs.

SPECIAL EVENT

Mount Prospect used book sale July 15-16

The annual Summer Used Book Sale and special 25-Cent Paperback Sale, sponsored by Friends of the Mt. Prospect Public Library, will be open to the public Saturday, July 15 and Sunday, July 16, at the library, 10 S. Emerson (Rt. 83 & Central Ave.). A Members Only preview sale will be Friday, July 14.

Donations of 'pre-read' books didn't stop during the week the library was closed for renovation, so there is plenty of material to choose from: adult and young people's fiction and non-fiction in hard cover and paperback editions, all at affordable prices. The featured paperback sale will be in the first floor meeting room.

Public sale hours are 9 a.m. to 4:30 p.m. Saturday, and noon to 4:30 p.m. Sunday. There is no admission charge. The preview sale for members is open 6:30-9:30 p.m. Friday. New memberships and renewals are available during all book sale hours and at any time during regular library business hours.

For more information, call the library at 253-5675.

Tour a mobile funeral museum

The McHenry County Historical Society, in conjunction with its 16th Annual Heritage Fair, will host the Illinois Funeral Directors Association Museum (IFDA) for one day only on Sunday, July 9th from 10 a.m.-4 p.m. on the museum grounds at 6422 Main Street in Union. The IFDA Mobile Museum is being sponsored locally by Mark Justen, Owner and Director of the George R. Justen and Son Funeral Home in McHenry.

This fascinating mobile museum has traveled extensively throughout Illinois where it has become a popular attraction. The Museum features displays, illustrations and explanations of burial customs and practices from ancient times to the present day and includes special exhibits on Native American and 19th Century American mourning rituals. Among the more interesting replicas on display include the caskets of Abraham Lincoln and John F. Kennedy, as well as various presidential mementos; Tutankhamen's funeral mask; 19th Century mourning jewelry and mourning plates and two 19th Century caskets. One of these caskets, the Fisk casket, is made entirely of cast iron and was America's first protective casket. The other, an ice casket, was used to temporarily preserve remains that needed to be shipped for burial.

Admission to the IFDA Mobile Museum is free. The McHenry County Historical Society will also be offering free admission to its award winning local history museum for the day in conjunction with the Annual Heritage Fair, now in its 16th year. There will be numerous activities available on the museum grounds including an antique auction, old fashioned children's games, a petting zoo, music, magician and pioneer demonstrations. Food will be available. For further information, please contact the Society at (815) 923-2267.

MUSIC

Free concert July 9

The Classical Symphony Orchestra of Chicago: "A Professionally Oriented Training Orchestra, challenges aspiring college, graduate and older musicians, orchestral players to reach their full artistic development by rehearsal and performance of the highest level of literature, gaining invaluable repertoire experience and access to their own professional standards, will present a free concert on Sunday, July 9, at 3 p.m. This is the first concert of the 2000 Summer Season and will take place in Preston Bradley Hall, The Cultural Center, 78 E. Washington St., Chicago. Joseph Glymph, Music Director, will conduct.

Musical selections will include: Enesco: *Rumanian Rhapsody No. 1, Op. 11*; Mahler: *Symphony No. 5 in C# Minor*.

For information call 312-341-1521.

Concert in the park

The Zion Park District will continue its 2000 Concert in the Park Series on Thursday, July 13, with Special Consensus. The concert will begin at 7 p.m. at the Zion Park District Bandshell, 2400 Dowle Memorial Dr., Zion (adjacent to the Zion Leisure Center).

The Special Consensus is a four person Bluegrass band which has been performing nationally and internationally since 1975. Their sound fits somewhere between traditional bluegrass and country music. They also perform original songs and some gospel selections. Since 1985, they have released six albums and appeared on The Nashville Network's "Fire on the Mountain" show.

For more information about the 2000 Concerts in the Park series, please call the Zion Park District at 746-5500.

Racine Symphony Orchestra

The Racine Symphony Orchestra announces its 2000-2001 Lakeside Pops series.

The Lakeside Pops series will again delight audiences with performances on August 4, and September 1. All performances will be held at Festival Hall. Concert time will be 7 p.m., with the grounds opening at 5 p.m. and entertainment on the outdoor stage at 6 p.m.

Individual seat subscriptions can be purchased through the symphony office and are \$42 for an adult and \$25 for a child (indoor seating). Call the symphony office at 262/636-9285 for more details.

Summertime jazz concerts to be held

Inspired by popular demand, Gorton Community Center will host a summer series of three jazz concerts on Sundays from 4-6 p.m. Tickets are \$15. Due to building construction at Gorton, the concerts will be held at the Deer Path Inn, 255 E. Illinois Rd., Lake Forest.

The John Moulder Quartet will perform on Sunday, July 9. A prolific composer whose original pieces combine an alluring lyricism with harmonic and rhythmic ingenuity.

For further information, or to receive a program brochure, contact the Gorton office at 234-6060 between 9 a.m. and 4:30 p.m. weekdays.

Firefly Flicker Dance

The Buys & Belles square dance club will host a dance on Friday, July 7, at the First United Methodist Church, 128 N. Utica St., Waukegan. Cost is \$3.50 per person, and Lin Jarvis will be the Firefly Flicker Dance caller. All modern western square dancers in the area are invited and light refreshments will be served. For more information, call 746-1461 or 244-2373.

FESTIVAL

Gebhard Woods dulcimer festival

The Hammers and Noters Dulcimer Society (HANDS) of Illinois will host its Thirteenth Annual Gebhard Woods Dulcimer Festival, Morris IL, on July 8-9. Hands is a not-for-profit organization dedicated to presenting and preserving the dulcimer and its music. The main way HANDS accomplishes this is through the annual Gebhard Woods Dulcimer Festival.

Since the event is held in a state park, no admission fee may be charged. Suggested donation \$12/day per adult. Suggested donation includes one admission to the Saturday night dance, a \$3 value.

For further information, call Glenda Schowalter (708) 331-6875, or visit our website: www.enteract.com/~rwilliam/gwdf.

Enter a garden photography contest

Entering the free Garden Photography Contest sponsored by the Gardeners of Central Lake County does not require that your garden be picture perfect. Any amateur photographer in the Chicago area is encouraged to submit color prints of their favorite scenes from their or any other garden by the July 22 deadline.

First, Second and Third place ribbons will be awarded in each of four classes: 1) Flowers; 2) Fruits and Vegetables; 3) Grand or Small Garden Vistas, and 4) Gardening. Each entrant may submit up to four photographs in each class up to a total of 16 entries per person. A plaque will be presented to the best of show selected from the winners of all four classes. The winning photographs will be on display at the Gardeners of

Central Lake County's Flower and Garden Show on Saturday afternoon, August 19 in Libertyville.

Entries should be color prints sized 4" X 6." The following information should be clearly printed on the back of each entry: Name, Address, Phone Number, and Class, and Photograph

Title. Please send entries to: Photo Contest, Gardeners of Central Lake County, PO Box 7301, Libertyville, 60048 before July 22. Include a self-addressed envelope with appropriate postage for return of photographs if desired. The entries should be the original work of the photographer. The Gardeners of Central Lake County cannot be responsible for lost or damaged photographs.

For more information, call Gee at 918-8671.

Pie bakers, hat decorators needed for contests

The McHenry County Historical Society's 16th Annual Heritage Fair, taking place on Sunday, July 9, from 1-4 p.m. at the museum grounds in Union, will be featuring two contests this year. The first, a pie-baking contest, is an old favorite. The second, a hat-decorating contest, promises to provide new fun for all you milliners out there.

Interested bakers can register their pies between 10-11 a.m. Sunday for an entry fee of \$1 per pie. Pies should have a double crust and be baked prior to arrival at the Heritage Fair. Judging will take place at 11 a.m. with prizes awarded to the winners in each class as well as the

overall champion immediately following the judging.

For the hat-decorating contest, hats and decorative elements will be provided, including flowers, fabric and ribbon. Hat decorators are welcome to add their own special touches as well. The contestants will have two hours to complete their millinery masterpieces, and judging will take place at 2 p.m. There will be categories for both children and adults. The entry fee is \$1 and prizes will be awarded to the first- and second-place winners in both categories.

For further information, call the Society at (815) 923-2267.

Evening Hatha Yoga classes to be held at Gorton

Hatha Yoga classes will be held at Gorton Community Center, 400 East Illinois Rd., Lake Forest. Before retiring, Gillian Drummond, long-time Gorton instructor, will be offering one final mini-session on Tuesdays, beginning July 11, from 7:30-8:30 p.m., for four weeks. The cost is \$32, and pre-registration is required.

Gillian is a certified teacher with over 30 years of Yoga experience, and has a background in nursing, psychology, health, and nutrition. Her class emphasizes the importance of making Yoga a part of one's fitness routine. Students will learn to apply the many benefits of Yoga

to individual needs and concerns: back and neck, sports injuries, headaches, high or low blood pressure, panic attacks, respiratory problems, and asthma, are only a few examples. With regular practice, Yoga enthusiasts will see positive changes in mind and body. Consideration will be placed on breathing techniques. All Yoga postures may be modified for individual comfort levels.

Interested participants should register and pay in advance. For further information, or to receive a program brochure, contact or stop by the Gorton office at 234-6060 between 9 a.m. and 4:30 p.m. weekdays.

Dances of Universal Peace at Earth Festival at Camp Duncan

Voices of the Earth is a festival of the many ways humans have contributed to the beauty and diversity of Earth through the arts, ritual, and science. July 8, 12:30-4:30 p.m., YMCA Camp Duncan, Route 12, Ingleside.

For main stage performances by Spiritual Journey Percussion Ensemble, storytelling with Jim Pfitzer, and community drumming led by the Bucket Boys. Family activities include a Wonder Walk to look for endangered species,

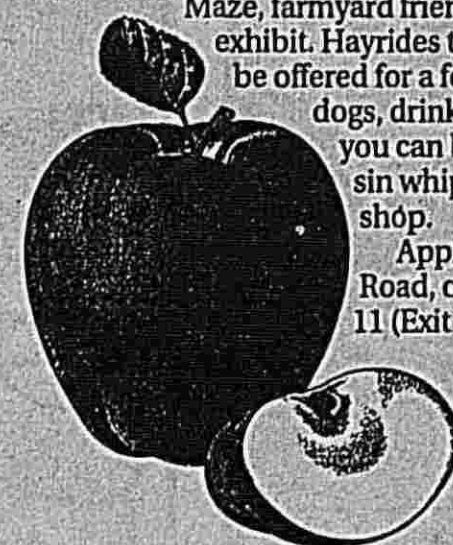

and experiential journey through the unfolding Universe, and a free family crafts booth. A multi-faceted kiosk will uncover Earth's healing with the world's major religions.

Camp facilities available include: Swimming, boating, climbing tower, high ropes, hayrides, fishing and a free lunch between 12:30-1:15 p.m.

Call (815) 385-4743 to order tickets or for more information.

Family fun at Apple Holler's Country Fair in Sturtevant, WI.

Head out to the country for Apple Holler's Country Fair, July 15-16, from 10 a.m.-4 p.m. The event features good old fashioned family fun. Free admission to the Saturday, July 15, Arts and Crafts Fair featuring exhibitors from Illinois and Wisconsin. Free activities also include outdoor fun in the Kid's Corral and Corn Maze, farmyard friends to pet, and a live observation beehive and pollination exhibit. Hayrides through the fifty-acre apple orchard and pony rides will be offered for a fee. Their country picnic cookout will feature brats, hot dogs, drinks and snacks for sale. If strawberries are what you crave, you can build your own Strawberry Shortcake with real Wisconsin whipped cream, and sample strawberry wine in our gift shop.

Apple Holler is located in Racine County on West Frontage Road, off I-94, just south of Milwaukee, between Hwy. 11 (Exit 335) and Hwy. KR (Exit 337).

For additional information call (262) 886-8500.

check it out!

Concert for seniors at Maravilla

Corporate Brass and Friends, a brassy sassy quartet led by trumpeter Matt Lee, will headline the second concert for North Shore seniors at Maravilla, Vernon Hills, 145 N. Milwaukee Ave., as part of their "Share the Magic and Music" summer/fall music series. The concert, in cooperation with Mostly Music, will be held Saturday, July 8, at 7 p.m., and will feature a program entitled "Free & Breezy."

The program, featuring a potpourri of brass compositions ranging from polkas and marches, to waltzes and musical comedy classics of the past, again will be held against the backdrop of the world's largest indoor Rainforest, which offers senior residents a new dimension in healthy retirement living.

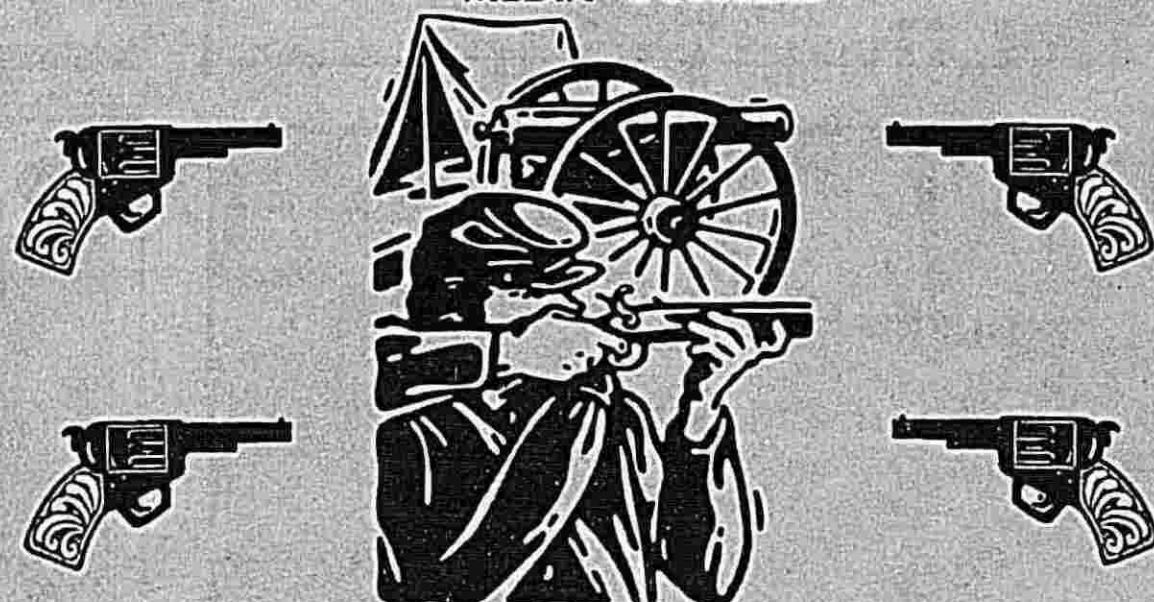

The July 8 program carries a special senior price of \$5 per person, and a general admission price of \$12 per person. Admission includes a post-concert reception with the performers. Seating is limited so reservations are encouraged by calling 793-2470.

In addition, for those who want to add a sumptuous pre-concert gourmet buffet to the evening's festivities, limited dinner reservations are accepted for dining from 5:30-6:30 p.m. The price is \$15 per person, but dinner reservations must be received by July 6 by calling 793-2470.

The third program of the Maravilla Music Series is scheduled for Saturday August 12, and will feature David Tuttle and the Chicago Winds, musicians who frequently perform with the Chicago Symphony Orchestra.

SPOTLIGHT:

Big Changes at Star Voyager

The Star Voyager at 2311 Green Bay Rd. in North Chicago, under new ownership, has temporarily closed its restaurant, but there is still lots of fun to be had when you are beamed up at the Star Voyager Bar.

The Star Voyager Bar will be open from 4 p.m. to 1 a.m. during the week, and until 2 a.m. on Friday and Saturday.

Everyone is invited to try their drink specials and nibble on a chicken wing or a mozzarella stick, or dine on a burger or chicken sandwich in the bar's futuristic space ship atmosphere.

Dance to your favorite deejay music every Thursday, Friday and Saturday from 9:30 p.m. until close. For those over 26, don't forget Steppers every Friday night.

There will soon be new pool tables for those of you who can handle the eight ball. Banquets and parties for up to 100 people can be accommodated. Call Jennifer Nagle at (847) 688-0499 for more information.

Galena to hold 29th Annual Arts Festival

Selected artists from the tri-state area and from a number of other states as well will exhibit a wide range of original art and fine crafts at the 29th Annual Galena Arts Festival on July 15-16. Sponsored by the Galena Artists Guild, the juried event will be held in Grant Park, Galena from 10 a.m.-5 p.m. on both Saturday and Sunday.

This year's festival will feature artists Jacqueline and Wayne Dyrke. Chosen from among Galena Artists Guild members, the Dyrkes, who are husband and wife, will display and sell their work at the East Gale-

na Town Hall.

Other exhibition artists will present work in a wide range of media, from traditional oils and watercolors to jewelry and photography. Some of the less traditional exhibits will include outdoor sculptures and digital art, produced by combining original images on a computer.

Connoisseurs, collectors and browsers alike will not want to miss this once-a-year event. The Festival will be held from 10 a.m.-5 p.m. on Saturday-Sunday with parking available south of the park along the Galena River.

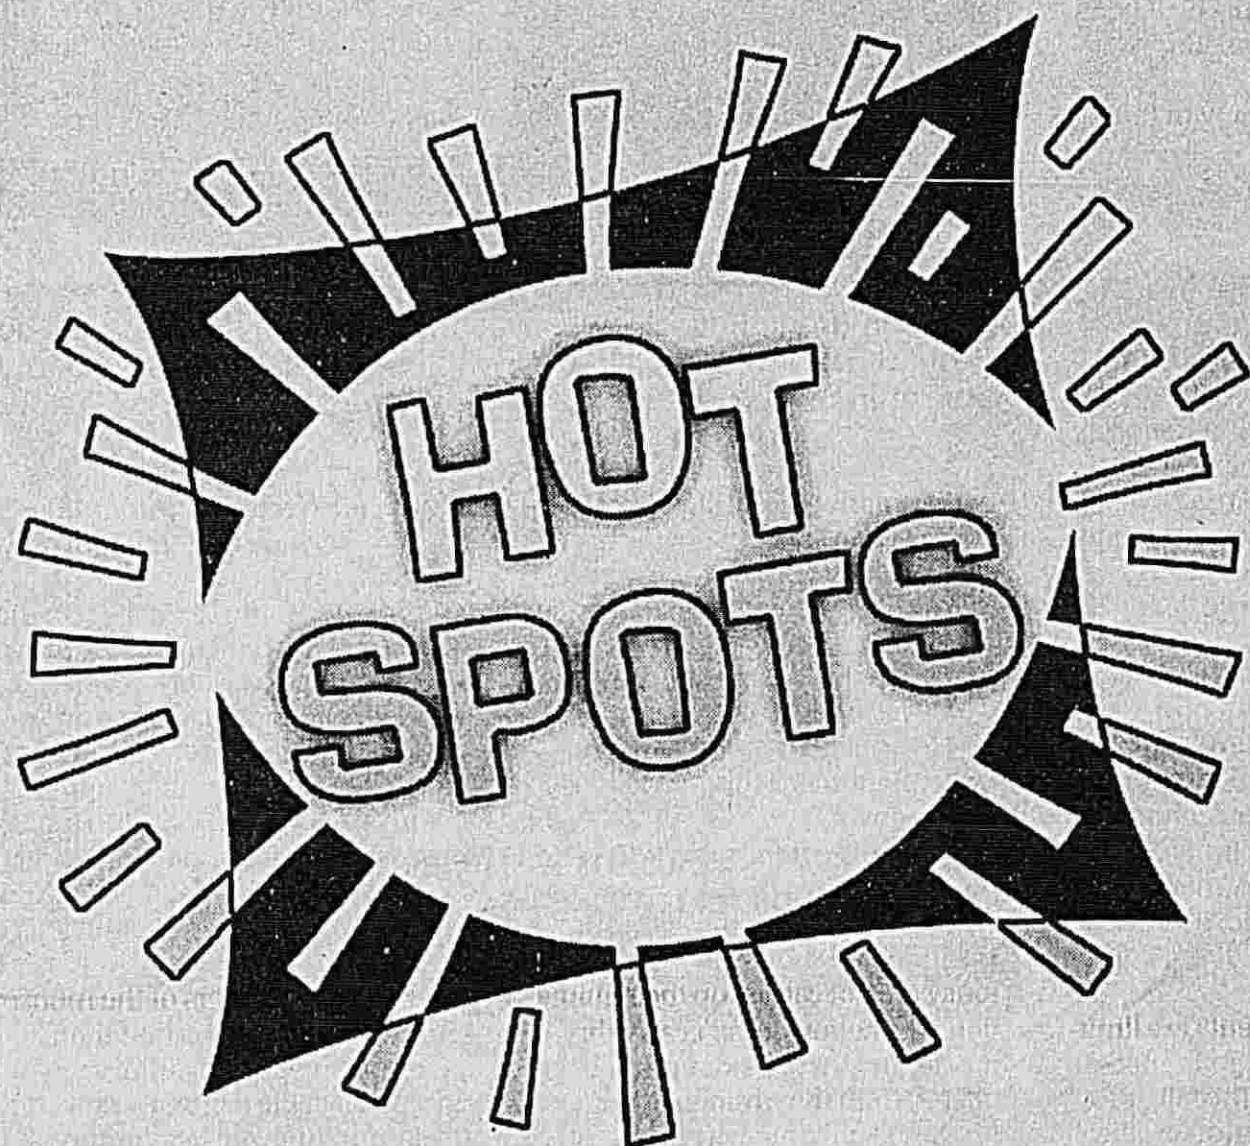

Beginning fly fishing class offered

A hands-on beginners' class, "Introduction to Fly Fishing for Men and Women," sponsored by Gorton Community Center, will take place at the West Side Fire Station, 1111 Telegraph Road, Lake Forest, on Saturday, July 15 or August 12, from 9 a.m.-12 noon. This popular workshop is led by expert angler Roy Weidemann, a fly casting, fishing and fly tying expert. The fee is \$45 per person, or \$60 for both husband and wife.

This course introduces all the elements of fly fishing: how and why it differs from other forms of fishing; the equipment and tool

used; setup and knots; where and how various species of fish feed; selection of flies and how to use them. The emphasis is on the technique of fly casting, with hands-on instruction and practice outdoors with top-quality rods and reels supplied by Roaring Fork Outfitters Ltd. (Bring your own gear if you have it.)

Interested participants should register and pay in advance. For further information, or to receive a program brochure, contact or stop by the Gorton office at 234-6060 between 9 a.m.-4:30 p.m., weekdays.

'Rocky and Bullwinkle'—nothin' up my sleeve

It seemed odd that Universal Studios didn't use Bullwinkle's famous "nothin' up my sleeve..." in its advertising campaign. After seeing the movie, it became clear why. The only plausible audience response to that disclaimer would be "no kidding!"

The storyline is that Rocky and Bullwinkle have spent the 36 years since the show's cancellation exiled in reruns which, by the way, is where they should remain for the sake of integrity.

Arch foes Boris Badenov (Jason Alexander) and Natasha Fatale (Rene Russo) help Fearless Leader (Robert De Niro) execute a plot in

movie review

Julie Murphy

which they are able to cross over from the cartoon world into live characters. The ultimate goal is to turn all of America into television zombies whose opinions can be easily swayed to support Fearless Leader's political agenda.

Rocky and Bullwinkle

Rating
PG

Director
Des McAnuff

Starring
Jason Alexander
Rene Russo
Randy Quaid
Janeane Garofalo
Piper Perabo

Piper Perabo plays a perky FBI agent named Karen Sympathy who must recruit the moose and squirrel to stop the Pottsylvania evildoer's scheme. She plays well opposite the animated leads.

The only problem with the movie is that it isn't funny—at all.

De Niro outshone Billy Crystal in comedic abilities in last year's *Analyze This*. While he is a perfect looking Fearless Leader, there is nothing laughable in the material no matter how it is delivered or by whom.

None of the double entendres, puns or quick wit of the early '60s television shorts are carried over to the movie. The television segments of *Rocky and Bullwinkle* (which couldn't have been more than 10 minutes long given they were featured with other shorts like *Fractured*, *Fairy Tales* and *Peabody and Sherman*) packed more belly busters in a few short minutes than this movie did in its entire torturous 1 hour and 32 minutes of viewing time.

Even cameo performances from Janeane Garofalo, John Goodman and Whoopi Goldberg don't help this film.

Humorous moments are limited to forgotten-about references to the old show such as the fall in Frostbite Falls flows into Veronica Lake.

In a television interview, Alexander bragged that the movie

Natasha (Rene Russo), Boris (Jason Alexander), Fearless Leader (Robert DeNiro), Rocky the Flying Squirrel and Bullwinkle J. Moose in Universal's *The Adventures of Rocky and Bullwinkle*.

had as many special effects as *Star Wars*. While effects work for the sake of effects in a movie like *The Matrix*, they do not work here. Actually, one would be hard pressed to find something more stunning than what was done to pair animation and live actors in *Mary Poppins*. *Roger Rabbit* has this movie beat hands down.

The television show didn't need fancy animation because it had great writing. Likewise, some of the funniest animated shows being produced today are not carried on their animation. Animation doesn't carry this movie, and there is no support being offered from the writing.

Small children who like anything animated, and who would be too young to understand any of the typical *Rocky and Bullwinkle* hu-

mor (had director Des McAnuff opted to include any) will probably enjoy this movie.

Casting is the only aspect of the film deserving of high marks. Russo is outstanding as Natasha. She looks and sounds exactly as one would expect of the crossover character. Alexander bumbles sufficiently as Boris, and De Niro looks every bit as evil as Fearless Leader warrants. The voices of Rocky (June Foray) and Bullwinkle (Keith Scott) are fitting.

Faithful followers of the moose and squirrel would be better off spending the price of admission petitioning a cable company to host a *Rocky and Bullwinkle* marathon weekend.

This film earns one popcorn box for casting.

Innovative fund raising event for A Safe Place

Special gold recycling fund raiser for A Safe Place, a Lake County center providing comprehensive services including shelter for families escaping domestic violence will be held July 8.

Bring your scrap gold jewelry that has been sitting for years in your jewelry box (10K, 14k and 18k gold damaged beyond repair, miss-

ing earrings, kinked chain etc.) You will receive \$3.20 per gram (based on \$282 per ounce of 24k.) The shelter receives the difference up to the refiner's price of \$4.75 per gram. Or if you wish, you may donate the entire amount to A Safe Place. The jeweler, Illinois Diamond Imports will remove stones if necessary; then weigh and test the gold without charge as a public service.

This event takes place at The Prairie Crossing Farmers' Market on Saturday, July 8, from 9 a.m. to 1 p.m. Prairie Crossing is in Grayslake, on the west side of Rte. 45, 1/2 mile south of Rte. 120. Follow the scarecrow signs to the farm. For more information call 543-0865.

The shelter's number is 249-5147.

Guitar classes offered at Cultural Center

Danny Miranda, lead bass player of Blue Oyster Cult, is currently teaching acoustic, electric and bass guitar at the David Adler Cultural Center on Mondays and Tuesdays throughout the year.

Danny Miranda, has proven success in all aspects of musical performance, including studio work and

live productions. He has a strong foundation in music theory and excellent teaching skills and experience.

The David Adler Cultural Center is located at 1700 N. Milwaukee Ave., Libertyville. For more information regarding instructional times and fees, please contact Meredith Jones at 367-0707.

ANSWERS

HOROSCOPE

Aries - March 21/April 20

You have big dreams this week, Aries. Unfortunately, a loved one has his or her own plans for you on Monday and Tuesday. This person needs your help with a family matter. While you don't want to get involved, you must. Don't get discouraged though, because you'll have plenty of time for yourself later in the week.

Taurus - April 21/May 21

Don't let a minor error by a loved one drive you crazy this week, Taurus. This person doesn't mean to create any problems. It is an honest mistake. Just let it go; it's not worth getting upset about. A close friend turns to you for advice. Be honest with him or her — even if what you have to say won't be appreciated.

Gemini - May 22/June 21

A business associate gets into trouble at work early in the week. Instead of letting this person flounder, help him or her out. Your efforts will be appreciated and rewarded. That special someone wants to talk to you on Thursday. Don't get nervous — this is going to be a positive conversation.

Cancer - June 22/July 22

Keep your emotions in check when a loved one says something to upset you, Cancer. Instead of getting angry, try to stay calm, and ask this person what he or she really means. This can lead to an honest conversation that actually will enhance your relationship. Scorpio plays a key role.

Leo - July 23/August 23

A close friend turns to you for help with a personal problem on Wednesday. While you realize that this person got into this mess on his or her own, he or she needs your assistance to get out of it. Do what you can. That special someone has a surprise for you during the weekend. Enjoy!

Virgo - Aug 24/Sept 22

An important business associate is counting on you to get something done this week, Virgo. Don't let him or her down. Work diligently to accomplish the task. This person is sure to be impressed with your efforts and will reward you. An interesting person asks

you out late in the week. Say yes, because it will be a good time.

Libra - Sept 23/Oct 23

A loved one offers you constructive criticism regarding your career. While this may hurt your ego, listen to what he or she is saying. It makes sense and can help you to reach your full potential. Sagittarius plays an important role on Friday.

Scorpio - Oct 24/Nov 22

You are faced with an interesting dilemma early in the week. Don't back away from this challenge. You certainly can handle it, and you can make some important financial gains from it. A close friend reveals his or her true feelings for you. Let this person down gently, because you don't want to damage your friendship.

Sagittarius - Nov 23/Dec 21

Your professional life is getting to be too much to handle right now, Sagittarius. Before making a drastic decision, take time for yourself to think about what you want. Taking a break from the stress will help you to see things more clearly. That special someone asks you an important question. Be honest.

Capricorn - Dec 22/Jan 20

A loved one introduces you to an interesting person during the middle of the week, Capricorn. Don't be shy. This person is sure to like you. Just be yourself, and you'll make a good impression. Business associates ask you out late in the week. Say yes, because it's sure to be a good time.

Aquarius - Jan 21/Feb 18

Don't get upset when you find yourself with an incredibly long to-do list this week, Aquarius. You can handle it. All you have to do is prioritize things and work diligently. Then, you're sure to make great strides. Those close to you will be impressed with your organizational skills.

Pisces - Feb 19/March 20

Try not to turn your back on a friend in need this week, Pisces. This person comes to you, because he or she doesn't know what else to do. If you stay calm, you're sure to find a solution to this problem.

Annual Art Fair hosted by Kenosha
Public Museum Sunday at Library Park

The Friends of the Kenosha Public Museum are pleased to announce the 36th Annual Art Fair in Library Park, Sunday, July 9 from 10 a.m.-5 p.m. Some 200 exhibitors will be on hand for this annual summer family event which attracts thousands of visitors from around the area. Stroll through beautiful historic Library Park and enjoy fine art and craft displays.

"Inka Pirka" a well known and popular South American musical group will again perform throughout the day on the steps of Simmons Library. Various food tents will offer hot dogs, pizza, hamburgers, ice cream, corn on the cob, soda and more. An expanded Kids Tent will be open this year with wonderful art activities for children. A raffle of donated

art and specialty items will be held to benefit the Museum.

The architectural drawings of the new museum and sketches of the exhibit designs will be on display. Stop by and see the exciting plans for the new Museum under construction at Harborpark at the lakefront.

This is a great summer activity for folks of all ages. Plan to spend the day at the Friends on the Kenosha Public Museum Art Fair in Library Park. Library Park is located at 60th Street and 7th Avenue, Kenosha. The Friends of the Kenosha Public Museum present this art fair annually to support new exhibits at the Kenosha Public Museum.

For more information, call (414) 653-4140.

COUNTY DIGEST

Cell phones needed

The Lake County Assoc. for Home and Community Education is collecting used cellular phones, batteries and chargers in an effort to support a statewide domestic violence intervention program called Call to Protect. The phones will be refurbished and programmed to dial 911 automatically. They will then be distributed to domestic abuse victims.

Donated items can be dropped off in the library of the University of Illinois extension building located at 100 S. Hwy. 45 in Grayslake. For more information call 543-0450.

'Snoopy' presented

Tickets are now on sale for the College of Lake County's upcoming musical "Snoopy." The show will run July 14-15 and July 22 at 7:30 p.m. There will also be a performance on July 16 at 2 p.m.

Tickets are \$10 for CLC students, alumni and seniors. General public pricing is \$12 per ticket. Call 543-2300 to order.

Players perform

The Lakehurst Players from the Lake County Literacy Program will perform "A Different Kind of Smart" at the Harold Washington Library in Chicago on July 7 at 7 p.m.

The program is part of the American Library Assoc.'s national conference, and will focus on the lives of adults who struggle with learning to read.

For more information call 623-2041 or 543-2327.

Fuel tax suspension: Politicians full of gas

By SANDY HARTOGH
Staff Reporter

The suspension of the state's sales tax on gasoline is being touted by state legislators as a "relief" to Illinois consumers hit hard by new gas production regulations ordered by the U.S. Environmental Protection Agency.

Although local pump prices have shown a decline of 6 to 12 cents per gallon since Gov. George Ryan signed Senate Bill 1310 as law, Amoco commissioned marketer Ray Haga contends that the numbers do not reflect a true 5 percent savings to the consumer.

Haga operates the Amoco station at Grand Ave. and Rte. 45 in Lake Villa Township, and is a co-owner of the

Amoco station located at Washington St. and Rte. 120 in Grayslake.

He noted areas like Lake County that sell the 10 percent ethanol-based formula of gasoline were only collecting 4.38 cents per gallon in sales tax to begin with. As an incentive, dealers that sell the ethanol mix only have to collect 70 percent of the prescribed state sales tax which is currently 6.25 percent.

While state legislators have suspended the state's portion of 5 percent, the remaining 1.25 percent will still be distributed back to local municipalities for road projects. Haga said the dealers' 70 percent incentive still applies to the local government shares, thus only .88 cents

'The state dropped the 5 percent because it is an election year. I would rather see our legislators put pressure on the oil companies'

SMC offers real-time data

By SANDY HARTOGH
Staff Reporter

Developers, permitting agencies, village engineers and county residents alike will now be able to track the amount of rainfall that occurs in the county by cruising the Lake County Stormwater Management Commission's (SMC) web site.

According to SMC engineering technician Perry Danler, real-time rain data collected from SMC's rain gauge network will be available on the agency's Internet homepage to viewers who use the data when monitoring sanitary sewer flows, or when calculating detention and flooding potential in developing sites. The information can also be used for general flood awareness in local communities, said Danler.

"We know now in the future that we can look into problematic areas and create plans to address those problems," commented Danler, who is in charge of the installation, operation and maintenance of the five SMC rain gauges scattered throughout the region.

The gauges are used to electronically calculate rainfall amounts in 5-minute intervals that are conveyed, through telephone lines, to Danler's

desk where the information is disseminated. Danler said the next step is to automatically download the data to the web site on a daily basis, as well as an hourly basis while it is raining.

Flood, restoration projects get push

By SANDY HARTOGH
Staff Reporter

For the last 50 years, the Des Plaines River has been the bane of many a community in Lake County in regard to flood damage. Within that time span, the river has swelled to overflowing approximately 15 times, leaving in its wake millions of dollars in damages and a multitude of headaches.

U.S. Congressman Philip Crane

(R-Palatine) is doing his best to help Lake County keep its head above water by pushing for federal funding for county flood control projects.

He has announced that \$1.3 million in funds for the Des Plaines River Flood Control Project and the Squaw Creek Ecosystem Restoration Project were included in the Energy and Water Appropriations Bill that was passed by the U.S.

Civil War Encampment set for ninth re-enactment

By BECKY DUBA
Staff Reporter

"This is our ninth year running and we've always received wonderful public support," said the Lake County Discovery Museum Educator, Andrew Osborne, about the Museum's Civil War Encampment.

This year, close to 700 living history re-enactors will convene at the

Lakewood Forest Preserve July 8-9 to set up an 1860's Civil War camp.

"This event is one of two major events the Museum puts on," Osborne said. "And this is our largest re-enactment yet. About three years ago we had around 75 re-enactors and last year we had over 400. It's a quickly growing event."

A DIGEST OF STORIES MAKING HEADLINES THROUGHOUT OUR REGION

Fourth of July car crash kills two

Mundelein—The Mundelein Police Department is investigating the involvement of alcohol in a fatal car accident that killed two Mundelein residents in the early morning of July 4.

At about 3 a.m. on July 4, a 1993 Lincoln Mark VIII was traveling southbound on Rte. 45 at a high rate of speed. Near Edgemont St., the driver, Erick Marban, 20, apparently lost control of the vehicle.

The car hit a guardrail on Rte. 45. This sent the car through a chainlink fence and into a ravine. The car then went airborne and struck a tree.

Marban and back seat passenger Richard Skrzypinski, 20, were pronounced dead at the scene. The front seat passenger, Sara Buchholz, a 19-year-old Mundelein resident from the 500 block of Dublin Dr., escaped with minor injuries. She was taken to Condell Hospital in Libertyville and later released.

Police said Buchholz was the only one who was wearing a seat belt.

Charges filed in wake of fatal accident

Wauconda—A Rock Island truck driver faces charges following a three-vehicle accident at Fairfield Rd. and Rte. 176 near Wauconda.

Jeffrey Avey, 25, who works for a Bettendorf, Iowa trucking firm, faces charges of driving while commercial license suspended. A pickup truck driven by Salvador Alvarado, 26, of Round Lake, struck the semitrailer, as it went through a red light, police said. Alvarado was pronounced dead at the scene. The accident took place just before 11 a.m. June 29.

Avey's truck was carrying sacks of dry cement.

Alvarado died from fracture of the neck and back, according to Lake County Coroner Barbara Richardson.

Rapist sentenced to over eight years

Round Lake Beach—Lake County Circuit Judge Raymond J. McKoski sentenced Donald Bellson, 52, of 318 Betty in Park City, to eight and a half years in the Illinois Department of Corrections on charges of criminal sexual assault.

On the evening of March 6, Bellson used a key to get into a home at the 900 Block of Oakwood in Round Lake Beach. There he raped his girlfriend's mother, Round Lake Beach Police said.

According to the Asst. State's Attorney Shanes, Bellson left evidence behind, which led to his conviction. Investigators found a few of Bellson's personal items, including a coat and eyeglasses, at the victim's home. Investigators also obtained DNA evidence. Although the victim was unable to see the attacker clearly, she recognized his voice.

Flight for life called after car accident

Round Lake Beach—Flight for Life rescue officials were forced to land a helicopter on Rollins Rd. July 1 to transport 27 year-old Anna Saenz of Round Lake Beach to Lutheran General Hospital in Park Ridge.

Saenz had been a passenger in a Chevrolet Nova, which struck a 1995 Ford Windstar van, driven by 45 year-old Ginger Tucibat of Round Lake Park.

According to police, Tucibat had attempted to cross Rollins from Hainesville Rd. on her way to Wal-mart. While in the intersection, the Nova, driven by 40 year-old Jesus L. Palacios of Round Lake Beach struck her vehicle. The van then struck a 1995 Cougar, driven by 37 year-old Diana C. Kuper of Gurnee.

According to Officer Mike Scott, Saenz did not sustain serious injuries.

Round Lake Beach Police cited Tucibat, driver of the van, with failure to yield.

Brainerd property may be rented out

Libertyville—Libertyville and Vernon Hills High School District 128 officials may rent out classrooms at the Brainerd building to pay for needed repairs at the campus. Libertyville High School currently uses the land for athletic events and students utilize locker rooms on the site. School board president Dennis Ryan stated that the estimated cost to repair the property would be about \$900,000.

As a result, officials are now looking into the possibility of renting out the classrooms inside the building to at least nine area corporations. Ryan said the board will make pre-

Burning rubber

Three-year-old Brandon Murphy and his sister Katie Murphy, 6, ride their 4x4 in a neighborhood Fourth of July parade in Unincorporated Grayslake.—Photo by Lynn Gunnarson Dahlstrom

sentations to the businesses within the next six weeks and will reportedly ask for a \$200 per-day rental fee.

Two busted in two-village crime spree

Grayslake—Grayslake police charged two teens with various offenses after a two-day "crime spree" in the area.

Joe D. Johnson, 17, of 7 Briargate in Grayslake, and Jeffrey Warren, 19, of 7 S. Whitney in Grayslake, were picked up by Gurnee Police after the pair attempted to use a stolen credit card at Gurnee Holiday Inn June 19.

Sgt. Mark Voykin, Grayslake investigations division commander, explained that Gurnee Police advised the Grayslake department that the pair was in custody. "Our detective interviewed both subjects and they admitted to committing burglary to motor vehicle, residential burglary and criminal damage to property," he said.

Gurnee Police charged the pair with unlawful use of a credit card. The men were to be arraigned July 6. Bond was set at \$50,000 each.

Nuemann revises development plan

Antioch—Nuemann Homes will present revised plans for the property commonly known as the Anest property and the former Homer White farm, located between Miller Rd and Rte. 173 to the combined plan commission and zoning board on July 27 at 7:30 p.m. for the purpose of public comment.

The new proposal will call for 1,308 detached, single-family homes. The previous proposal called for 1,390 homes.

The proposal allows for more usable open space than the 10 percent required by ordinance. A total of 160.06 acres, 25 percent of the property in question (634 acres) will be usable open space.

Board considers renting classrooms

Gurnee—Members of Gurnee's sole synagogue, Congregation Or Tikvah, appealed to the Woodland School District 50 Board of Education for consideration of classroom rentals at the Middle School located at Almond Rd. and Washington St.

Board members were reluctant to allow the use of classrooms, primarily for security reasons. Although middle school students do not keep their possessions in the classrooms, board member Nancy Jorgensen expressed concern over the safety of student projects that might be present.

School Superintendent Dr. Dennis Conti suggested using the congregation as a "pilot test" to see how such an arrangement would work out for other potential renters.

The board agreed to table its decision until it notifies and discusses the proposal with the teachers, and devise a set of guidelines for the prospective renters.

Firemen's Festival to be held

Fox Lake—The final planning stages and pre-event ticket sales are in the works for a Fox Lake tradition—the Fox Lake Volunteer Fire Department's annual festival.

The fun begins July 8 at Fire Station No. 2, off Washington St. in Ingleside, beginning at 6 p.m. The band Burro Creek Band will perform.

The band Water fights take place the next day, at 12 p.m.

"We normally have 1,300 people here. All the money goes to our training," said Deputy Chief Ron Hoehne. "Water fights are a big draw."

"We're not having the Vegas night this year, to make it more family oriented," said Hoehne.

Cyclists join "Ride for Kids"

Lake Villa—On July 16, motorcyclists from the Lake Villa area will assemble at Nielsen Enterprises, a motorcycle shop located at 130 S. Rte. 83, just south of Rte. 132, for an organized ride to join other groups in Northbrook for a regional "Ride for Kids." The ride is to raise funds for the Pediatric Brain Tumor Foundation.

This year's ride is dedicated to the memory of radio personality Bob Collins. Collins was a supporter of the cause, and a participant in past rides. Frank Loffredo, Lake Villa's mayor, will be joining the ride.

A continental breakfast will be served to riders at 5:30 a.m. Departure from Lake Villa will be at 7 a.m. precisely.

For information about riding or pledging, call 800-253-6530, or go to the foundation's web site at www.ride4kids.org.

Ameritech creates headaches in Volo

Volo—A change of village hall offices had led to a telephone headache for the Village of Volo.

The village informed Ameritech it is leaving its present office. But Ameritech cut off the village phone line, according to Mayor Burnell Russell.

Russell said he hopes the village will have a new phone and fax line this week. Ameritech told village officials a new line would not be available until July 14.

"It's a pain," Russell said.

School hours to change

Lake Villa/Lindenhurst—At the last regular meeting of the Lake Villa School District 41 board, there was a discussion of possible school hour changes.

The board had to consider the alternatives of either buying more school buses and hiring more drivers, or staggering school hours to allow more trips per bus.

The changes would affect three out of four of the Lake Villa District 41 schools. The new hours would be as follows: Palombi Middle School, 7:20-2:25 (ten minutes earlier than current hours), Pleviak Elementary School, 8:05-2:45 (20 minutes earlier), Hooper Elementary School, 8:30-3:10 (five minutes later). Hours would remain the same at Thompson Elementary School.

CLC NOTES

Holiday Art Sale 2000 entries needed

Lake County artists ages 18 and older are invited to submit entries for the College of Lake County's 2000 holiday art sale to be held Dec. 2-5. All fine art forms including crafts (clay, fiber, glass, metal and paper), jewelry, sculpture, painting, graphics and photography will be accepted for consideration. The deadline to submit entries is Oct. 8.

All work must be original in concept and design and created by the applying artist. Artists must submit three slides or photographs representative of work to be exhibited. All entries must be accompanied by an entry form, a \$15 jury fee and a stamped, self-addressed

business envelope. All work will be juried by members of the CLC Foundation's cultural arts committee, which sponsors the holiday art sale. Selections will be based on creativity, craftsmanship, salability and affordability.

Scholarships available for returning students

The American Association of University Women's mid-Lake County branch will offer a \$300 scholarship to a mature, returning female student enrolled either part- or full-time at the College of Lake County.

Candidates must be 30 years of age or older, a Lake County resident and have a minimum 3.0 grade point average. They must also

intend to pursue a bachelor's degree after completing their studies at CLC. Eligible students must submit an official transcript, a completed CLC scholarship application and an essay describing their educational goals and need for financial assistance. The application deadline is Sept. 1. Applications are available in the financial aid office, Room B114. For information, call 543-2062.

Ceramics, China painting classes

The continuing education department at the College of Lake County will offer a ceramics class for beginners and a class in China painting in July.

"Beginning Ceramics" (CCRF 10) will be taught from 6:30-9:30 p.m. on Mondays beginning July 10 for four weeks and "China paint-

ing" (CCRF 12) will be offered from 6:30-9:30 p.m. on Tuesdays beginning July 11 for three weeks. Both classes will meet at the Technology Campus on CLC's Grayslake Campus.

Students in the ceramics class will learn how to pour, clean and prepare a greenware piece for firing and paint the fired bisque piece. They also will learn different techniques such as glazing, staining, dry brushing, underglazing and antiquing. The course fee is \$49, plus \$15 materials fee due the first class.

The china painting class will consist of painting small boxes, cups and saucers and small tea sets with mineral-based China paints and brushes and decorating with different flowers, tied ribbons and bands and scrolling. The course fee is \$65, plus \$20 materials fee due to the instructor the first class.

For course information, call 532-2022. To register, dial 223-1111.

EDITORIALS

Southern view needs hearing on Rte. 53 bug

Rte. 53 zealots in the public sector and private citizens frustrated over being caught in the daily gridlock snarl tend to forget that the controversial highway plan, both heralded and damned at the same time, has a southern end.

Geography, to be sure, shapes views on the northern end of the proposed extension, variously seen as a toll road or expressway. Our editorial perspective and the views of public interest groups like the Farm Bureau and chambers of commerce, politicians, thousands of motorists, plus professional planners being paid by the toll authority and department of transportation, are looking south.

A much different view of the proposed \$2 billion project presents itself when looking north. For one thing, the pressure to "do something" about relieving traffic congestion is much less on the south end, meaning north Cook County and the City of Chicago. If there is any interest at all among our neighbors to the south in what's happening in Lake County, it's probably either benign or bemused. Certainly it's anything but a crisis as highway building eager beavers and shrill big city media voices would have us believe.

Therein lies the problem Rte. 53 supporters have ignored or haven't yet considered.

We up north talk about Rte. 53 knifing through the county's heartland from Lake-Cook Rd. to a point south of Grayslake as a transportation issue. On the south end, leaders see the Rte. 53 extension in social and economic terms. And what they see isn't pretty from their viewpoint. A new north-side corridor will continue the dislocation of Chicagoans, contribute further to city decay and drain Cook County humans and resources. That's the social side. In economic terms, there will be continued redistribution of Chicago and Cook County wealth to Lake County. Sociologists have used the expression "sucking the life out of the city" to describe the impact any new major highway corridors would have on Chicago.

Consider the transportation, social and economic impacts of the study group's second option: widening Rtes. 83, 45, 21, 12, and segments of the Tri-State Tollway plus building bypasses around Libertyville and Mundelein.

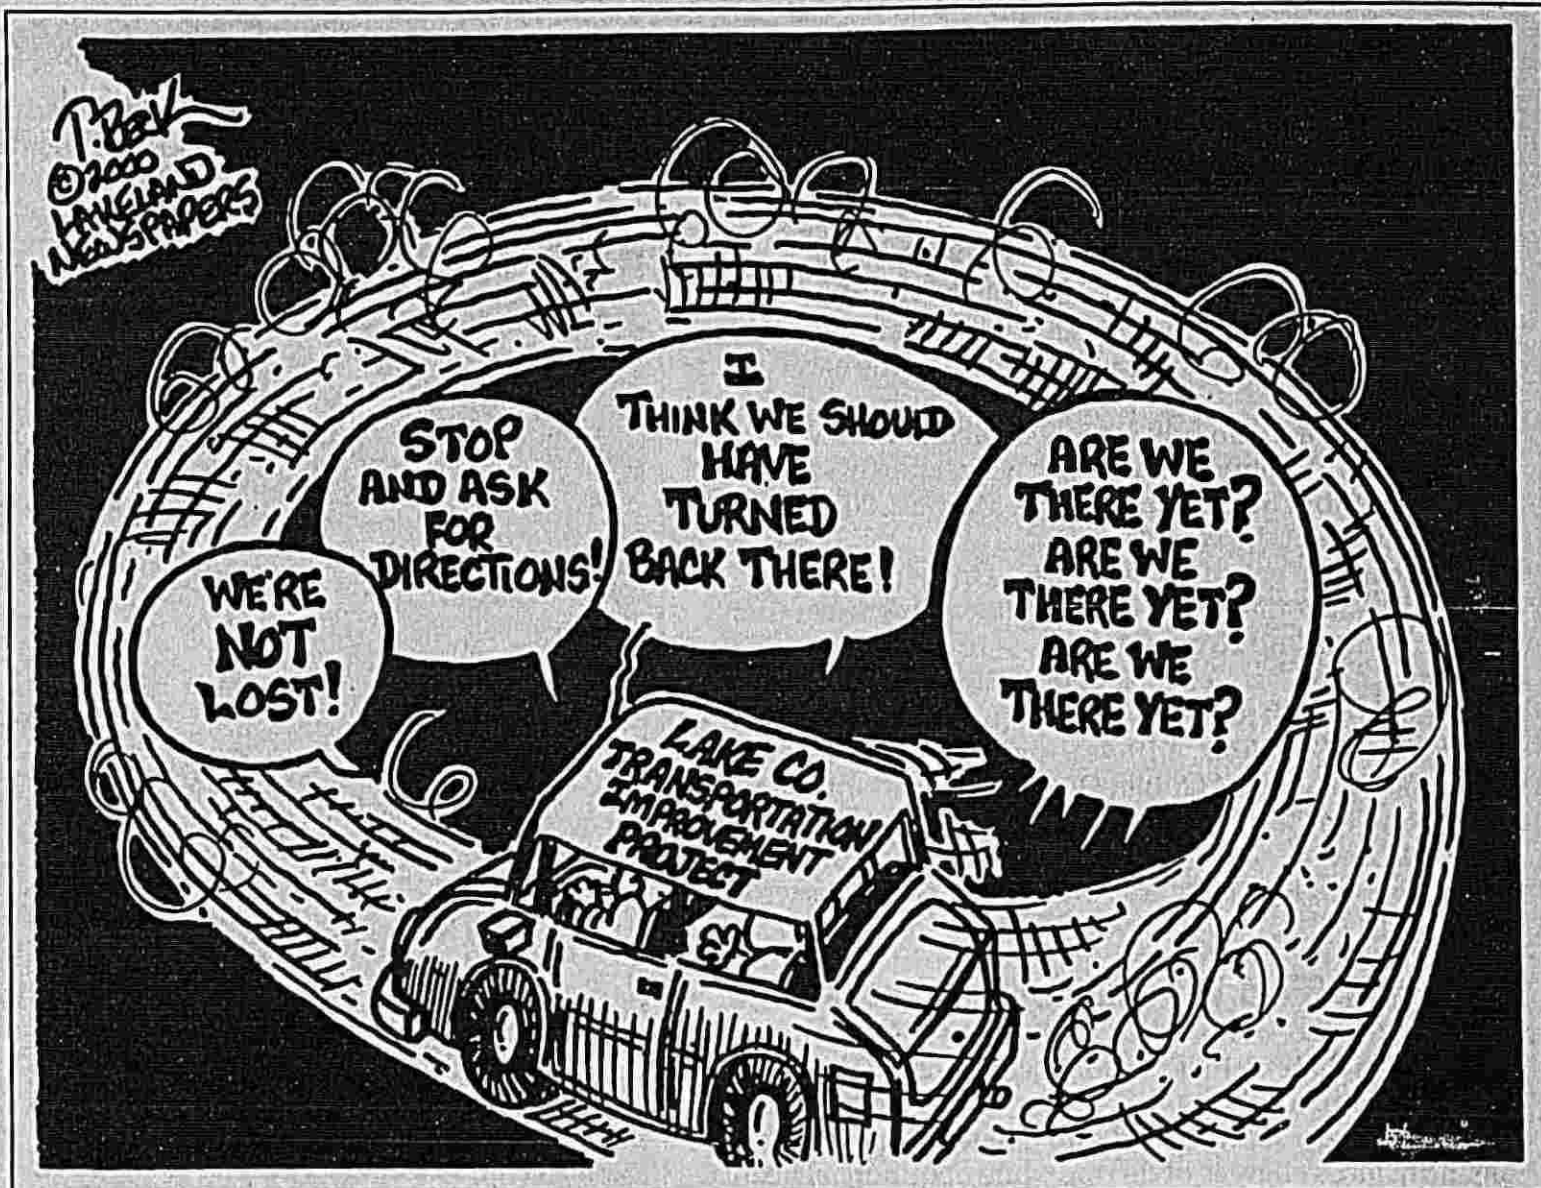

From both north and south perspectives, the alternatives to Rte. 53 will be positive for improving transportation. Since the character of the existing corridors already is in place, the social impact of the alternatives would be negligible, if noticeable at all. The economic impact on both ends would be win-win. The improved roadways would be a guarantee for moving people from the suburbs to the job-rich city, thus maintaining the historic city-suburb relationship and interdependence.

We have a hunch that the negative social and economic impact that a Rte. 53 extension would impose on the City of Chicago and its immediate environs hasn't gone unnoticed by astute central city politicians and policy shapers. Gov. George Ryan's continued disinterest in tollway expansion in Illinois could well stem from the realization that the southern end has a vested interest, a big interest, in how highway improvements take shape, too. An interest, by the way, that must be recognized alike by government and business interests.

At mid-year, Rte. 53 Lake County partisans both in and out of government appear to be taking a "shoot the moon" approach with little or no regard to the attractive options outlined by the Lake County Transportation Improvement Project (LCTIP). Could this be a last gasp for Rte. 53?

Members of the Lake County Board would take a big step toward driving a nail in the Rte. 53 coffin by taking a firm stand against the extension by voting on the issue at an early date. Eleven members already have signed a letter to the governor opposing the extension. At the same time, their support for alternative route upgrades as outlined by LCTIP could trigger a new era for county transportation.

In our mind, that would be having our cake and eating it, too. Count on support for the LCTIP options from our southern neighbors.

VIEWPOINT

Small college has big plans

Plans are on the drawing board to celebrate the 150th anniversary of the founding of Lake County's smallest seat of higher learning.

With careful and thorough planning for the landmark anniversary, Shimer college will be emerging from the academic shadows.

"We're Lake County's best kept secret," President Don Moon remarked somewhat wistfully as he outlined basic steps being taken to commemorate a century and a half of service to liberal arts education.

Shimer enrollment hovers slightly over 100. Students go back and forth to classes in a residential area between Sheridan Rd. and Genesee St., Waukegan, blending into the neighborhood.

Moon, a hands-on educator trained in nuclear engineering, is getting a head start on arrangements, although the actual celebration won't take place until 2003. In the meantime, he'll be combining teaching duties in Shimer's innovative graduate science program, with button-holing business and civic leaders to get Shimer better known in the county in anticipation of the celebration.

"We want the 150th anniversary to be a Lake County event," Moon asserted.

Founded in western Illinois, Shimer came to Waukegan in 1979. The tiny school is no quirky learning center. Along with national academic acclaim, among Shimer achievements is a modern-as-the-minute degree program for working adults that results in a bachelor of arts or science degree in four years attendance of 15 weekends a year.

BILL SCHROEDER
Publisher

Mr. and Mrs.

Jeff Zgonina, Carmel High's gift to the National Football League, left the bachelor ranks last Sunday afternoon when he wed Cammi Bogley of Pittsburgh in a ceremony at St. Ann's Church, Barrington. Now a member of the Super Bowl champion St. Louis Rams, Jeff became acquainted with Cammi during his stint with the Pittsburgh Steelers. The newlyweds won't be setting up housekeeping for a while because Jeff will report in a few weeks for training camp at Western Illinois University, Macomb.

History focus

Mundelein Mayor Marilyn Sindles focused on a seldom discussed piece of history during a talk at Fort Hill Heritage Museum in Mundelein during July 4 weekend festivities: What happened to the original signers of the Declaration of Independence? Five of them were tortured and murdered after being captured by the British. All of the signers, Mayor Sindles pointed out, paid a heavy price to launch the freedoms U.S. citizens enjoy today.

Always running

The Lake Forest home of Lt. Gov. Corinne Wood will be a quiet place the rest of the summer as the Wood family "takes to the road" for the county fair circuit. The energetic Republican packs her family into a motor home for the trek up and down Illinois. During a visit several weeks ago with Lakeland Newspaper reporters, the lieutenant governor was asked if she'll be running for a second term. "Mostly likely," she replied with a broad smile. We haven't seen that position reported anywhere in the press. Which means her boss also will be going for a second term. Haven't seen that stance reported anywhere, either.

Expensive fun

Gurnee trustees aren't amused about the way Six Flags Great America is administering the village amusement tax or ticket pricing. When admission prices were raised last week, park officials blamed the Gurnee tax. "Phooey," exclaimed trustees who pointed out the tax always has been three percent. It was a jolt to learn that adult admission now is \$42.99 for a day of fun.

Barn art

There was a time when barn art hereabouts consisted of signs for chewing tobacco and baking soda. Two former Mundelein High students are now creating new rural vistas by turning a barn on Fremont Center Rd. just off Rte. 176 between Mundelein and Wauconda into a milieu of color and symbols. Sean Rankin and Jeff Grandt invite you to stop by July 18 to view their handiwork and contribute to a children's foundation.

LETTERS TO THE EDITOR

Re: Stormwater Management Commission and Fox Waterway Agency

I noted the comments in your column about the litigation filed by the Lake County Stormwater Management Commission (SMC) against the Fox Waterway Agency (FWA). I am the attorney for the FWA, and wanted to respond with a few comments of my own, which do not necessarily reflect the opinions of the Board of Directors or staff of the agency. I also write these comments on my own time, and without compensation from the Agency.

First and foremost, the flooding experienced this week shows the need for SMC and FWA to work together. Only with cooperative efforts can the problems inherent with sediment-filled lakes and over-developed floodplains be addressed and solved by the governmental units charged with that responsibility. It is a sad reflection on the state of the matter that SMC adamantly refused to negotiate an intergovernmental agreement that could help prevent flooding along the Fox and

its lakes with FWA unless and until FWA bowed to their interpretation of the Rivers, Lakes and Streams Act. This act contains the statutes that established the FWA and which allowed the Illinois Department of Natural Resources (IDNR) to delegate authority over building projects in the floodplain (but not the lakebed) to their commission.

The crux of the dispute involves a fairly clear legal question: Under this Act, the IDNR is given the direction by the legislature to regulate

building in floodplains and floodways. It is also authorized to delegate that authority to county agencies in the collar counties. That is where SMC received its powers. On the other hand, there is a separate section of the Rivers, Lakes and Streams Act which gives the IDNR the sole power to regulate building on the lakebeds and riverbeds. The Act does not permit this power to be delegated by IDNR to any other governmental agency.

The geotube project is designed

to restore Grass Island, which eroded in the middle of Grass Lake many years ago. It is a project on the lakebed. FWA has all the permits necessary for this project from the IDNR and the federal government as well. Therefore, the question is why should the FWA be required to get a permit from SMC when it already has a permit from IDNR, since IDNR has the sole power to permit projects in the

PARTY LINES

PARTY LINES, THE LAKELAND NEWSPAPERS' COLUMN OF POLITICAL OPINION, IS PREPARED FROM STAFF REPORTS.

'Dogpatch' description hounding Leafblad

For better or worse, County Board Rep. **Larry Leafblad** (R-Highland Lake) is stuck with originating the colorful description "Dogpatch" to call attention to sub-standard housing in northwest Lake County.

Currently, the label is associated with a running controversy over recreational vehicle campgrounds. Originally, though, Leafblad's comment was a sweeping description made more than five years ago of the way the county administers building codes in unincorporated areas of Grant, Antioch and Lake Villa townships.

That was before Leafblad became chairman of the County Planning, Building and Zoning Committee.

The veteran County Board member isn't ducking the reference. Leafblad says it still stands. Only now he's working to make changes that will do away with the L'il Abner atmosphere, he inserts.

Blamey bash

County Treasurer **Bob Skidmore** has started the countdown for his annual celebration at Blarney Island set for Wednesday, Aug. 30. Official invitations list a 3 p.m. start, but only a question mark for the end. It's that kind of affair. Blarney Island is only accessible by water.

Backing Adams

Frank Nustra, a highly respected elder statesman of Lake County Republican politics, broke with precedent to endorse Green Oaks Mayor **Tom Adams** for the office of county recorder of deeds, a

Adams: Getting nod from Nustra for county recorder

Semple: Believes smaller is better regarding government involvement

job Nustra held for 44 years before retiring in 1996. Nustra, usually accompanied by family members, still attends many GOP gatherings.

Opposes growth

Lake Zurich Trustee **Mark Hutton** says he may be a voice in the wilderness, but he's going to stick to a campaign promise to slow down growth. Hutton is opposing a proposed subdivision of upscale homes

on Midlothian Rd. between Lake Zurich and Mundelein. Hutton may encounter opposition from Mayor **Jim Kruschke**, his running mate three years ago.

Slower better

Veteran Mundelein trustee **Ray Semple** is earning applause for his "smaller is better" decision to ease back on the pace of Streetscape, a downtown revitalization project. As public works chair, Semple said the village was trying to do too much too fast, out-running funding, for one thing.

Possible flood suit

Antioch Mayor **Marilyn Shineflug** is working hard to prevent spring flooding headaches from turning into a campaign issue next year when she comes up for reelection. A group of homeowners may file a lawsuit against the village even though village crews and emergency personnel worked long hours. Shineflug and Village Administrator **Tim Wells** are getting the brunt of criticism, especially for backed up sewage in homes.

Going for cops

Even though Wauconda is the hometown of staunchly conservative Congressman **Phil Crane**, Mayor **Jim Eschenbach** is laying the groundwork for a federal grant to hire additional police officers. Over the years Crane has opposed government handouts in all forms. Wauconda is seeking support from the Cops First program, a Clinton administration favorite. Eschenbach is a strong backer of Crane.

Dole a big IF in U.S. history

THE PFARR CORNER

Jerry Pfarr

Former Kansas senator **Bob Dole**, while touring Rome recently, was asked why he was visiting Italy.

Joked Dole: "I'm still looking for a country that needs a president."

Just last week on two occasions I heard this old saying, "If ifs and buts were candy and nuts, we'd all have a very nice Christmas."

But I still can't help feeling iffy about the 1996 presidential election when the wise and devilishly witty Dole certainly deserved more votes than the ethically impaired Bill Clinton.

We'd now have a regular guy in the White House instead of a guy the disciplinary committee of his home-state Arkansas wants to strip of his law license for "dishonesty, deceit, fraud and misrepresentation."

According to the disbarment complaint, Clinton, known in Arkansas as "Slick Willie," has been guilty of behavior that "damages the legal profession and demonstrates a lack of overall fitness to hold a license to practice law."

Even his fellow lawyers don't want Clinton around, yet the American voters chose him to be our president for eight years. To quote a show-stopping line from the 1950s musical, "Call Me Madam," the voters sure scare the hell out of us sometimes.

As a bumper sticker says: DON'T BLAME ME, I VOTED FOR DOLE. In fact, 39 million of us voted for Dole, but 47 million wanted Clinton. Yes, that's scary.

How different the conduct in the White House and Oval Office might have been since 1992 had the majority of voters displayed an open or functioning mind. Hadn't voted as if they had just fallen off the turnip truck.

Dole's wry sense of humor is captured in his book, "Great Political Wit — Laughing (Almost) All the

Way to the White House."

In the foreword his wife Elizabeth writes: "Considering that when I was Secretary of Transportation, Bob once said the Federal Highway Administration used my biscuit recipe to fill potholes, I'm tempted to give this book a bad review. But the fact is that 'Great Political Wit' captures the Bob Dole I know and love — warm, funny, with a unique ability to laugh at himself."

Here's a great anecdote from the book: Harry Truman was known for his plain speaking. When he made a speech at the Washington Garden Club, he kept referring to the "good manure" that needed to be used on the flowers. Some society women complained to his wife, Bess: "Couldn't you get the president to say 'fertilizer'?" Mrs. Truman replied, "Heavens no. It took me 25 years to get him to say 'manure.'"

Dole writes that George Bush was a president who always kept his ego in check. When told a company would be coming out with "presidential trading cards" for kids, he said, "I don't dare ask how many hundreds of George Bush cards you must trade to get one Michael Jordan."

Not in the book is this Dole-ism from a few years ago when he visited Chicago during a mayoral race in which one of Richard Daley's pushover opponents was Republican Ray Wardingley, best known for his career as Spanky the Clown.

Shrugged Dole: "I thought all the clowns were in the other party."

LETTERS

lakebed and since SMC's power is received from IDNR?

You suggest that attorneys will get rich and that the taxpayers and boaters will bear the heavy cost of this litigation. That is inaccurate. Legal costs for both agencies are projected to be quite modest. SMC's attorney and I have agreed to submit stipulations of facts which will allow the court to reach the core issue directly and quickly. This litigation is intended to obtain an answer to our client's disagreements on the correct interpretation of law and statutes. It is not designed to funnel money into our personal accounts.

Consider, for a moment, how many thousands of dollars have been spent on design and engineering of the geotube. Years of time and effort went into it so far, and it's likely that the construction phase will last several more years, even if God turns off the rain faucet so the agency staff can get to work. This project is actually a pilot project intended to demonstrate the ability of mankind to undo damage it has created over the years. More such projects will aid ecological restoration. Adding the additional engineering review and possible rejection of plans by a sister local unit of government is an expensive proposition. Spending a relatively few dollars now should make these projects much less expensive in the long run.

Consider also the fact that McHenry County is contemplating its own stormwater agency and the possibility of contradictory rulings

between the two county agencies. Reflect on the fact that nothing FWA does with projects like this can possibly affect water levels or increase flooding, because the Corps of Engineers and IDNR regulate the water levels of the Fox River and Chain O'Lakes at the Stratton Locks and Dam and at the Algonquin Dam.

SMC's position would be much more understandable if the geotube project were capable of impacting any floodplain, but due to the dams, it simply cannot. Personally, I cannot understand why SMC wants to require pointless compliance with rigid rules that will not and cannot provide any meaningful public benefit. Under these circumstances, the FWA board has understood and strongly endorsed the necessary litigation to obtain a ruling from the courts on this critical issue. I hope this clarifies the real issues and allows you and your readers to better understand what this case is really about.

North Chicago

Sudden impact

As a student living in Lake County, I am deeply disturbed by the profound environmental impact of the proposed Rte. 53 extension. With mounting traffic congestion and debates over funding it is imperative that residents realize the grim reality of destruction that will occur if Rte. 53 is extended.

Remnants of the prairies, woodlands and wetlands that make up the rich character of Lake County will be lost forever. The proposed expansion will reduce habitat for native plant and wildlife species by impacting hundreds of acres of forest preserve land. One-hundred-seventy acres of wetlands, which act as natural sponges to protect the county from water pollution and flooding, will be endangered as well. Chipping away at the forest preserve system, Rte. 53 offers no quick fix to traffic congestion. The \$1.86 billion tollway will clog county roads by attracting an additional 60,000 people to the county. The reasonable solution to protect quality of life in Lake County is to do rail and local road improvements and leave the county forest preserves minimally impacted.

Lauren Goldberg
Lake Forest

Religious suppression

Congressional wisdom-1789, the Northwest Ordinance, Article III: "Religion, morality and knowledge, being necessary to good government and the happiness of mankind, schools and the means of education shall forever be encouraged."

Judicial ignorance-2000 Supreme Court:

"School sponsorship of a religious message is impermissible because it tells members of the audience who are non-adherents that they are outsiders."

How in the world could two attitudes be so different? There is, of course, the simple answer and the more informative complex answer. But, since modern Americans have little capacity for information I'll give the short answer. We, in our 20th century, historically illiterate, myopic snobbishness, have placed people's feelings and things above the worship and adoration of God.

The God of the Bible was responsible for establishing this nation and nearly all our Founders believed that the new nation would only survive as long as the God of the Bible was revered and worshipped. A few exemplary quotes of the thousands that are available follow:

"Of all the dispositions and habits which lead to political prosperity, religion and morality are indispensable supports. In vain would that man claim the tribute of patriotism, who should labor to subvert these great pillars of human happiness."

George Washington, Farewell Address.

"We have staked the whole future of American civilization, not upon the power of government, far

from it. We have staked the future of all our political institutions upon the capacity of each and all of us to govern ourselves, to control ourselves, to sustain ourselves according to the Ten Commandments of God."

James Madison, fourth president, "Father of the Constitution."

"It cannot be emphasized too strongly or too often that this great nation was founded, not by religionists, but by Christians; not on religions, but on the gospel of Jesus."

Patrick Henry "Give me liberty or give me death."

"We are not to attribute this prohibition of a national religious establishment (First amendment) to an indifference to religion in general, and especially to Christianity (which none could hold in more reverence, than the framers of the Constitution). Probably at the time of the adoption of the Constitution, and of the amendments to it, (First amendment) the general, if not the universal sentiment in America was, that Christianity ought to receive encouragement from the State. An attempt to level all religions and to make it a matter of state policy to hold all in utter indifference, would have created universal disapprobation, if not universal indignation."

Chief Justice Joseph Story, appointed by Madison and author of the authoritative "Commentary on the Constitution."

If you are groaning, perhaps it's time to elect people who have the wisdom to fear the Lord and demand righteousness from those in authority. In any case, "God will not be mocked. Whatever a man sows, that shall he reap" Galatians 5:7.

MINDING YOUR OWN BUSINESS

Don Taylor

It's never too late to change your life

Fifty-four years ago, I was just a little tyke embarking on the great journey called life. Today, 19,734 days later, I know many things I didn't know then.

For example, I know time accelerates as the years pass by. I know that life is short. I know that every day is both a gift and an opportunity. And I know that it is never too late to change your life.

I like to think of every day as a clean sheet of paper. We may write whatever we like on it. We can write a letter to a friend, start a book or doodle on it just to pass the time. The page is ours to use however we wish.

Life is like that. Today is a new day. It's ours to use as we choose. But remember this: If we keep on doing what we've always done, we'll keep on getting what we've always gotten.

If you want to take your life to a higher level here are some tips you can use. Remember, it's never too late.

Going up, please

Don't worry about doing great things. Instead, stay focused on doing simple things in a great way. Do the routine things well, and you'll soon find you can step up to the next level.

Try to be somebody you're not. Yes, I know this is contrary advice to all the times you were told to "just be yourself." However, I wasn't happy with who I was and what I was doing. Since I wasn't immediately successful as a small business owner, I had to try and become something I wasn't: a success. I'm not a gifted speaker, I'm trying to become one. See yourself as you wish to be and become what you're not.

Keep moving. The rudder won't steer the ship unless the ship is moving. Whether you're trying to advance your career, build your business or acquire a new skill, you've got to keep working toward your goal. Keep moving. Will Rogers said, "Even if you're on the right track, you'll get run over if you don't keep moving."

There's no future in the past. Our family has some great memories, but my future will not be changed by dwelling on the past — good or bad. Cast off the anchors of failure, regret, and mistakes and sail out into fresh, clear waters.

Develop a selective memory. Remember everyone's name. Remember the kind actions of others. Remember who you are and what you stand for. Forget all wrongs and injustices. Forget all unkind words. Forget and forgive.

You'll never get more out than you put in. No, this one has nothing to do with your social security account. I'm talking about your success in life. Whatever you do, give it your all. Expect to reap as you sow. When you put your best effort into your job you can expect to get great rewards. You can't do everything, but whatever you choose to do, do it with all your heart.

Take the lead. When you follow someone else you're always behind. Step out in front. Take charge. You can set the pace. The world is still seeking great leaders. If you're ever going to be a leader you have to take the lead.

There are no one-time decisions. You cannot lose weight by deciding one time to go on a diet. Every day you must decide to eat right and exercise effectively. It is the same in all areas of your life. Every day you must decide to be more successful. Each day your decisions will get easier as you near your goals. Keep deciding to do the right things.

Don Taylor is the co-author of *Up Against the Wal-Mart's*. You may write to him in care of *Minding Your Own Business*, PO Box 67, Amarillo, TX 79105.

Architect honored for Navy Base work

When Lois Vitt Sale began working for Wight & Company five years ago, she never dreamed she would design a nationally recognized building. However, her talents have exceeded her dreams, and at a White House ceremony she received a national award for designing the new Bachelor Enlisted Quarters (BEQ) complex at the Great Lakes Naval Training Center (GLNCTC). Sale and Navy representatives received the White House Closing the Circle award from Vice President Al Gore.

"The project at Great Lakes naval training Center is a tremendous accomplishment for our firm but mostly for Lois. We are very proud of her and this outstanding achievement," said Mark T. Wight, President and CEO of Wight & Company. "Working with our partners, McHugh Construction and the Navy was a true pleasure and now to be nationally recognized together is an extreme honor."

Built to be a "sustainable showcase," the BEQ is one of the first LEED™ certified buildings in the United States. LEED™ (Leadership in Energy and Environment Design) is an assessment tool to evaluate the overall environment performance of existing and new high-rise residential, institutional and commercial buildings. Buildings that assimilate significant environmental principles into their design, such as energy efficiency, create healthy interiors and seek to minimize their negative impact on the environment can be LEED™ certified.

The BEQ is one of 16 projects to be recognized by the White House in its presentation of "Closing the Circle" Awards. These awards recognize efforts made by governmental agencies to promote environmental issues and range from education initiatives to built projects that embrace the tenets of green design.

"I'm completely thrilled to be a part of this project and to be attending this award presentation for two reasons," Sale said. "First, be-

The \$65.6 million dollar BEQ consists of nine buildings on two neighboring sites. It houses 2,242 sailors in 365,000-square-feet of living space. The Bachelor Enlisted Quarters is part of the Navy's expansion program at Great Lakes Naval Training Center following the closing of boot camps in Orlando and San Diego. — Submitted photo

cause these awards represent that fact that government is making protection of the environment a priority. By underwriting environment initiatives, the administration is recognizing a grass roots effort that began in the '60s and '70s and is now finally becoming a marketplace for green design and so will help to ensure that it is here to stay.

"The second reason I'm happy about this recognition," Sale continued, "is because this

award is to the BEQ Project Team. The word 'team' is reflected in the success of this project. The Navy initiated the desire for the project to be sustainable, the design team provided the 'how to,' and McHugh Construction carried out those sustainable goals. Sustainable design works best when the owners, the designers and the contractors work together to achieve com-

Secretary of State's business services available online

Secretary of State Jessie White reports that the public can obtain information about corporations and becoming incorporated online at the Secretary of State's web site, www.sos.state.il.us.

By clicking on the service to business icon, individuals can find the name availability of a corporation, the date when a company was incorporated, the state that company is registered in, the president's name and address, the secretary's name and the registered agent's name and address. The service also is available for limited liability corporations.

"I am excited about this new service," said White. "It helps Illinois companies and individuals access the material they need. This is just one more way that we are moving this office into the 21st century."

At the site, there is also information on how to incorporate and the forms for doing so can be accessed and printed. Then the individual can fill them out and send them in. The service is free.

As of May, there were 380,888 companies registered with the state.

Trammell Crow completes leases

Rick R. Delisle, Vice President of Trammell Crow Co. has completed three industrial leases in the Lake County totaling 60,884 square feet.

Eagle Test Systems recently leased a 24,237 square foot facility located at 620 South Butterfield Road in Mundelein. Rose Cabinets Inc. leased 24,000-square-foot of space within a 50,000-square-foot facility at 408 Washington Blvd. in Mundelein. Wadsworth Pumps Inc. of Arlington Heights leased a 12,647 square foot industrial facility at 400 Bonner Road in Wauconda.

Principle Construction builds Libertyville's Peterson Center

James A. Brucato and Mark E. Augustyn, owners of Principle Construction Corp., have announced that the design/build firm has completed Libertyville Peterson Center for DKD Properties in Libertyville.

Located at 1800 Peterson Rd., the 12,000-square-foot multi-tenant office/warehouse facility can accommodate up to six tenants. Currently, Lawrence Sewer & Water and North Shore sign have each committed to 2,000 square feet.

"Coordinating the demolition of Lawrence Sewer & Water's existing building on the site and relocating its operations around the new construction without interrupting their daily business was one of the many challenges we were able to successfully manage," said Augustyn.

Features of this building include a clear span structure, a 20,000-square-foot screened and fenced outdoor storage area, 18-foot clear ceiling heights, one drive-in door per tenant, HVAC

with infrared heat and full sprinkler system.

In designing the facility, Principle was able to maximize the site and integrate the existing wetlands into the site plan without the need for mitigation. Additionally, should the need arise, the building has expansion capabilities of to 24,000 square feet—double its current size.

According to Augustyn, "a lasting impression for anyone who visits this facility will be the unique integration of new landscaping with the numerous existing mature trees on the property. The impact of these mature maples and pine affords this building a street appeal that is unparalleled."

Daniel K. Bleck Architects provided architectural services.

Headquartered in Bannockburn, Principle Construction Corp. is a design/build general contractor specializing in the design and construction of commercial and industrial facilities.

Asphalt plants consolidated

Five hot-mix asphalt manufacturing plants in northern Illinois now operate under the name Curran Contracting Co. The name change reflects uniform operational standards shared among the facilities in Grayslake, Lake Bluff, Crystal Lake, DeKalb and McHenry.

"We wanted to first focus on meshing the individual quality operations into one quality network," explained Rick Noe, president of the family-owned company. "We also wanted to be certain we were capitalizing on each plant's strongest points before incorporating a common identity."

As a result, Curran Contracting now operates all five high-capacity facilities under uni-

form and consistent standards and production systems. Curran has also extended those standards to its highly qualified in-field paving crews. The company can now respond to infrastructure needs in a significantly wider area without compromising integrity.

"Having all five facilities operate under the unified name of Curran Contracting means we are now strategically positioned to provide maximum service on projects in northern Illinois," Noe stated. "We're confident we can continue to provide the high quality product and service public officials and private industry have come to expect from Curran since it was founded in the 1930s."

'Having all five facilities operate under the unified name means we are now positioned to provide maximum service'

BUSINESS DIGEST

Estate planning seminar scheduled

Roch Tranel, CFP, and President of The Tranel Financial Group through Money Concepts Capital Corp. in Libertyville, along with John Foley, CPA, Attorney At Law, are presenting a seminar entitled "Estate Planning and The Living Trust." The seminar will be held from 6:30-7:30 p.m. on July 26, at the Best Western Hitch-Inn Post, 1765 N. Milwaukee Avenue, in Libertyville. The seminar is free of charge and there will be no selling. For information or to reserve a seat, call 680-9050 or e-mail your reservation to rtranel@moneyconcepts.com or to a web page at www.moneyconcepts.com/rtranel.

Pace creates training program

Pace, the suburban transit agency, has partnered with South Suburban College to create an extensive training program for bus mechanics in the Chicago area. Individuals looking for a new career and wanting to get involved in the transportation field are sought. The bus mechanic program, which can be completed in 1 1/2 to 2 years, will be taught at Pace's Maintenance and Technical Services Facility in South Holland. In addition to classroom theory, students spend much of their time in hands-on repair of buses. The classes are open to the public, and area bus companies can send employees for initial and upgrade training. Students may qualify for financial assistance. For information on classes, call Karen Johnson at the college at (708) 210-5763.

RE/MAX reports record commercial property sales

RE/MAX of Northern Illinois Inc., reports that its closed sales volume of commercial properties reached a record level through the first four months of the year, with sales totaling \$118 million. That is a 13.2 percent increase from the sales total for the comparable period in 1999 when RE/MAX commercial sales totaled \$104 million. Recently, the RE/MAX organization has put a new emphasis on building its presence in commercial real estate. In 1999 RE/MAX of Northern Illinois handled 1,343 commercial transactions valued at \$324 million. That represented an increase of 27.7 percent from the total regional commercial sales volume of \$253 million that the network achieved in 1998.

Arthur J. Rogers & Co. reports four transactions

Arthur J. Rogers & Co., a partner of The CORE Network, has completed two transactions in Lake County. The announcement was made by William G. Schmitz, RPA, President and Chief Executive Officer of the firm.

At Rogers Executive Parke, 50 Lakeview Parkway in Vernon Hills, TDS Metro Com, a telecommunication services carrier, will occupy 11,600 square feet. Richard Prosser, MCRS, and Martin Kennelly, SIOR, MCRS, of Arthur J. Rogers & Co. worked on behalf of both parties.

In a renewal agreement, Martens & Associates Ltd., signed a lease of 3,492 square feet at Rogers Centre for Commerce, 1637 Barclay Boulevard, Buffalo Grove. Ann Manns-Ezzo, CCIM of Arthur J. Rogers & Co., represented both building ownership and the automotive design engineering firm.

PowerNow! keeping the power on in Lake County

Severe storms, strong winds and flooding in the upper Midwest has increased the demand for PowerNow! personal emergency standby power systems and prompted the company to expand its sales territory. The generators, fueled by natural gas, are now available in Lake County. The PowerNow! generators range in size from 8kW to 40kW. This turnkey power system includes site preparation, generator installation, gas piping, installation of all electrical components, generator start-up and testing, a one-year warranty and first-year preventive maintenance. More information on PowerNow! is available by calling 1 (800) 686-3637, or log on to the web site at www.power-now.com.

Kiferbaum Construction to build Abbott's new Libertyville facility

Jacob Kiferbaum, president of Kiferbaum Construction Corp. has announced that the firm has been selected design/build general contractor for Abbott Laboratories' new 242,000-square-foot facility in Libertyville. The firm is expanding from its existing complex in Waukegan, where they develop medical technology products.

According to Alan Zocher, senior project manager of Kiferbaum, the warehouse and distribution facility will feature two drive-in doors, ESFR fire-sprinkler system, a 6,000-square-foot office and a 1,500-square-foot quality assurance lab. The total planned headcount in the new Libertyville facility will be used primarily to warehouse commodities. The quality assurance lab

area will be used to test incoming commodities to insure they meet Abbott's rigid specifications before being assigned to production.

Kiferbaum's superintendent, Tom McNett, will be responsible for the on-site construction of Abbott Laboratories. Dobrin+Associates is the architect for the project. Prime Group Realty Trust is the owner/developer of the building. The real estate transaction, on behalf of Prime Group, was represented by C.L. Bothof and Larry Much of NAI Hiffman. The broker representing Abbott Laboratories was Alain Lecoque of Equis Corp. Completion is scheduled for July.

Kiferbaum Construction Corp. offers full-service design/build and build-to-suit construction services.

Kiferbaum breaks ground

Ground has been broken for the new 50,508-square-foot office building at 2000 Millbrook Dr. in the Millbrook Business Center in Lincolnshire. Millbrook Properties is the owner/developer of the project. This marks the third building to be constructed by Kiferbaum for Millbrook Properties, within the 70-acre business complex, in the past two years.

Mark Weir from Millbrook Properties commented, "Our 2000 Millbrook Drive building will compliment our existing five-story, class 'A' office building and one-story flex building, providing efficient and economical office space in a unique setting."

Trudy Calef, Village of Lincolnshire Trustee, added, "Millbrook is and continues to

be a good neighbor. We are pleased they have chosen to construct yet another investment in our community."

According to Adam Miller, Project Manager of Kiferbaum, the two-story facility will feature precast canopies and glass curtain wall entries, upgraded finishes and porcelain tile in the lobby, maple wood paneling and architectural lighting features. The new building will offer roof top units with multi-zone VAV controls for future tenant work. Avi Zamir, Project Engineer of Kiferbaum, also indicated that the facility will include crushed granite stone pedestrian walkways with an exterior concrete patio encircled with benches and an attractive lush landscape to be consistent with the rest of the Millbrook Business Center.

NEW BUSINESSES

The following are new businesses located in Lake County.

ARCHITECT

mon goals. This project succeeded in doing just that."

The \$65.6 million dollar BEQ consist of nine buildings on two neighboring sites. It houses 2,242 sailors in 365,000-square-feet of living space. The BEQ is part of the Navy's expansion program at Great Lakes following the closing of boot camps in Orlando and San Diego. All Navy recruits—more than 55,000, in total—pass through GLNTC each year. Wight & Co. served as the lead design firm for the Naval BEQ while James McHugh Construction of Chicago headed the overall team.

Designing the BEQ was particularly challenging for Wight & Company and their design associate, The Steinberg Group from San Jose, Calif. The team was faced with creating a building aesthetically compatible with the Great Lakes early 20th century, red brick architectural style, while at the same time meeting stringent Navy requirements as well as LEED™ criteria. "The design and construction process for all nine buildings was completed in two years with zero change orders. This was a project where we didn't want to give up anything."

"We were committed to meeting a budget and creating beautiful buildings that were energy efficient, durable and environmentally friendly," stated Sale.

Wight & Company is among the largest architectural engineering firms in the region.

Dr. doesn't think all distractible behavior is ADD

Hi Dr. Singer,

We have been reading your column for a long time and have read about distractibility and ADD/ADHD a lot. It seems to us that you believe that distractibility can be caused by other things than ADD/ADHD. Do you? S.Z.

Dear S.Z.,

You have read my columns right! I believe the term ADD/ADHD is used as a catchall to describe any and all distractibility. The problem is that distractible behavior can be caused by lots of things.

First, though, you have to separate what ADD/ADHD is from what other kinds of distractibility are. ADD/ADHD is a term used by the medical and psychological communities to describe excessive distractibility. They present it as a medical disorder. I have always believed that distractibility existed in kids, but have always hesitated to label it a permanent medical disorder. I believe that the diagnosis of ADD/ADHD is significantly overused and over-diagnosed in our society. I heard a quote on the radio the other day estimating that 50 percent of kids are being prescribed Ritalin or some other form of medication for ADD. Now, granted, I cannot confirm or deny that this figure is correct across the board, however, from the number of parents I hear from who have had medication recommended and are refusing it, I can believe those numbers.

Additionally, I have heard every form of behavior blamed on ADD/ADHD. Everything from lying, stealing, defiance and nose-picking. There are many behaviors that exist that are strictly behavior problems and have nothing whatsoever to do with distractibility at all. Many behaviors have more to do with a severe lack of limits and discipline. Once limits and discipline are on track it's amazing how

PARENT'S PLACE

Dr. Sherri Singer

fast all of these kinds of behaviors disappear.

Here is what I think is occurring: I believe that real biological distractibility does exist in some kids. I believe it exists in about 1-3 percent of the population. That means out of a classroom of 100, 1-3 kids may have it. The rest of what I have seen is distractibility based on other issues. Lack of processing speed, auditory or visual processing problems, memory problems, problems with handling multiple levels of information at once, behavioral issues—never having had the right limits and using that behavior to get out of school work—the need for attention from adults or kids, an out-of-control classroom with no punishment for out-of-control behavior, an out of control home situation. All of these things can produce symptoms that present as distractibility. I am not a Medical Doctor and do not prescribe medication, but I do successfully treat all of the above mentioned issues to the point that distractibility in my patients is reduced significantly if not completely.

I think that the first sign of distractibility is seen by a teacher and then recommendations are made fast for medical evaluation for ADD/ADHD. Many teachers are not aware of the fact that there is also processing-based distractibility which is learned and practiced through bad habits and can be trained to get better through specific remediation of those habits. The problem is that the child who is

distractible usually never gets the chance to actually learn to deal with the distractibility.

If the child is dealing with processing-based distractibility, this is the exact wrong thing to do for that child. Of course, any logical adult understands why a teacher needs to stop any acting-out behavior as soon as possible for the sake of all of his/her students, so what I am suggesting here is improving the child's issue privately. Not during class time. The plain truth is, a child who is dealing with processing-based distractibility needs practice to learn to shut out the distractions or ignore the distractions rather than to be made used to a perfect unchanging situation.

If a child learns to work well in a perfect situation, at some point, he will need to work in an imperfect situation and will experience failure in the imperfect situation because he has never had the chance to practice in that imperfect situation. Rarely does life give us a perfect, non-distracting environment. Kids need to be trained as young as possible how to survive and deal with a difficult situation or a distracting situation and still stay on task.

Children have to learn to work in an imperfect world. One that has distractions and isn't completely blocking out stimuli. This training significantly improves on-task behavior. It can be done. This is done through gently exposing the child to increasing amounts of distraction so that they can safely incorporate the things they need to do to ignore it and keep working. They learn how to attend through habit.

If a child does not improve completely (most have more improvements than not) you can be more sure of the fact that it might be biological and feel better about pursuing

Exercise possible during pregnancy

Dear Dr. Donohue: I am 26 years old. I am also pregnant for the first time. I have been running since I was 13 years old. I want to continue during my pregnancy. Friends tell me not to. Is it dangerous? Will it hurt the unborn baby?—L.C.

Answer: A pregnant woman should not become overheated during her exercise. On very hot days, it is better to forgo exercise. Pregnant women should drink copious amounts of water during exercise. Dehydration can cause trouble.

During pregnancy, women should not exercise lying with their backs on the floor. An enlarging uterus obstructs blood flow from legs back to the heart. If weight lifting is part of the program, lift light weights with a moderate number of repetitions.

Joints are lax during pregnancy. A woman must be extra-careful about running surfaces to avoid muscle strains and joint sprains. If a woman has not been a regular exerciser before pregnancy, she should confine herself to walking during the pregnancy.

All of the above presupposes that the doctor has given a pregnant woman the green light to exercise.

Dear Dr. Donohue: I have a teenage son who has started to box. Our neighbor was a professional boxer and he has recruited the neighborhood boys into a boxing program. The thought of my son getting hit in the head does not make me happy. Your thoughts, please.—G.C.

Answer: I admire boxer's

TO YOUR HEALTH

Paul G. Donohue,
M.D.

agility and courage. However, I have become leery of the potential danger to boxers. A professional boxer can deliver a blow of 0.63 tones in 100 milliseconds. That's an enormous force in the blink of an eye.

If the head sustains such force, the brain suffers.

Later in life, many boxers demonstrate memory impairment, an inability to concentrate and a deficit in processing new information. I am going to hear about this from boxing fans.

I would let my boy box if head blows were outlawed.

Dr. Donohue: Over the years, we have noticed that no writer on physical fitness ever mentions folk dancing. Our experience in teaching seniors folk dancing shows that it improves their balance, strength and endurance.—M. & M.K.

Answer: You get no argument from me.

Dancing, folk or otherwise, is genuine exercise. It fits all the criteria or aerobic exercise, the kind of exercise that benefits the heart and circulation. Large muscles—in the legs and sometimes in the arms—move continuously.

Readers can write to Dr. Donohue at P.O. Box 536475, Orlando, FL 32853-6475.

the medical route. This way, it becomes a rule-out thing. It's a real way to test it. I just like the idea that the child learns that his own strength and skill is what is helping him get better. It is a real powerful thing to watch and it works every time.

I feel very lucky because I get to spend every day showing kids that the right kind of work and training is what makes them better. That they themselves make them better and not some outside source. That they have that self-control. Please, parents, be aware that some kids have a lot of energy and some kids cannot process enough things at once to be able to stay on task and some kids are looking for attention. By tackling the root causes of a child's attention and behavior problems—rather than masking the symptoms—parents can help their children begin to experience positive changes in their lives. Many forms of

distractibility can be fixed without medication. Please, for their sake, understand that there may be another way. For the kid's creativity, spontaneity and future, I look forward to hearing from you.

Note: The intention of this column is to promote better observation, differential diagnosis and certainty about origin of distractibility prior to determination of treatment. No one should ever remove a child from medication or start a child on a medication without the close personal supervision of a physician.

Dr. Sherri Singer is a Licensed Clinical Psychologist and Childhood Behavior Specialist. She regularly works in person with many readers of this column. For an appointment or to purchase either of Dr. Singer's books, please call (847) 577-8832 or (708) 962-2549.

Mammogram: \$49

All month, by appointment

Shop for your health! Visit our Gurnee Mills location and have your mammogram performed by a caring and conscientious imaging specialist. The \$49 cost includes interpretation of your mammogram by a Board-certified radiologist. Results will be sent to your physician. Weekday and weekend appointments are available. For more information, or to schedule an appointment, please call 847/856-1220.

Nutritional Counseling Service:

All month, by appointment

A doctor of holistic nutrition who specializes in complementary nutritional therapy is available for in-person or telephone consultation. This a personalized service for anyone who wants to learn more about the role of nutrition in disease prevention, treatment or recovery. From cancer prevention to weight control, your individualized, scientifically based program will promote optimal health and benefit for the whole family. For details regarding our nutritional services, or to schedule an appointment, please call 847/856-1220.

Free Assessment: Breast Cancer Risk Assessment

All month

Let a staff member at Cancer Resource Center help you determine your risk of developing breast cancer. Just answer a few short questions and a computer generated assessment tool will estimate your breast cancer risk over the next five years and during your lifetime. Please note that this assessment is for information purposes only and should not replace routine mammograms or regular clinical breast exams. For more information, please call 847/856-1220.

Free Screening: Colorectal Cancer Home Test

Tuesday, July 1110:00 a.m. - 12 noon

Colorectal cancer is one of the most frequently diagnosed cancers affecting men and women over age 40. One of the early warning signs, hidden blood in the stool, may be detected by using a simple do-at-home test. Visit the Cancer Resource Center during the above hours and receive your free kit with instructions for use. To reserve a colorectal home test, please call 847/856-1220

Free Health Talk: Diet Dilemmas...So Much From Which to Choose...So Much to Lose

Thursday, July 207:00 - 8:00 p.m.

In the world of weight reduction, there are so many programs and products that promise miracles. But are they safe and sensible? This timely presentation will discuss the pros and cons of various regimens and help you to decide what may be right for you. Call 847/856-1220 to register.

Relax! With Reflexology by Relaxus

Monday, July 2410:00 a.m. - 1:00 p.m.

Reflexology is an age old holistic healing technique that works to balance all body systems by stimulating underactive areas and calming overactive areas. Utilizing a team approach, Bill and Kay Furlong, certified reflexologists, work together applying specific pressure techniques using the thumb, fingers and hand on the reflexes of the feet and hands. Treat yourself to a 15 minute introductory session for just \$20. Space is limited. Please call 847/856-1220 to reserve an appointment time.

Free Screening: Blood Pressure

Saturday, July 2910:00 a.m. - 12 noon

Interior decorating trends for the millennium

As baby boomers growing up with the popular animated television show "The Jetsons," many of us naturally imagined that 21st century homes would be much like George and Jane Jetson's Skypad apartment: sterile, glass-enclosed space modules with metallic hues, angular furniture and a full cadre of technological enhancements.

Microwaves, computers and DVD players aside, that perception - according to leading interior design specialists across the country - couldn't be further from the truth.

"As our daily lives become increasingly complicated, it will be more important than ever that our homes be warm, nurturing 'cocooning' areas rather than sterile designer showplaces," explained Philadelphia high-end residential designer Marcello Luzi, ASID. "The main trend for interior design in the new millennium will be to keep things simple, clean and uncluttered, by incorporating functional design elements that soothe mind, body and spirit."

Such predictions come as nothing new to Hopkins, Minnesota-based Environmental Graphics, whose wall murals are fulfilling consumers' desires to incorporate the ancient Chinese practice of feng shui into their interior design.

"Murals create a balance of color and texture, and help to bring the outdoors in," says Elizabeth Moran, co-author of the best-selling book *The Complete Idiot's Guide to Feng-Shui*. "Wall murals complement the art if feng

shui by helping to make one's home a harmonious haven. With harmony comes the likelihood of better health, wealth and relationships."

"A wall without adornments can make one feel boxed in and insecure. When decorating your walls, make sure the area is not cluttered. Choose a piece that is proportionate to the space. It must be pleasing to the eye," advises Moran.

Environmental Graphics' easy-to-install murals are available in 24 unique, photographic and art, designs that reflect nature, outer space and sporting events. Environmentally inspired designs include Clouds, Morning Forest, Lake in the Woods and Storybook Hollow, as well as the popular Oriental Garden mural which reflects calming and positive-energy-generating feng shui elements.

For a full-color brochure that includes wall mural designs and local dealer information, call toll-free (888)205-0914. To purchase wall murals, visit your local home center or paint and wallcovering retailer or visit their Web site for a list of dealers www.egproducts.com.

For more information about feng-shui, visit www.aafengshui.com. The Complete Idiot's Guide to Feng Shui can be purchased at bookstores nationwide or at www.amazon.com.

Oriental Garden Mural by Environmental Graphics creates positive-energy-generating feng shui elements.

Saving existing elms—Illinois inject trees with fungicide

Dutch elm disease (DED) can be controlled! A successful injection technique introduced twenty-five years ago by Elm Research Institute, a non-profit organization based in Westmoreland, New Hampshire can help you save your towering elms.

In a survey conducted by the Institute on over 8,000 healthy elms, preventively injected over a ten year period with E.P.A. approved Elm Fungicide, the result was an astounding 96% success rate.

Gary Jacobs from Oak Park, a new member of ERI, injected his tree earlier this week. They learned about the injection process from their local newspaper. "We love that tree, we lost the one next to it and we were thunderstruck. If we lost this one it would change the complete look of our house and the ones around it," Gary adds "We get a lot of pleasure from the tree. We live in an urban area and because of that tree, it feels like a forest." Gary's tree is 11 feet in circumference and over 40 feet high. It qualifies for ERI's Historic Elm Program. Any tree 10 feet or more in circumference and healthy qualifies for treatment for 1 year at 1/2 price.

Arborists, mayors, tree wardens, groundskeeper, but mostly groups of volunteers calling themselves "Conscientious Injectors" are responsible for injecting Elm Fungicide into thousands of elms from Connecticut to Oregon. These "Conscientious Injectors" groups have kept careful records of their injection programs and it is their data that is submitted to ERI for analysis.

"The sixty trees on my block, which I have injected for fifteen years, look like a beautiful green oasis," comments a Conscientious Injector in Michigan. Surrounding communities which do not have injection programs have lost most of their elms to D.E.D. The treatment is 54% effective on diseased trees if the tree is treated at the first sign of D.E.D.

"You'll wound the tree or cause rotting we were told. Now at 25 years later and we haven't lost a single elm due to wounding or rot. We have thousands of healthy elms...trees which otherwise would have been stumps by now. With the help of Conscientious Injectors, these

trees are being preserved for future generations to cherish and enjoy," said John P. Hansel, Executive Director of the Institute.

It is less than dinner and a movie to save these trees. Cost, for ERI members, \$70 to treat an 8 ft. circumference tree — includes Elm Fungicide and injection equipment.

ERI sponsored research to save the American elm, which was threatened with extinction. By selecting American elm parent trees from the Cornell screening, researchers used trees to conduct controlled pollinations during the 1960s. The survivors withstood many years in situation of severe disease and elm bark beetle pressure along with repeated inoculations of the fungus into the vascular system. The process was repeated for five successive years. Only those that survived and remained symptomless were declared resistant. The American Liberty elm is the product of this intense research.

In 1983, ERI released the first trees to the public. It is the only native American elm that is street proven and comes with a ten warranty against Dutch elm disease. Each tree is tagged, numbered and entered on ERI's tracking data base. Since then, over a quarter of a million elms have been planted in more than 750 communities in 45 states. So far 60 trees have been lost to Dutch elm disease; a success rate of 99.98%.

The American Liberty elm retains the American elm's classic vase-like shape and grows to 100 ft. with a 60 ft. canopy. It grows well in urban conditions; withstanding drought, salt and pollution. Liberty elms will grow in situations in which most species cannot. They grow rapidly, in fact, some trees have reached 25 ft. in 7 years. To insure high resistance, Liberty elms are meticulously cloned from the original parent stock, not grown from seed.

The American Liberty elm is available only from Johnny Elmseed Regional Nurseries or directly from ERI. For more information about the American Liberty elm and ERI planting programs, contact Elm Research Institute, Elm St., P.O. Box 150, Westmoreland, N.H. 03467, phone 603-358-6198.

A Funeral Home Serving All Your Needs Over 50 Years of Caring, Dignified Service

Family Owned and Staffed • Traditional Services • Available 24 Hours A Day
Serving Mc Henry & Lake Counties • Pre-Planning • Cremation Services

Remember When People Tried Harder?

Because we have served families in our area for many years, we have never forgotten the way service used to be... when people gave that extra effort, and when service went far beyond the expected.

We are committed to continuing that same philosophy of service — because some things should never change.

Call for a free brochure on all our services and the history of our family firm.

Leone Mae Schwery

Age 80 of Waukegan, passed away Thursday, June 29, 2000 at St. Luke Medical Center, Milwaukee, Wis. She was born Sept. 4, 1919 in Lake Villa, the daughter of the late Leo and Anna (Smith) Buchta and has lived all of her life in Lake County. Leone was a member of The United Methodist Church of Waukegan and was a volunteer at Victory Memorial Hospital for over 30 years. On May 23, 1942 she married Ralph Schwery in Waukegan.

Survivors include her daughter, Kendall (David) Kellett of Australia; two grandchildren, Jennifer Dahl and Bradshaw Kellett; two brothers, Irving (Nancy) Buchta of Antioch and Kenneth (Dolores) Buchta of Phoenix, Ariz.; two sisters, Florence Tarnowske of Kenosha, Wis. and Helen Modlin of Waukegan. She is preceded in death by her husband, Ralph; one brother, Leo Buchta and one sister, Barbara Jecovicus.

Memorial Funeral Services were held at the Strang Funeral Home of Antioch with the Rev. Gary L. Curl of the United Methodist Church of Antioch officiating.

Interment was private.

In lieu of flowers donations may be made to the Antioch Rescue Squad in her memory.

Joseph W. Mooney

Age 67, passed away Thursday, June 29, 2000 at Provena St. Therese Hospital in Waukegan. Born in Proctor, Joe resided in Wildwood for the past 27 years. A veteran of the Korean Conflict and a member of St. Gilberts Church. Joe was very devoted to his grandchildren.

He is survived by his wife of 39 years, Joan; his children, Edward T. (Constance) Mooney of Dundee and Mary Elizabeth Mooney of Phoenix, Ariz.; his grandchildren, Tiffany, Bridget, Derek and Logan; and by many nieces, nephews and loving friends and relatives. Joe is preceded in death by his parents and by his brothers and sisters.

Funeral Services were held at Strang Funeral Chapel and Crematorium, Ltd., Grayslake.

Interment was at Ascension Cemetery in Libertyville.

Frances A. Kupec (nee Zimmerman)

Age 81, a Fox Lake resident for the past 46 years, formerly of Chicago, died on Tuesday, June 27 at Lake Forest Hospital. She was born in Chicago on July 11, 1918 to Walter and Emma Zimmerman (nee Morris). She was a homemaker and an excellent seamstress who was well known in the area for her abilities; and was a member of the Quilting Queens in Ingleside; and a member of the Lutheran Church of All Saints in Fox Lake.

She is survived by her husband, James Kupec with whom she had been united in marriage to for over 42 years; her daughters, Madelyn Brace, Antioch and Nancy DiLabio of Lake Villa; by her grandson, Dean Vocke of Arizona; her grand daughters, Candace Anderson of Cincinnati, Ohio, Pamela (Gary) Duff of Missouri, Christine Anderson of Fox Lake and Dawn (DeWayne) Davis of Lake Villa; four great grandsons, five great grand daughters and other relatives. She is preceded in death by her sister, Mildred Rothlubber.

Funeral Services were held at the **K. K. Hamsher Funeral Home, Fox Lake (In the Chapel on the Lake)**, with Pastor Nathan Anderson of Lutheran Church of All Saints officiating.

Interment was at Avon Cemetery, Lake Villa.

Martha E. Montiel (nee Michniewicz)

Age 62, a summer and permanent resident of Fox Lake for the past 35 years and a former resident of Chicago, died on June 28, 2000 at the Lutheran General Hospital in Park Ridge. She was born in Georgia on Nov. 2, 1937.

Survivors include her children, Fayne (Barbara) Mathis of Georgia, Nathan (Kay) Kilgore of Tennessee, Edward (Ruth) Michniewicz of Fox Lake, Richard (Michniewicz) of Spring Grove, Derek (Melissa) Michniewicz of Fox Lake, Sandra (Santiago) Martinez of Ingleside, Barbara Michniewicz of Downers Grove, Sheila (Chet) Utz of Kentucky, and Gloria (Mario) Blanquel of Round Lake; her grandchildren, Edward and Alex Tregenza, Sonia Martinez, Christie, William and Nick Kilgore, Paul, Frank and Brittany Schneider, Eddie and Joey Michniewicz, Adyson and Rose Michniewicz, Candace, Clara and Chyann Utz, George, Jessica and Mariah Michniewicz, Alexandra and Eric Blanquel; by her two great grandchildren, Kristian Tregenza and Austin Schneider; by a sister, Mary; and other relatives. She is preceded in death by her husband, Robert Montiel in 1988.

Funeral Services were conducted at the **K. K. Hamsher Funeral Home, Fox Lake (In the Chapel on the Lake)**. Interment was private.

Irene Kolodziejczak (nee Czerak)

Age 74, a Spring Grove resident for the past 28 years, formerly of Chicago, died Monday, June 26, 2000 at home. She was born in Chicago on July 6, 1925 to Valentine and Katherine (nee Panek) Czerak and had been a housewife and mother in her home for most of her life. She was a member of St. Peter's Catholic Church in Spring Grove.

Survivors include, one son, Timothy (Mary Ann) Kolodziejczak of Fox Lake; one daughter, Diane (Joseph) Zurawski of Spring Grove with whom she made her home; 10 grandchildren; 11 great grandchildren and other relatives. She is preceded in death by her husband, Walter S. Kolodziejczak with whom she was united in marriage on July 23, 1940 at St. Stanislaus Catholic Church in Chicago. The couple had celebrated over 59 years of marriage at the time of Walter's death on March 6, 2000. She is also preceded in death by a son, Walter Kolodziejczak Jr. in 1979 and by her

brothers and sisters.

Friends and family visited at the **K. K. Hamsher Funeral Home, Fox Lake (In the Chapel on the Lake)**.

A Catholic Funeral Mass was celebrated at St. Peter's Catholic Church, Spring Grove.

Interment followed at St. John the Baptist Catholic Church Cemetery in Johnsburg.

Robert John Davis

Age 45 of Round Lake Park, died Saturday, July 1, 2000 at his home. He was born Feb. 17, 1955 in Chicago to Benjamin and Mary (nee Nelson) Davis, Sr. Formerly of Chicago, he lived in Round Lake Heights for 14 years, moving to Round Lake Park in 1982. Starting out as a painter, he moved into the interior decorating field. He painted many churches and cathedrals in the Midwest area. His greatest accomplishment, was being asked to be part of the design team for the Oriental Theatre in Chicago. He was a member of the Painter's Local 275 Union. An avid fisherman, he also enjoyed golfing.

He is survived by his parents, Benjamin and Mary (nee Nelson) Davis, Sr. of Round Lake Park; a sister, Doreen (Dean) Hanson of Round Lake Park; four brothers, Steve (Judy) Davis of Round Lake, Benjamin Davis Jr. of Round Lake, Russell (Laurie) Davis of Round Lake and Donald (Lilia) Davis of Round Lake; and his godmother, Bernice Berkenstock of Barrington.

No services were scheduled.

Interment was private for the family.

Arrangements were entrusted to Justen's Round Lake Funeral Home, Round Lake.

Stephan B. Lindsay

Age 25 of Lake Villa, passed away suddenly on Thursday, June 29, 2000 in Milwaukee, Wis., the results of a motorcycle accident. He was born in Waukegan on Dec. 4, 1974, the son of Kathy and Robert Lindsay. He was a graduate of Antioch High School and was employed by Hollister Corp. of Libertyville. He enjoyed boating, motorcycling and many outdoor activities. He looked forward to fulfilling his dream of owning a restaurant.

He is survived by his parents, Kathy and Robert Lindsay of Lake Villa and his brothers, Christopher (Jessica) of Goshen, Ohio, Michael of Vernon Hills and Justin of Lake Villa. Also surviving is his maternal grandmother, Louise Mucibabich; niece and nephew, Jeffrey and Anastasia. He is preceded in death by his maternal grandfather, Michael Mucibabich and paternal grandparents, John and Mary (nee Baldwin) Lindsay.

Funeral Services were held at St. Sava Monastery, Libertyville.

Interment was at St. Sava Monastery Cemetery, Libertyville.

Prayer Services and visitation was held at Ringa Funeral Home, Lake Villa

Frank M. Cyman

Age 70 of Lake Villa, passed away at home on Friday, June 30, 2000. He was born in Chicago on July 9, 1929, the son of the late Frank and Elizabeth Cyman. He was a member of Prince of Peace Catholic Church in Lake Villa. He was a member of the fishing hall of fame. He enjoyed woodworking photography and loved music and had his own band. He took pleasure in many outdoor activities.

He is survived by his wife, Dolores. They were united in marriage on Sept. 13, 1947 and celebrated 53 years of marriage. Also surviving are his children LeNora (Dale) Norwood of Gurnee, Pamela (Steve) Colletti of Antioch and Cindy Bariamis of Lindenhurst; his grandchildren, Ken and Kevin (Kaisa) and Kimmy (Ken), Tommy and Stevie, and Julie and Ted; great grandchildren, Tabi, Jami, Cotti, Toni and Franki; and his sister, Mildred (Louis) Gill. He is preceded in death by a sister, Dorothy Balassa.

Funeral Services were held at Ringa Funeral Home, Lake Villa

ORDINANCE SETTING SCHEDULE OF REGULAR MEETINGS OF THE ROUND LAKE AREA PUBLIC LIBRARY DISTRICT, LAKE COUNTY, ILLINOIS FOR FISCAL YEAR 2000/2001

WHEREAS, the Illinois Open Meetings Statute, 5 ILCS 120/1, et seq., requires this Board to establish a schedule of regular meetings pursuant to said statute;

NOW, THEREFORE, BE IT ORDAINED by the Board of Library Trustees of the Round Lake Area Public Library District, Lake County, Illinois, as follows:

Section 1. Except as noted below and unless otherwise changed by this Board pursuant to said statute, all regular meetings of this Board shall be held at the Round Lake Area Public Library, 906 Hart Road, Round Lake, Illinois, at the hour of 7 p.m. This Board has previously adopted an Ordinance authorizing the use of telephone conferencing for meeting attendance, voting, and quorum requirements.

Section 2. The following is a schedule of the dates of regular meetings for fiscal year 2000/2001:

Wednesday, July 19, 2000 (to be held at the Round Lake Area Park District Community Center, 814 Hart Road, Round Lake - July Meeting Only)
Wednesday, August 16, 2000
Wednesday, September 20, 2000
Wednesday, October 18, 2000
Wednesday, November 15, 2000
Wednesday, December 20, 2000
Wednesday, January 17, 2001
Wednesday, February 21, 2001
Wednesday, March 21, 2001
Wednesday, April 18, 2001
Wednesday, May 16, 2001
Wednesday, June 20, 2001

Section 3. The Secretary of this Board shall provide a copy of this Ordinance to any media source requesting it. Any change in the regular meeting date or regular meeting location shall be pursuant to published notice in accordance with law. The Secretary shall post a copy of this Ordinance at the Public Library operated by the District and, to the extent possible, at the site of the meetings.

Section 4. This Ordinance shall be in full force and effect from and after its passage, approval, and posting as required by law.

PASSED by the Board of Library Trustees of the Round Lake Area Public Library District, Lake County, Illinois, on this 21st day of June, 2000, by a vote of:

AYES: Bruska, Heppner, Kauffman, Warner

NAYS: None

ABSENT: Gentes, Kehrner, Mitchell

FILE NUMBER: PZB00-03-R

PETITIONER: Christopher M. Lebling, Division Manager - Northeast
NEUMANN HOMES
4355 Weaver Parkway
Warrenville, IL 60555

OWNERS: Parcel 1: S&S Petroleum Co., by Bill and Peter Anest, c/o S&S Petroleum; 400 S. Curran, Grayslake, IL 60030
Parcel 2: Estate of the late Homer White; by Andrew C. Lynch, Executor

PROPERTY: Property is commonly known as the Anest property and the former Homer White farm, situated North of Miller Road, South of Illinois Route 173, East of the Eagle Ridge Subdivision, West of Timber Lake, (a.k.a. Pollock Lake); consists of approximately 634 Acres; and is identified on the Lake County Tax Parcel Maps as the following PIN's:

Parcel 1: 02-15-400-002-0021; 02-15-400-005-0021; 02-22-200-002-0021; 02-22-200-003-0021; 02-22-200-004-0010; 02-22-200-004-0011; 02-22-400-002-0021; 02-23-300-001-0021; 02-23-200-001-0021; 02-23-200-002-0021; 02-23-200-005-0021; 02-23-100-001-0021; 02-23-100-002-0021; 02-23-100-003-0021; 02-23-100-004-0021; 02-23-300-002-0010; 02-23-300-002-0011; 02-23-300-003-0010; 02-23-300-003-0011; 02-23-400-001-0021; 02-14-300-002-0010; and 02-14-300-002-0011.

The above referenced properties are legally described as follows:

Parcel 1: THE WEST HALF OF THE SOUTHEAST QUARTER OF SECTION 15, EXCEPT THE WEST 12 RODS OF THE NORTH 20 RODS THEREOF, ALSO THE SOUTHEAST QUARTER OF THE SOUTHEAST QUARTER OF SECTION 15, ALSO THE NORTHEAST QUARTER OF SECTION 22, EXCEPT THAT PART OF THE WEST HALF OF THE NORTHEAST QUARTER LYING SOUTHERLY OF THE SOUTHERLY LINE OF WHITE ROAD, ALSO THE NORTH 15 ACRES OF THE EAST HALF OF THE SOUTHEAST QUARTER OF SECTION 22, ALSO PART OF THE EAST HALF OF SECTION 23 DESCRIBED AS FOLLOWS: BEGINNING AT THE SOUTHWEST CORNER OF THE SOUTHEAST QUARTER OF SAID SECTION THENCE NORTH 89 DEGREES 53 MINUTES 40 SECONDS EAST ON THE SOUTHERLY LINE OF SAID SECTION, A DISTANCE OF 45 RODS (747.36 FEET MEASURED) TO THE EAST LINE OF THE WEST 45 RODS OF SAID QUARTER AS STAKED AND OCCUPIED, THENCE NORTH 0 DEGREES 08 MINUTES 11 SECONDS EAST ON SAID EAST LINE OF THE WEST 45 RODS, A DISTANCE OF 274 2/7 RODS (4549.59 FEET MEASURED); THENCE SOUTH 89 DEGREES 57 MINUTES 24 SECONDS EAST, A DISTANCE OF 54 1/5 RODS (808.1 FEET MEASURED) TO THE WATER'S EDGE OF A LAKE DESIGNATED POLLOCK LAKE; THENCE NORTHERLY ALONG SAID WATER'S EDGE TO A POINT 20 RODS SOUTH OF THE NORTH LINE OF SAID SECTION, THENCE NORTH 89 DEGREES 57 MINUTES 24 SECONDS WEST, A DISTANCE OF 14 1/5 RODS (151.2 FEET MEASURED), THENCE NORTH 00 DEGREES 08 MINUTES 58 SECONDS EAST, A DISTANCE OF 20 RODS (330.0 FEET MEASURED) TO THE NORTH LINE OF SAID SECTION 23; THENCE NORTH 89 DEGREES 57 MINUTES 24 SECONDS WEST, A DISTANCE OF 80 RODS (1329.02 FEET MEASURED) TO THE NORTHWEST CORNER OF THE NORTHEAST QUARTER OF SAID SECTION 23; THENCE SOUTH 00 DEGREES 08 MINUTES 58 SECONDS WEST ON THE WEST LINE OF THE EAST HALF OF SAID SECTION 23, A DISTANCE 320 RODS (5291.90 FEET MEASURED) TO THE POINT OF BEGINNING; EXCEPT THEREFROM THAT PART LYING SOUTHERLY OF MILLER ROAD, AND EXCEPT THAT PART DESCRIBED AS FOLLOWS: BEGINNING AT THE INTERSECTION OF THE CENTERLINE OF MILLER ROAD AND THE EAST LINE OF THE WEST 45 RODS, AS STAKED AND OCCUPIED, OF THE SOUTHEAST QUARTER OF SAID SECTION 23; THENCE SOUTH 81 DEGREES 05 MINUTES 44 SECONDS WEST ALONG THE CENTERLINE OF MILLER ROAD, A DISTANCE OF 660 FEET (660.07 FEET MEASURED), THENCE NORTH 00 DEGREES 10 MINUTES 01 SECONDS EAST, A DISTANCE OF 694.28 FEET (694.64 FEET MEASURED), THENCE SOUTH 89 DEGREES 54 MINUTES 19 SECONDS EAST, A DISTANCE OF 325.89 FEET (326.02 FEET MEASURED), THENCE NORTH 00 DEGREES 10 MINUTES 51 SECONDS EAST, A DISTANCE OF 50.78 FEET TO A POINT 694.28 FEET NORTH OF THE CENTERLINE OF MILLER ROAD; THENCE SOUTH 89 DEGREES 54 MINUTES 19 SECONDS EAST, A DISTANCE OF 325.89 (325.87 FEET MEASURED) TO THE EAST LINE OF THE WEST 45 RODS AS STAKED AND OCCUPIED, OF THE SOUTHEAST QUARTER OF SAID SECTION 23, THENCE SOUTH 00 DEGREES 07 MINUTES 40 SECONDS WEST, A DISTANCE OF 642.37 FEET (642.18 FEET MEASURED) TO THE POINT OF BEGINNING, ALSO THE NORTHWEST QUARTER OF SAID SECTION 23, ALSO THAT PART OF THE EAST HALF OF THE SOUTHWEST QUARTER OF SAID SECTION 23 LYING NORTH OF MILLER ROAD, ALSO THE WEST HALF OF THE SOUTHWEST QUARTER OF SAID SECTION 23 (EXCEPT THE SOUTH 62 RODS THEREOF), ALL IN TOWNSHIP 46 NORTH, RANGE 10 EAST OF THE THIRD PRINCIPAL MERIDIAN, IN LAKE COUNTY, ILLINOIS.

PARCEL 2: THAT PART OF THE WEST HALF OF THE NORTHEAST QUARTER OF SECTION 22, TOWNSHIP 46 NORTH, RANGE 10, EAST OF THE THIRD PRINCIPAL MERIDIAN, DESCRIBED AS: BEGINNING AT THE SOUTHWEST CORNER OF THE NORTHEAST QUARTER OF SAID SECTION 22; THENCE NORTH 0 DEGREES 02 MINUTES 53 SECONDS EAST ON THE WEST LINE OF SAID NORTHEAST QUARTER, A DISTANCE OF 239.95 FEET TO A POINT IN THE SOUTHERLY LINE OF WHITE ROAD; THENCE NORTH 43 DEGREES 12 MINUTES 44 SECONDS EAST ON THE SOUTHERLY LINE OF WHITE ROAD, A DISTANCE OF 1947.71 FEET TO A POINT IN THE EAST LINE OF THE WEST HALF OF THE NORTHEAST QUARTER OF SAID SECTION 22; THENCE SOUTH 0 DEGREES 04 MINUTES 38 SECONDS WEST ON THE EAST LINE OF SAID WEST HALF, A DISTANCE OF 1653.74 FEET TO THE SOUTHEAST CORNER OF SAID WEST HALF; THENCE SOUTH 89 DEGREES 45 MINUTES 05 SECONDS WEST ON THE SOUTH LINE OF SAID NORTHEAST QUARTER, A DISTANCE OF 1331.61 FEET TO THE POINT OF BEGINNING, IN LAKE COUNTY, ILLINOIS.

REQUEST: The property is currently zoned R-1, with a requirement that it be developed as a Planned Development, (P.U.D.), pursuant to Annexation Ordinance Number 89-2-6 and the Settlement Agreement pursuant to Court Order, (19th Judicial Circuit, Lake County Doc. #92MC17). The petitioner requests a specific P.U.D. within the existing R-1, One-family zoning district.

The Petition also includes the following attached exhibits: A) legal description of the property; B) "Request for Special Use Permit for Planned Unit Development;" C) "Request for Special Use Permit for Planned Unit Development" . . . Subdivision Code VARIATIONS and Zoning Ordinance VARIATIONS; D) Alternative Park Land Dedication of approximately 39 Acres; E) Alternative Park Land and Open Space Dedication of Approximately 97 Acres.

Exhibit C, the requested VARIATIONS are as follows:

EXHIBIT C

**REQUEST FOR SPECIAL USE PERMIT
FOR PLANNED UNIT DEVELOPMENT**

A. Subdivision Code Variations

Pursuant to Section 105.110 of the Zoning Ordinance, Petitioner requests variances from the following technical provisions of the Subdivision Code:

- Section 152.016, Table of Minimum Standards for Street Design, Radii of Horizontal Curves. The radii of horizontal curves for the streets that are listed in the column identified as "Collector or Standard" in Tab M of this Petition are less than required by the Table of Minimum Standards.
- Section 152.016(O) regarding maximum length for dead-end streets (cul-de-sacs). The lengths of the seven dead-end streets (cul-de-sacs) listed in the column identified as "Required Modifications" in Tab M of this Petition exceed the maximum length permitted by Section 152.016(O).

Variances from the foregoing provisions of the Subdivision Code are requested by Petitioner for the following reason. Strict compliance with the technical provisions of the Subdivision Code would make it difficult to design the Illustrative Plan in such a way as to protect a substantial amount of the natural features on the Subject Property. The natural features are unique to the site, and it is the Petitioner's desire to preserve such features to the extent feasible.

B. Zoning Ordinance Variations

Petitioner filed its original Petition in this proceeding on January 28, 2000. On that date and during the time the original Petition was being considered by the Plan Commission, the minimum lot size in a Planned Unit Development pursuant to Section 150.108(A)(3) of the Zoning Ordinance was 5,000 square feet. On June 5, 2000, the Village Board amended Section 150.108(A)(3) to increase the minimum lot size in a Planned Unit Development to 6,600 square feet. This Amended Petition is a revision of the original Petition but is not a new zoning proceeding; the development project described in the original Petition was simply withdrawn from the Village Board's consideration on the evening of June 19, 2000, pursuant to a letter from Christopher Lebling, Division Manager of Petitioner, to Timothy Wells, Village Administrator. Mr. Lebling's letter stated that Petitioner would make modifications to the development plan and resubmit it to the Plan Commission for review and approval. Therefore, the Zoning Ordinance in effect on January 28, 2000 is applicable to this Amended Petition, and amended Section 150.108(A)(3) does not apply to this Amended Petition. Petitioner submits that, although some of the lots shown on the

Illustrative Plan are between 6,000 square feet and 6,600 square feet, a variation is not required because all lots are greater than 5,000 square feet in accordance with former Section 150.108(A)(3).

However, if the Village concludes that Section 150.108(A)(3), as amended on June 5, 2000, is applicable to this Amended Petition, Petitioner requests a variation pursuant to Section 150.110 of the Zoning Ordinance to approve approximately 238 lots of between 6,000 and 6,600 square feet in area. In support of this request, Petitioner states as follows:

- The average lot size of all lots on the Illustrative Plan is approximately 8,200 square feet.
- Petitioner proposes lot sizes ranging from approximately 6,069 square feet to 22,693 square feet, consistent with Section 150.108(A)(1)(a)(5) and (3)(b), as amended.
- Section 150.108(A)(3)(b) of the Zoning Ordinance states that lot sizes in a Planned Unit Development are not controlled by the lot size standards in the underlying zoning district (in this case R-1), and Petitioner proposes to develop the Subject Property as a Planned Unit Development as required by Ordinance 89-1-6, former Section 150.027(B) of the Zoning Ordinance, and the Settlement Agreement Pursuant To Court Order.
- The Settlement Agreement permits Petitioner to have up to 556 lots of 5,000 square feet and 6,000 square feet in area. Petitioner's smallest lot is approximately 6,069 square feet, and Petitioner only proposes approximately 238 lots between 6,000 and 6,600 square feet.
- Strict compliance with Section 150.108(A)(3)(b), as amended, would require Petitioner to compress the lot sizes into a narrower range and thereby reduce the housing products offered.
- Petitioner is providing considerably more usable open space than the 10% required by Section 150.108(A)(4). In fact, Petitioner is providing the following usable space:

% Buffers containing walking paths	62.44 acres;
% Homer White Lake	47.67 acres;
% Public park dedication	39 acres; and
% Private recreational areas (Community Center, Club Center and tot lots)	10.95 acres

This totals 160.06 acres, or 25% of the Subject Property, for usable open space. In addition, the site will contain additional open space as itemized on the Illustrative Plan. All of the open space combined totals approximately 278 acres or 44% of the site.

7. A variance from the minimum lot size requirement of Section 150.108(A)(3)(b), as amended, is warranted for the reasons stated above. In addition, strict compliance with the minimum lot size requirement would make it difficult to design the Illustrative Plan in such a way as to preserve as much open space as is being provided as well as the natural features on the site. Further, strict compliance with that requirement would limit the range of housing choices being offered by the Petitioner.

PROPOSAL: Petitioner proposes to develop the property as a residential P.U.D. with a total of 1308 dwelling units, all of them detached single-family homes. The proposed Preliminary P.U.D. Plan includes the following documents: Preliminary Engineering, dated 01-06-00 and last revised 6/27/00 consisting of eleven sheets, and prepared by Manhard Consulting, Ltd., Vernon Hills, Illinois; and Illustrative Plan, Masterplanned Community, dated January 11, 2000 and revised dated June 27, 2000, consisting of one sheet, and prepared by Bloodgood Sharp & Buster, Palatine, Illinois.

Copies of the complete petition package, including petition exhibits, proposed plan, and supporting documentation, may be viewed by the public at the Office of Village Clerk, 874 Main Street, and the Ready Reference Section of the Antioch Public Library, 757 Main Street.

DATE: Thursday, July 27, 2000

TIME: 7:30 p.m.

PLACE: Board Room, Village Hall
874 Main Street, Antioch, IL 60002

All persons desiring to appear and be heard thereon for or against said petition may appear at said hearing and be heard.

PROJECTS

House of Representatives.

"The recent flooding on the Des Plaines River highlights the need to complete the Des Plaines River Flood Control Project," said Crane in a written statement. "It is a priority to complete this flood control project and give those threatened by flooding in eastern Lake County additional protection."

The Bill appropriated \$400,000 for planning, engineering and design work for Phase I of the Des Plaines River Project that encompasses 12 Lake County communities (see chart).

The U.S. Army Corps of Engineers, along with Lake County's Stormwater Management Commission (SMC) and local sponsors developed Phase I of the project as a result of the floods that hit the county in 1986-87. Flood damages back then totaled over \$100 million, in contrast to the yearly average of \$25 million in damages that are attributed to the upper Des Plaines River.

According to SMC Executive Director Ward Miller, the \$31.7 million flood control plan of Phase I is limited to structural flood control projects along the river, and only reduces the overall flood damage by 25 percent. Miller noted that Phase I has a total of six projects that will take approximately 10 years to complete.

An additional \$750,000 in the House Bill will be applied toward a feasibility study of Phase II of the project. Miller said Phase II will be a four-to-five year project that will address the remaining 75 percent of flood damages from Phase I. The study will cost \$6 million, with half being paid through federal funds, and the remaining \$3 million being split between state and local agencies.

The Squaw Creek project has \$150,000 appropriated to continue its work of improving the water quality of the creek as well as reducing the threat of floods in the Round Lake and Long Lake communities.

According to Tony Wolff, a SMC watershed engineer, the Squaw Creek

sub-water shed has 44 problem sites that include roads, buildings and infrastructures. He noted that those problems fall into five categories that include overbank flooding, local drainage, depressional flooding, septic problems and sewer backups.

Wolff said the quality of water in the creek is not only affected by sediment and dirt from soil erosion along

the stream banks.

The Squaw Creek project, which Miller said will be completed within the next two years, will also complement the installation of floodgates in two Fox River dams just south of the Chain O' Lakes.

The legislation for the funding will now go on to the Senate for further consideration.

CIVIL WAR

The re-enactors come from all over the mid-west and will begin setting up camp that Saturday to be ready for the Twilight Tours offered in the evening.

"The tours are each an hour long," Osborne said. "They have four, 15-minute stops that show what typical camp life would be like."

Reservations and pre-payment are required for the special Civil War Twilight Tour. Osborne urged that even though reservations may be made the day of the tours, only groups of 20 are allowed through at one time.

"The best times, right around twilight, are already beginning to fill up," he said.

The tours are offered from 5 to 9 p.m. and will show evening camp life of both Union and Confederate soldiers. An artillery drill will conclude the night, beginning at 8:30 p.m.

July 9, visitors are free to wander around the campsites anytime between 10 a.m. and 4 p.m.

Along with soldier artillery and infantry drills, there will be medical demonstrations, old-fashioned children's games and sutler vending.

"Sutlers used to follow the war units around," Osborne explained.

PUBLIC NOTICE
ORDINANCE NO. 00-6-2

WHEREAS, the State of Illinois has enacted "An Act regulating wages of laborers, mechanics and other workmen employed in any public works by the State, County, City or any public body of any political subdivision or by any one under contract for public work", approved June 26, 1941, as amended, being Section 130.01 thru 130.12, Chapter 820, Illinois Revised Statutes, 1992, and

WHEREAS, the aforesaid Act required that the Round Lake Area Park District of County of Lake investigate and ascertain the prevailing rate of Wages as defined in said Act for laborers, mechanics, and other workmen in the locality of the County of Lake employed in performing construction of public works, for said Round Lake Area Park District.

NOW THEREFORE, BE IT ORDAINED BY THE PRESIDENT AND BOARD OF COMMISSIONERS OF THE ROUND LAKE AREA PARK DISTRICT:

SECTION 1: To the extent and as required by "An Act regulating wages of laborers, mechanics and other workmen employed in any public works by the State, County or any public body of any political subdivision or by any one under contract for public work", approved June 26, 1941, as amended, the general prevailing rate of wages in this locality for laborers, mechanics and other workmen engaged in the construction of public works coming under the jurisdiction of this Park District is hereby ascertained to be the same as the prevailing rate of wages for construction work in Lake County area as determined by the Department of Labor of the State of Illinois as of June, 2000, a copy of that determination being attached hereto and incorporated herein by reference.

The definition of any terms appearing in this Ordinance which are also used in aforesaid Act shall be the same as in said Act.

SECTION 2: Nothing herein contained shall be construed to apply said general prevailing rate of wages as herein ascertained to any work or employment except public works construction of this Park District to the extent required by the aforesaid Act.

SECTION 3: The Round Lake Area Park District Secretary shall publicly post or keep available for inspection by any interested party in the main office of this Park District this determination of such prevailing rate of wage.

SECTION 4: The Round Lake Area Park District Secretary shall mail a copy of this determination to any employer, and to any association of employers and to any person or association of employees who have filed, or file their names and addresses requesting copies of any determination stating the particular rates and the particular class of workmen whose wages will be affected by such rates.

SECTION 5: The Round Lake Area Park District Secretary shall promptly file a certified copy of this Ordinance with both the Secretary of the State and the Department of Labor of the State of Illinois.

SECTION 6: The Round Lake Area Park District Secretary shall cause to be published in a newspaper of general circulation within the area a copy of this Ordinance, and such publication shall constitute notice that the determination is effective and that this is the determination of this public body.

STATE OF ILLINOIS)
COUNTY OF LAKE) SS

SECRETARY'S CERTIFICATE

I, Carl Hauser, DO HEREBY CERTIFY that I am Secretary of the Board of Park Commissioners of the Round Lake Area Park District, Lake County, Illinois, and as such official, I am keeper of the records, ordinances, files and seal of said Park District, and

I HEREBY CERTIFY that the foregoing instrument is a true and correct copy of AN ORDINANCE ADOPTING PREVAILING WAGE RATES TO BE PAID TO LABORERS, MECHANICS AND OTHER WORKERS PERFORMING CONSTRUCTION OF PUBLIC WORKS FOR THE PARK DISTRICT adopted at a duly called Regular Meeting of the Board of Park Commissioners of the Round Lake Area Park District, held at Round Lake, Illinois, in said District at 7:30 pm on the 8th day of June, 2000.

I DO FURTHER CERTIFY that the deliberations of the Board on the adoption of said Ordinance were conducted openly, that the vote on the adoption of said Ordinance was taken openly, that said meeting was called and held at a specified time and place convenient to the public; that notice of said meeting was duly given to all of the news media requesting such notice, that said meeting was called and held in strict compliance with the provisions of the Open Meetings Act of the State of Illinois, as amended, and with the provisions of the Park District Code of the State of Illinois, as amended, and that the Board has complied with all of the provisions of said Act and said Code and with all of the procedural rules of the Board.

IN WITNESS WHEREOF, I hereunto affix my official signature and the seal of said Park District at Round Lake, Illinois, this 8th day of June, 2000.

/s/ Carl Hauser, Secretary
Board of Park Commissioners

*Do you own a pet with a medical illness?
 Is your veterinarian having difficulty finding the proper treatment?
 Are you having trouble administering your pet's current medication?*
Petranek's Pharmacy can help.
 The pharmacists at Petranek's have years of experience compounding prescriptions from area veterinarians. Treatment options that would not otherwise be available can be made right in the pharmacy. Oral medications can be made in a variety of forms and flavors to ease administration to your pet.
 If your veterinarian is having difficulty treating your pet with current available medications, have him or her give us a call to discuss treatment options.
 Petranek's Pharmacy is conveniently located in downtown Libertyville on the east side of Milwaukee Avenue between Cook and Church Streets.

PET TALK By John Csiha

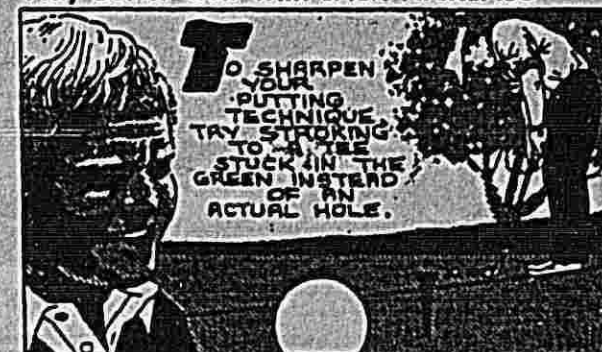

Fellow of American College of Veterinary Pharmacists

The summer season is upon us - long hot days and bright summer sun. During this time of year, the temperature inside an automobile can quickly climb to over 100 degrees. Cars can be a potential death trap during the hot summer months for pets. It is best to leave your pet at home, but if you must take you pet with you in the car please do the following; open windows and vents as wide as possible without providing an escape route. Check on your pet about every 10 minutes and provide your animal with fresh water. Watch for signs of heatstroke which may include excessive panting, rapid heartbeat, unusual behavior, warm dry skin and fever or vomiting. If your pet shows signs of heatstroke the body temperature must be lowered quickly. This can be done by immersion in water or spraying with a garden hose. You can also rub the pads of the feet with rubbing alcohol or by applying an icepack to the animals head and neck. Encourage the animal to drink, and call your vet immediately.

John J. Csiha is a Pharmacist specializing in compounding of veterinary Prescriptions. He can be reached at Petranek's Pharmacy in downtown Libertyville.

The Servant as a Leader

People who don't serve others appear to be cold and callous. I learned this quality first hand several years ago when I worked in an office of about 200 people. We had coffee service in two separate serving areas. I noticed that the coffee pots, in both areas, were always empty. On several occasions I overheard conversations where people were grumbling about this situation.

Then, one day, everything changed. The pots were always filled with coffee and people were looking for opportunities to refill the empty pots. We found out later that a new employee, who never drank coffee, noticed the problem and decided to fix it by serving all of the coffee drinkers in the office. Since he came in early, he started brewing coffee before most people arrived, in both locations. During the day he checked to see if he could fill the pots. Soon others saw the value of his attitude and began filling the empty pots. The grumbling stopped. I was the person responsible for this area but this new employee was the leader in this situation.

Last year John C. Maxwell released a book titled *The 21 Indispensable Qualities of a Leader* (Nashville: Thomas Nelson, 1999.) In that book he devotes an entire chapter to teaching us that great leaders must be servants. Chapter 19 is devoted entirely to the quality of servanthood. (The chapters are in alphabetic order by the name of the Quality, not in order of importance.) He stresses that "servanthood is not about position or skill. It's about attitude." The motivation for servanthood must be an innate (or developed) caring attitude for others.

Since the coffee incident I've noticed that those who choose to care for others and to serve them, usually have better interpersonal relationships than those who choose not to serve. They have better communication skills because they are communicating on a much deeper level. They also have fewer problems at work, because people appreciate them. These are all side effects of the servant attitude, however, not the primary objective. The motivation always needs to be a love of other people or the acts of service will seem contrived.

How can you serve others? Here are some ideas.

- Bring a candy dish to work and keep it filled.
- Work overtime to cover for a peer whose child is in a school play.
- Share all of the information you have with everyone who needs it.
- Bring in donuts for the people in your department.
- Pick up a co-worker who needs to have auto repairs done.
- As you can see the list is endless. Look for opportunities.

ATTENTION PET OWNERS WE DO NOT KNOWINGLY ACCEPT ADS FOR ANIMALS IN OUR FREE/ GIVE AWAY COLUMN. If you must give up your pet, please consider these facts.

*Free animal ads suggest that there is something wrong with the animal, or that it has no value. *Some people who respond to these free animal ads are not reputable and are more concerned about making a profit than the animal.

*Charging a fee to a potential pet owner confirms the responsibility of pet ownership for an entire lifetime of that pet. For more information, please contact the Humane Society.

ARE YOU SPRING CLEANING?? GET RID OF THE CLUTTER AND RUN A FREE or GIVEAWAY Ad in the Lakeland Classifieds. Free and Giveaways are run at NO CHARGE! (We discourage any pet ads). Deadlines: 10am Wednesdays. (847) 223-8161, ext. 140.

How To Survive The Job Search

By Nancy Sakol

Q: I have been employed as a temporary with an agency called (name withheld). While I have only done a few assignments here and there, I have always liked the idea of being able to have the flexibility to accept short or long term assignments as I pleased and to work when I want. I have taken on an assignment that started in the middle of December and is, as my agency called it, "indefinite," meaning that the assignment could last until "whenever." So here I have been for the past few weeks, enjoying what it is I do, but I was upset when all the regular employees of the company were handed their Christmas bonuses and I received nothing. Also disturbing to me was that I was told that I would not receive "holiday pay." The company closed down for Christmas on Wednesday and was not to reopen until Monday. Therefore I was set to lose 2 full days pay. In anger, I contacted my agency to ask why I had to suffer for the company being closed and told them how wrong I thought it was that I received nothing. Perhaps I was wrong for doing so. They were not very supportive, and looking back on the conversation, perhaps I was harsh. I could use the extra money, though. Do you think that I should leave this assignment? Do agencies remember their employees at Christmas?
 L.G. - Lake Bluff

A: Who couldn't use some extra cash during the holiday. Keep in mind that the company for which you are on assignment, is not looking at you as their employee. For you to be angry that you were passed over for a Christmas bonus at a company for which you were doing an assignment is wrong. Besides you have only been there for a few weeks. You didn't mention whether or not you were included in any other festivities at the assignment. But in reality, you do not work directly for them. As far as your agency is concerned, I hope that your call to them in anger did not cause too much of a problem. There is always the possibility that there was something special for you, whether it be in the form of monies or a gift. In either case, I know quite a few people who would have a difficult time giving anything to someone who acted as though it was "expected," and was blatantly rude about it. In answer to your question, should you leave the assignment...truth is, after dissecting your letter where you stated that "I could use the extra money," well then why don't you concentrate more on settling into a permanent position with a company who can then treat you as one of the staff? Granted you claim you like the flexibility, but that is part of the give and take. Having a "what have you done for me lately" attitude is not a healthy one.

Send your inquiries to our new website
 www.superiorpersonnel.com
